HOME GROUNDS OF JOHN F. MEYER

M. & S. Roland Park Lawn Grass

One of the most essential parts of the country place and suburban home is a carefully made and well-kept lawn. No trouble should be spared in its making, as much of the future results depend upon the start or foundation of the lawn, which, if correctly made, can easily be kept in perfect condition for years, and give pleasure not only to the owner, but to others who see it. In seeding for lawn-making, care should be taken that a well-balanced mixture of grasses is used, one composed of such varieties as will blend together well and also ripen successively, thus securing a healthy and beautiful color throughout the summer. Our M. & S. Roland Park Lawn Grass Seed produce beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvet appearance throughout the entire summer and fall. In making up this brand we are careful to use seed that has been thoroughly re-cleaned, the light seed and chaff having been blown out. 1 lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.60; 10 lbs. \$3.50; bushel of 30 lbs. \$10.00.

M. & S. SEADY NOOK GRASS—It is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees. 1 lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.60; 10 lbs. \$3.50; bushel of 30 lbs. \$10.00.

M. & S. PLEASURE GROUND MIXTURE—For fair greens, etc. The turf required for pleasure grounds must be of a character to withstand rough usage. This special mixture is made from our own formula, and will produce a permanent turf that will stand the hardest wear. For tennis courts, cricket tables, golf links, polo grounds, or wherever a good sward is wanted, this seed will give perfect satisfaction. We believe that the golf links should be as fine as a velvety lawn, hence the need of a fine mixture. 1 lb. 40c; 3 lbs. \$1.15; 5 lbs. \$1.60; 10 lbs. \$3.50; bushel of 30 lbs. \$10.00.

Beautify the Home Grounds

In considering the purposes of planting in the home grounds, more and more emphasis is being put upon providing a place of reasonable seclusion where the life of the family may be carried on in pleasant weather amid the delightful surroundings afforded by a garden. Such a place becomes, in effect, an outdoor living room. It is a logical answer to the demands of our summer weather; it carries further the idea which has popularized porch life and puts to valuable use costly space which is frequently wasted.

Why should the owner of a 50-foot lot, 100 feet deep, be satisfied to confine his real use of that area to the space covered by his house, perhaps 25 by 40? If \$1,500 be taken as the average ground value of the small home grounds, \$300 worth is all that is thus used. The rest is commonly devoted to purely ornamental front lawn, and frequently unsightly back yard used, if at all, for hanging up clothes. For an expenditure of little more than the cost of a single piece of furniture in the living room, an outdoor apartment may be built, with grass for carpet, shrubbery for walls, and flowers for decorations, which may well be the most frequented part of the home during six months of the year.

We Supply Shrubbery and Trees for These Decorations.

M. & S. GOLF LINK MIXTURE—This mixture is composed exclusively of fine-bladed grasses which will withstand frequent close cutting and trampling. It does not contain any White Clover, the latter not being suitable for the closely cut golf lawn. It is very important that only grasses which fulfill all requirements for the golf course are used in this mixture. 1 lb. \$1.00; 3 lb. \$2.75; 5 lb. \$4.25; 10 lb. or more, at 80c per lb.

M. & S. SEASHORE LAWN GRASS—Is all that its name implies. 1 lb. 50c; 3 lbs. \$1.25; 5 lbs. \$2.25; 10 lbs. \$4.25; bushel of 30 lbs. \$12.00.

SOUTH GERMAN BENT GRASS—Especially adapted for putting greens and wherever a velvet-like lawn is wanted. 1 lb. \$1.25. Special price in quantities on quotation.

WHITE CLOVER— $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; 1 lb. 60c.

PRICES ON GRASSES ARE SUBJECT TO MARKET FLUCTUATIONS

Seventeenth Annual Edition The Meyer Seed Co.'s Garden Book for 1927

A Personal Message to My Friends and Customers

I FEEL that my relations with many of you are so intimate and have existed for so many years that a little story of my career is not out of place.

I have served many of you for thirty years, which is a source of pleasure to me, and I trust, to you. The following brief outline may be of interest.

While most boys of my age were at school, I was waiting on the trade in a small stationery store at Pratt and Gay Streets, known as Gaff Topsail Corner. Some few of you whom I am serving now were my customers then, although that was forty odd years ago.

At this store I came in daily contact with masters of sailing ships, who reached our port from every corner of the Seven Seas. Thus it was natural that I should begin to yearn for a life before the mast—after listening to their tales of strange places. Finally I received my parents consent to go to sea, and in 1887 set sail. For eleven years I followed this adventurous yet hard life, when I drifted back to Baltimore and decided to stick to dry land.

I joined the organization of one of the oldest seed houses in the United States and later served several others. Finally I had charge of the seed department of a well-known firm, in which capacity I functioned for several years.

Having gained some knowledge of the seed industry in general, and feeling myself competent, I was instrumental in founding the present firm in 1910. This business has proved a success, thanks to the active support of my friends and the cooperation of a capable personnel. It has shown a steady growth and now ranks among the representative enterprises of its kind.

Our organization is constantly on the alert to live up to our motto: "Sterling quality, courteous treatment and punctuality." We are constantly trying to secure new, proven varieties in flowers and vegetables to help make gardening a success.

With thanks for your valued patronage, and every wish for our continued pleasant business relationship,
Yours for service,

John F. Meyer

President

We now take a great deal of pleasure in presenting you with our Garden Book for the season of 1927. To those who have bought from us in the past we again assure the same courteous service, high quality merchandise and prompt attention, and to those who may give us a trial this year, we wish to say that it is our intention to so satisfy them in every way that they will remain satisfied customers.

It is at all times our aim to handle only the best in any seeds, bulbs or plants we may send out, our contracts being made with the most careful growers in localities where the different varieties succeed the best and you will not regret placing orders with us.

Although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we give no warranty, express or implied as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants we send out, and will not be responsible for the crop. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

Prices are subject to market fluctuations.

IMPORTANT—Merchandise to be credited must be returned within five days in good order free of expense to us. Parties having no account with us—who order goods without remittance—must furnish satisfactory reference. Baltimore reference preferred on account of the shorter delay pending investigation. Order Sheet is provided in this book.

Write Name and Address plainly and if your postoffice is different from express or freight office, note same carefully.

PARCEL POST RATES

We deliver by PARCEL POST FREE to any Postoffice in the United States all cash orders for Flower and Vegetable Seeds, Peas, Beans, Corn, and Field Seeds up to 2 lbs. No seed delivered free unless order is accompanied with the cash. For postage on Peas, Beans, Corn, Field Seeds in larger quantities and All Merchandise, consult table below. All merchandise other than seeds, bulbs and plants up to and including 4 oz. in weight can be sent at the rate of 1c an ounce regardless of distance. Over 4 ozs. at the Zone Rate.

NOTE:—When estimating postage on goods not included in our free delivery, bear in mind that while the packing on one pound may only weigh the fraction of a pound, it must be considered as a full pound when adding postage. On larger quantities add postage in proportion.

Limit of weight for delivery within local, first, second and third zones is 70 pounds; to all other zones, 50 pounds.

When larger quantities are wanted we can pack in two or more parcels if necessary, provided money is remitted to cover postage.

	Each	1st lb.	Add'l. lb.
1 and 2 zone—150 miles.....	7c	1c	
3 zone—150 to 300 miles.....	8c	2c

POULTRY SUPPLIES

Anti-Setting	71</
--------------	------

Plant in succession.
Keep your garden space
busy all the time, and you
will be eating fresh vege-
tables all summer at a profit.

Planting Calendar

Make Your Garden Work
Spring, Summer, and Fall.

FLOWERS

MARCH

Sow Outdoors	
Sweet Peas.	
Plant Indoors	
Set Out	
Ageratum	May 1
Antirrhinum (Snap- dragon)	May 15
Asters	May 10
Carnation, Marguerite	May 1
Celosia, Cockscomb	May 1
Cobea scandens	May 1
Heliotrope	May 10
Hollyhock	May 10
Lobelia	May 1
Pansy	May 1
Petunia	May 1
Salvia	May 1
Stocks (Gilliflower)	May 15
Verbena	May 1
Wallflower	May 1

APRIL

Sow outdoors Nasturtiums.	
All those listed for March may also be planted in April, and, in addition, the following:	
Sow Indoors	
Set Out	
Alyssum	May 1
Calendula	May 1
Coleus	May 15
Cosmos, Late	May 1
Dahlias	May 1
Delphinium Chinese	May 15
Gourds, Ornamental	May 1
Heliopsis	May 1
Marigold	May 1
Mignonette	May 1
Nicotiana	May 1
Phlox Drummondii	May 1
Poppy, Iceland	May 15
Ricinus (Caster-Oil Plant)	May 10
Salpiglossis	May 10
Scabiosa	May 1
Vinca rosea	May 10
Zinnia	May 1

MAY

This is the month of outdoor sowing and planting. The following list of flowers comprises those which may be sown in the open, and which will mature into perfection before frosty weather sets in.

Sow Outdoors
(Do not require transplanting)

Sweet Alyssum
Calendula
Calliopsis
Candytuft
Centaurea (Bachelor's Button)
Chrysanthemum, Annual
Clarkia elegans
Cosmos, Early

MAY—Continued	
Delphinium Chinese	
Dianthus (Chinese Pinks)	
Eschscholtzia (California Poppy)	
Gaillardia (Blanket Flower)	
Godetia	
Ornamental Gourds	
Helianthus cucumerifolius (Miniature Sunflower)	
Hunnemannia fumariifolia	
Larkspur, Annual	
Lupinus, Annual	
Marigold	
Mignonette	
Morning Glory	
Nasturtiums	
Petunia	
Phlox Drummondii	
Poppy	
Portulaca	
Salpiglossis	
Scabiosa	
Verbena	
Zinnia	
and all other annuals (Should be transplanted)	
Asters	
Balsam	
Celosia (Cockscomb)	
Cosmos, Late	
Dahlias	
Marigold	
Mignonette	
Nicotiana	
Ricinus	

JUNE

This is the month to sow perennials. The varieties listed below can easily be grown from seed. All of them may be sown from June till middle of September.

To Remain Where Sown

Alyssum saxatile compactum
Aconitum (Monks' Hood)
Aquilegia (Columbine)
Asters, Hardy
Coreopsis
Campanula (Bluebells)
Candytuft, Sempervirens
Hibiscus
Lupinus
Poppies, Iceland
Poppies, Oriental
Sweet William
Valerian (Garden Heliotrope)

To Be Transplanted

Canterbury Bells
Delphinium (Larkspur)
Digitalis (Foxglove)
Gaillardia grandiflora
Hollyhocks
Pyrethrum

FLOWERS—Continued

JULY

This is the most important month for sowing some flower seeds. The following biennials, if sown in July and transplanted

in August or September, will flower the following spring.

Variety	
Bellis (English Daisies)	
Pansies	
Myosotis (Forget-me-not)	

Bulbs, Tuberous Roots and Potted Plants

MAY	
Plant Outdoors	
Begonias	Dahlias
Caladiums	Gladioli
Peonies	Tuberose
Cannas	

SEPTEMBER, OCTOBER AND NOVEMBER	
Hyacinths	Lilies
Tulips	Jonquils
Narcissus	Crocus
In fact, all Spring Flowering Bulbs.	

VEGETABLES

MARCH

The only vegetables to be planted out-of-doors in March. All early peas and onion sets. There are a number of vegetables, however, which may be started indoors or in hotbeds.

Plant Indoors	
Set Out	
Artichoke, Globe	June 1
Cabbage, Early	April 1
Cauliflower, Early	May 1
Celery	June 1
Eggplant	May 15
Kohlrabi	April 15
Lettuce	April 15
Parsley	May 1
Pepper	May 15
Tomato	May 1

Outdoors

Peas, Early Smooth
Onion Sets

APRIL

All the seeds mentioned in the March table can be started in April, and also the following:

Plant Indoors	
Set Out	
Beets	May
Brussels Sprouts	June
Cabbage, Late	June
Cauliflower, Late	June

Plant Outdoors

Asparagus, Parsley
Roots Parsnip
Beets Peas, Early
Carrots Wrinkled
Cress Potatoes
Kohlrabi Radish
Lettuce Rhubarb, Root
Mustard Swiss Chard
Onion Seed Squash
Onion Sets Turnip
Set out Lettuce started in-
doors in March.

MAY

Plant Outdoors

Asparagus Seed	Watermelon
Beans, Bush	Okra
Beans, Pole	Peas, Late
Corn, Sugar	Pumpkin
Cucumber	Squash
Muskmelon	

All the seeds mentioned in the April table may also be sown in May.
Set out early cabbage, early cauliflower and tomato plants started indoors in March and April.

JUNE

Plant Outdoors

Beans, Late Bush
Beans, Late Pole
Set out Globe artichokes, Brussels sprouts, late cabbage, cauliflower, celery, eggplants, and peppers which have started indoors.
Plant Swiss chard, sugar corn, lettuce, late peas, radishes, beets and turnips for late crops.

JULY AND AUGUST

Plant Outdoors

Stringless Green Pod Beans
Stringless Wax Pod Beans
Ruta Baga
Winter Radishes
Kale, Turnip
Spinach

SEPTEMBER AND OCTOBER

Plant Outdoors

Corn Salad, Spinach
Kale, Multiplying Onion
Plant Under Glass
Lettuce, Parsley
Early Radishes

Grow Vegetables for Winter Use

After you have harvested your early crop of vegetables why not plant a second crop for winter use?
It is in winter that vegetables cost most.
Your garden can be made to save you a great deal of money if you plant succession crops during the summer and early fall.
Sow Beets and Carrots any time during June. Turnips are sweetest if planted the latter part of June or early in July.
Summer Radishes can be sown all during June and July.
Sweet Corn sown the middle of June will give fine tender ears early in October. A row of Bush Beans planted during the first

week of July will bear an immense crop of juicy and snappy pods until frost.
Cucumbers planted the last two weeks in June will make the finest pickles you ever raised.
Also try a row of Chinese Cabbage. It does best if planted early in August. For a good supply of crisp and juicy Head Lettuce for the fall table, sow the seed about the second week in July. And don't forget to sow a long row of Spinach any time during August, to give plenty of greens until snow covers the ground.

SPRAYING TABLE

Use insecticides at the right time—and keep
your plants and flowers free from insect pests

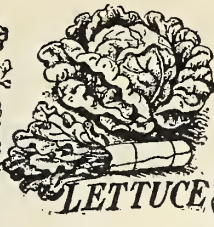

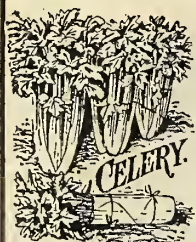

WHAT TO SPRAY AND WHAT TO SPRAY FOR	SPRAY WITH	TIME OF FIRST SPRAYING	TIME OF SECOND SPRAYING	TIME OF THIRD SPRAYING
APPLES—				
Bitter Rot.....	Bordeaux mixture, Pyrox.....	First appearance of rot.....	One to two weeks later.....	Two weeks later.
Canker Worm.....	Arsenate of lead, Pyrox.....	On first appearance of worms...	Two or three days later if worms remain.....	Same as second.
San Jose Scale.....	Scalecide or lime-sulphur.....	Just as the leaf buds are swell- ing.....	Just before the flower buds open.	As soon as the petals have fallen.
Scab.....	Scalecide or lime-sulphur.....	After the leaves have come out, but before the flower buds ap- pear.....	Within eight days from the time petals drop.....	One month later
Codling Moth.....	Arsenate of lead, Pyrox.....	Within eight days from the time the petals drop.....	One month later.	
ASPARAGUS—				
Beetle.....	Arsenate of lead, Pyrox.....	Early spring.		
Rust.....	Bordeaux mixture or Pyrox.....	After cutting crop.....	Ten days later.....	Ten days later.
CABBAGE AND CAULI- FLOWER.....	Slug Shot, Bug Death, Pyrox...	On first appearance of worms...	Whenever worms are noticed.	
CELERY.....	Bordeaux mixture, Pyrox.....	On young seedlings.....	Repeat on seedlings.....	Before or after transplanting.
CHERRY—				
Aphis.....	Black Leaf 40, Scalecide or lime- sulphur.....	At first appearance.....	Repeat as necessary.	
San Jose Scale.....	Scalecide or lime-sulphur.....	Spray same as for apples. Just before blossoms open.....	When fruit is free from calyx.	
Leaf-spot.....				
CUCUMBERS—				
Anthrachnose.....	Bordeaux mixture, Pyrox.....	When plants begin to run.....	Two weeks later.....	Two weeks later.
Downy Mildew.....	Bordeaux mixture, Pyrox.....	When plants begin to run.....	Ten days later.....	Nine days later
CURRENT—				
Leaf-spot.....	Bordeaux mixture, Pyrox.....	As leaves are unfolding.....	Two weeks later.....	Two weeks later.
Worm.....	White hellebore, Pyrox.....	When they first appear.....	In three or four days.....	Repeat three or four days later.
GOOSEBERRY—				
Leaf-spot.....	Bordeaux mixture, Pyrox.....	Before leaves start.....	Two weeks later.....	Two weeks later.
Worm.....	Same as for currants.			
Mildew.....	Grape dust, Pomo dust.....	When buds are breaking.....	Repeat every ten days until fruit is gathered.	
GRAPE—				
Anthrachnose.....	Bordeaux mixture, Pyrox.....	Just before the buds open.....	Just before blossoming.....	After fruit has set.
Berry Moth.....	Arsenate of lead, Pyrox.....	Before blossoms are ready to open.....	After blossoms have fallen.....	Ten days later.
Downy or Powdery Mildew...	Bordeaux mixture, Pyrox.....	Just before blossoming.....	After fruit has set.....	Ten days later.
Rot.....	Bordeaux mixture, Pyrox.....	Just before blossoming.....	Just after fruit has set.....	Eight days later.
MUSKMELON—				
Anthrachnose.....	Bordeaux mixture, Pyrox.....	When plants begin to vine.....	Two weeks later.....	Two weeks later
Downy Mildew.....	Bordeaux mixture, Pyrox.....	July 25 to August 1.....	Ten days later.....	Nine days later.
Leaf-blight.....	Bordeaux mixture, Pyrox.....	When plants begin to vine.....	Three weeks later.....	Three weeks later
PEACH—				
Leaf-Curl.....	Scalecide, lime-sulphur or bor- deaux mixture.....	In March or April, or both, to make doubly sure.....	Two or three weeks later.	
Brown Rot.....	Self-boiled lime-sulphur and arsenate of lead.....	About time shucks are shed- ding from young fruit or on first appearance.....		About one month before fruit ripens. Omit arsenate of lead.
Scab.....	Sulfocide, self-boiled lime-sul- phur.....	Just as buds begin to swell.....	After fruit has set.....	Repeat later when fruit is about half grown.
San Jose Scale.....	Scalecide or lime-sulphur.....	Spray same as for apples		
PEAR—				
Leaf-blight.....	Bordeaux mixture.....	Cut out the branches on first appearance on twigs.		
Psylla.....	Black Leaf 40 or whale-oil soap	In winter use commercial lime- sulphur for eggs.	After blossoms fall.....	Repeat at intervals of three to seven days.
PLUM—				
Curculio.....	Arsenate of lead.....	With starting of buds.....	Just after blossoms drop.....	Five days later.
Aphis.....	Whale-oil soap, Black Leaf 40 ..	On Appearance of Aphis.		
Shot-hole Fungus.....	Scalecide, lime-sulphur or bor- deaux mixture.....	When leaves are half grown.....	Three weeks later.....	Three weeks later if necessary.
Rot.....	Bordeaux mixture, Pyrox.....	As buds are swelling or on ap- pearance.....	Just after calyx drops.....	Three or four weeks later.
POTATO—				
Early blight.....	Bordeaux mixture, Pyrox.....	When plants are 6 inches high..	Seven to ten days later.....	Two weeks later.
Late blight.....	Bordeaux mixture, Pyrox.....	As for early blight to July.....	July 15 to 20.....	Two weeks later.
Potato Beetle.....	Paris green, slug shot bug death, Pyrox, Calcium arsenate	When pest appears.....	Repeat if necessary.	
RASPBERRY—				
Anthrachnose.....	Bordeaux mixture, Pyrox.....	Before leaves open.....	When new canes are 6 to 8 inches high.....	Ten days later.
Saw-fly.....	Paris green and arsenate of lead or hellebore.....	When pest appears.....	Repeat in three or four days.	
Leaf-spot.....	Bordeaux mixture, Pyrox.....	When leaves are half grown.....	Two weeks later.....	Two weeks later.
ROSE—				
Leaf-spot.....	Pomo dust, All in one dust, Pyrox	On first appearance of fungus...	Two or three weeks later.....	Repeat if necessary.
Mildew.....	Powdered sulphur, Pomo dust, All in one dust			
Slug, Aphis, etc.....	Thanatus, Black Leaf 40, Nico- fume Liquid, All in one dust	On appearance of slugs, etc....	Repeat if necessary.	
STRAWBERRY—				
Leaf-spot.....	Sulphate of iron, bordeaux mix- ture, Pyrox.....	Soon after growth begins.....	Make three or four sprayings during season.....	The following springs spray just be- fore blossoming and again 10 days later.
SQUASH—				
Aphis.....	Black Leaf 40.....	Spray under side of leaves.		
Lady Beetle.....	Arsenate of lead, Pyrox.....	As soon as pest appears.		
TOMATO—				
Anthrachnose.....	Bordeaux mixture, Pyrox.....	Soon after fruit begins to set	Three weeks later.....	Three weeks later.
Leaf-blight.....	Whale-oil, soap and water.....	Three weeks after transplanting	Three weeks later.....	Three weeks later.
White Fly.....	Bordeaux mixture, Pyrox.....	Spray underside of leaves thoroughly		

Gentlemen:

In using Pomo dust as a preventive for mildew and black spot, a disease that roses are most susceptible to, let me say I have found the above to be the most satisfactory of any article of similar kind on the market today. I have recommended it to the Maryland Rose Society in the fullest, and hear splendid results from its using. Bushes should be treated every ten days, with a light dusting of Pomo dust, from early Spring and throughout the Summer, using a dust gun to thoroughly distribute the Material.

Baltimore, Md., October 28, 1926.

ARTHUR E. WARNER, President, Maryland Rose Society.

Vegetable Plants and Roots

Cash with Order—No Plants Sent C. O. D.

SPECIAL NOTICE

All of our plants are produced from our M. & S. Sure Growing Seeds, and will give wonderful results. If wanted in larger quantities, write for special quotations.

ARTICHOKEs (Ready in April)

Jerusalem—Used for the table and stock feeding. Qt. 35c; peck \$1.50; per bushel of 60 lbs. \$5.00.

ASPARAGUS ROOTS (Ready Oct. 15 to May 15)

The two-year-old roots usually produce two years after planting.

2-Year-Old Roots.	Doz.	100	1000
Giant Argenteuil (Light Green Stalks).....	\$0.30	\$1.25	\$ 9.00
Columbian Mammoth White (White stalks)	0.30	1.25	9.00
Conover's (Green Stalks)	0.30	1.25	9.00
Palmetto (Green Stalks)	0.30	1.25	9.00
Washington (Dark Green Stalks).....	0.50	2.00	15.00

If wanted by mail add 10c to doz.; 15c to 100; 35c to 1000.

BET PLANTS (Ready April 1)

Popular Varieties—15c doz.; 60c per 100; by mail, add 5c to doz.; 15c to 100.

BORECOLE PLANTS (Ready July 1)

20c doz.; 75c per 100; by mail, add 5c to doz.; 15c to 100.

BRUSSELS SPROUTS (Ready in July)

Matchless Improved—12 for 25c; 75c per 100; per 1000, \$6.00. If wanted by mail, add 10c per 100 for postage; 5c per doz.

FROST-PROOF CABBAGE PLANTS

(Ready January to May)

Our FROST-PROOF CABBAGE PLANTS mean increased profits for the Market Gardener, and earlier cabbage for the Home Gardens, as they produce heads at least two or three weeks earlier than plants grown in hot beds or cold frames. They are tough and hardy and will stand any reasonable cold, even as low as 20 degrees above zero without damage to them.

These plants do not begin any new growth of their tops until the spring weather arrives, however, the roots of the plants have become so firmly established that the warm spring sunshine soon hastens the growth of them.

We advise all cabbage growers to set these plants at least a month to six weeks earlier than you would set home-grown plants to get the desired results.

Send in your order about a week or ten days before plants are wanted, as it takes a few days to get plants to you.

Varieties—Early Jersey Wakefield, Charleston Large Wakefield, Copenhagen Market, Early Flat Dutch and Succession.

Prices by parcel post prepaid: 50c per 100; 500 for \$1.60; 1,000 or more at \$3.00 per 1,000 plants.

By express, customer paying express charges: 1,000 to 4,000 at \$2.00 per 1,000; 5,000 or more plants at \$1.50 per 1,000; cash with order.

CABBAGE PLANTS (Season beginning April 1)

Early Sorts—From hot beds. 15c per doz.; 50c per 100; per 1000, \$4.00.

Late Sorts—Popular varieties. 15c doz.; per 100, 50c; \$4.00 per 1000. If cabbage plants are wanted by mail, add 10c per 100 for postage; 5c doz. Ready May 1st.

CAULIFLOWER PLANTS (Ready April 1)

Snowball, variety only—From hot beds. 25c per doz.; \$1.50 per 100. By mail, add 5c per doz., or 10c per 100 for postage charges.

CELERY PLANTS (Ready in July)

M. & S. Monarch, Golden Heart, White Plume, Giant Pascal, Winter Queen and Golden Self-Blanching. 25c dozen; \$1.00 per 100; 7.50 per 1000. By mail, allow 10c per 100 for postage; 5c per dozen.

EGG PLANTS (Ready after May 1)

Sold in pot-grown stock only.

M. & S. Ebony King and Black Beauty—7c each; 75c doz.; \$5.50 per 100. Best sent by express. Mail, add 2c to each plant.

HORSE RADISH ROOTS (Ready in March)

Maliner Kren (Bohemian)—Large, strong cuttings, 35c per doz.; per 100, \$1.00; \$7.00 per 1,000. If Horse Radish are wanted by mail, add 10c per 100 for postage; 5c per doz.

KOHL RABI PLANTS (Ready April 1)

Early White Vienna—20c doz.; 75c per 100; by mail, add 10c per 100; 5c doz.

LETTUCE PLANTS (Ready April 1)

Leading varieties—10c doz.; 50c per 100; \$4.00 per 1,000. If wanted by mail, add 10c per 100 for postage; 5c doz.

ONION PLANTS (January to May)

These are new, and especially suitable for home gardens. Seed is sown early in Texas, and the plants are lifted, to be replanted in northern garden, to produce sweet mature onions of Bermuda quality. Can be planted when ground is open and on through May. It has been proven that you can grow Bermuda Onions from Plants in every state in the United States. Frost and light freezes are a help in making a firm onion. The tops may freeze but it will not injure the bulb.

How to Plant—Sharpen a wooden stick, making a hole about two inches deep, place the plant in as you withdraw the stick and press dirt firmly with stroke from stick.

Cultivate very shallow as the onion roots grow near the surface and should not be disturbed. About all the cultivation needed is scratching to kill weeds.

VARIETIES YELLOW BERMUDA AND PRIZETAKER

Prices by parcel post prepaid: 50c per 100; 500 for \$1.60; 1,000 or more at \$3.00 per 1,000 plants.

By express charges collect: 1,000 to 4,000 at \$2.00 per 1,000; 5,000 or more plants at \$1.50 per 1,000.

PEPPER PLANTS (Ready in May)

Ruby King and Chinese Giant (sweet), Bull Nose (hot), and Long Red Cayenne—Hot Bed Grown. 25c per doz.; per 100, \$1.50. By mail, add 10c 100; 5c doz. Potted plants, sweet varieties only, 6c each; 60 doz.; \$4.50 100; if to go by parcel post, add 1c to each plant.

RHUBARB ROOTS (Ready October to May 15)

Victoria—First Size Roots. 10c each; \$1.00 per doz.; per 100, \$7.50. Allow 5c each or 20c dozen for postage, if wanted by mail.

SWEET POTATO PLANTS (Ready in May)

Yellow Big Stem and Up Rivers—50c per 100; 1,000, \$4.00. If wanted by mail, allow 15c per 100 for postage.

TOMATO PLANTS (Ready after April 15)

Pot-Grown Plants in the following varieties only: Earliana, M. & S. Incomparable, Chalk's Jewel, 5c each; doz. 50c; \$4.50 per 100. By mail, add 1c per plant.

Hot-Bed Plants all kinds and the best as above. 20c per doz.; per 100, 60c. By mail, allow 5c per doz.; 15c per 100.

We pay postage on pkts., ozs., ¼ lbs., 1 and 2 lbs. of Vegetable Seeds.

Asparagus—Seeds and Roots

(German—Spargel. French—Asperge)
(ROOTS READY AFTER MARCH 1st)One ounce to forty feet of drill; 5 lbs. per acre.
7,300 Asparagus Plants are needed to plant an acre.

Washington Asparagus.

Giant Argenteuil—A new and entirely distinct variety that produces shoots that are very thick, green, with a purple tinge, heads slightly pointed, close. Pkg. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.**Columbian Mammoth White**—Pkg. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.**Washington**—This asparagus, which has been selected by the United States Department of Agriculture, Washington, D. C., has proven to be nearly rust-free. The shoots are thick and heavy. They are long and straight, with closely folded tips. The color is rich dark green, tinted darker at the tips. It is a heavy yielder of exceptionally fine flavor. Pkt. 10c; oz. 25c; ¼ lb. 65c; lb. \$2.50.**Conover Colossal**—Of large size, tender and of excellent quality. Green shoots. Pkg. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.**Bart's Mammoth**—Producing heavy green spears. Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.**Palmetto**—It is of very large size, even and regular in growth and appearance. It is a very early sort, and immensely productive and of the best quality. Green shoots. Pkg. 10c; oz. 15c; ¼ lb. 25c; lb. 90c.

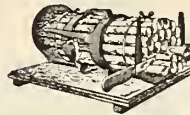

For Plants, see page 5.

The secret of a successful garden lies in the kind of fertilizer used. This is where you get a wagon load in a 100-lb. bag.

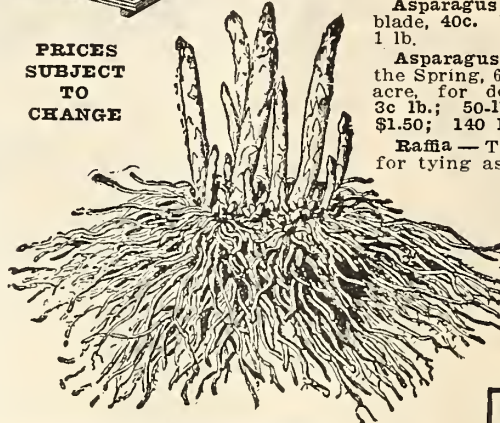

Wizard Brand Sheep Manure—Apply 1,000 lbs. per acre. For garden, lawn or greenhouse use. This is where you get a whole cart load of manure in a 100-lb. bag at a much lower figure. 2 lbs. 15c; 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$2.00; 100 lbs. \$3.00; 500 lbs. \$13.50; 1,000 lbs. \$25.00; per ton, \$47.50.**Wizard Brand Cow or Cattle Manure (Shredded)**—Convenient to handle, making it possible for everyone to get this usually scarce article at all times. This is where you get a wagon load of manure in a 100-lb. bag. 2 lbs. 15c; 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$2.00; 100 lbs. \$3.50; 500 lbs. \$16.25; 1,000 lbs. \$30.00; per ton, \$55.00.

Use Manure for your garden crops. We can sell you a whole wagon load in a bag of Wizard Brand Sheep or Cattle Manure, for much less money.

Accessories for Asparagus Culture

**Asparagus Buncher**—Even where one has a limited amount of asparagus to market it pays to use a buncher. It is quickly tied and looks uniform. With Knife Guard, \$4.00. Parcel post weight, 8 lbs.**Asparagus Knife**—V-shaped blade, 40c. Parcel post wgt., 1 lb.**Asparagus Salt**—Applied in the Spring, 600 to 800 lbs. per acre, for destroying weeds. 3c lb.; 50-lb. \$1.00; 100 lb. \$1.50; 140 lb. bag \$2.00.**Raffia**—The ideal material for tying asparagus, 25c per lb. in hanks. Special price in quantity; hank runs about 2½ pounds.**Jute Twine**—Very soft and pliable. 25c per ball.

Special price on quantities on application.

Makes a
WONDER GARDEN

Artichokes

Large Green Globe—This is a very delicious vegetable. Some prefer it cooked like asparagus—that is, take the flower head before it begins to open and cook much the same as asparagus. Pkt. 10c; oz. 50c; ¼ lb. \$1.40; 1 lb. \$5.00.**Artichoke Roots (Jerusalem)**—The tubers roasted or boiled, served with butter, salt and pepper, make a dish some think superior to potatoes. They are most excellent feed for cows, and will cause an increase in quantity and quality of milk.

Price, see page 5.

Jerusalem
Artichoke Root.

Broccoli

(German—Spargelkohl)
(French—Buccoli)

A plant much resembling the Cauliflower. Broccoli requires a longer season to develop than Cauliflower. It has more numerous and stiffer leaves; heads are smaller. Treat same as Cabbage.

One ounce of seed to 200 feet of row.
Early Large White—Heads medium size, close and compact. One of the most certain to head. Pkt. 10c; oz. \$1.00.**Early Purple Cape**—Rather hardier sort, with greenish-purple heads, good flavor. Pkt. 10c; oz. \$1.00.

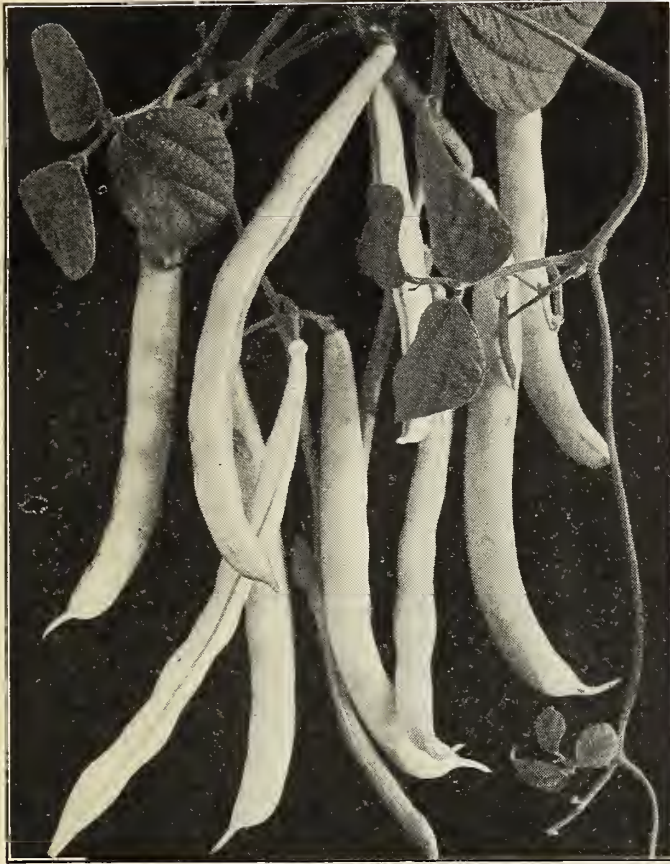

Brussels Sprouts

(German—Rosenkohl)
(French—Choux de
Bruxelle)Improved
Dwarf
Brussels
Sprouts.

A variety of the Cabbage family, possessing the peculiarity of bearing upon its stem or stalk from fifty to one hundred buds resembling miniature Cabbage heads. The leaves composing these heads resemble Savoy Cabbage in their crumpled texture and also in their color. The heads or buds, one to two inches in diameter, form one of the most delicious garden vegetables, only equalled by the Cauliflower. Treat same as Cabbage.

Improved Dwarf—Produces compact sprouts of finest quality; a good keeper. Pkt. 10c; oz. 30c; ¼ lb. 90c; lb. \$3.00

For Plants, see page 5.

M. & S. Sure Crop Stringless Wax.

BEANS—Bush Beans (Green Pod)

(German—Bohnen—French—Haricot Vert)
Bushel Prices of Beans on Application.

Postage prepaid up to 2 lbs.; 1 lb. about equals 1 pt.; 2 lbs. 1 qt.; 15 lbs. 1 peck; 60 lbs. 1 bushel. We furnish 7½ lbs at 15 lb. rate; 100 lbs. at 60 lb. rate.

CULTURE—The seed should not be planted before the ground becomes light and warm, in favorable seasons, usually about the middle of April to first of May. The soil should be rich and mellow, and the seeds scattered about three inches apart in drills two feet apart, and covered about two inches deep. Successive sowings made at intervals of about two weeks until August 15th, will give a plentiful supply of Beans all season. One quart of seed will sow 100 feet of drill; two bushels will sow an acre. We furnish 10c packages of all Beans.

Burpee's Stringless Green Pod—An ideal variety having round slightly curved, fleshy and exceedingly tender pods. Matures a few days earlier than the Giant sort. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.00; 60 lbs. \$10.00, equals 1 bushel.

Early Red Valentine—One of the most popular early snap beans with round, fleshy pods about five inches in length; very brittle, tender and of fine quality. Price same as above.

Black Valentine, or May Queen—Has very long handsome round pods, and being immensely productive places this variety as one of the most profitable for the market gardener. It is very early. Price same as above.

Bountiful—Easily the earliest and most productive flat, green-podded, stringless bush bean in cultivation today. Under favorable conditions of soil and season this variety has been known to bear one bushel of pods per 15-foot row, in the course of the season. The pods average 6 inches long by ¾ inches wide, are thick through, of pleasing light green color, very brittle and absolutely stringless at all stages of development. Bountiful tastes as good as it looks. Price same as above.

M. & S. Giant Stringless Green Pod Beans—Of finest quality, large handsome pods, some of which measure fully 6 inches in length. Very productive, very fleshy and entirely stringless. Specially adapted to the home garden. Price same as above.

Full Measure—A recent introduction. Heavy light green foliage. Very prolific. Pods 5½ to 6 inches long, stringless, round slightly curved, very good quality. Price same as above.

Dwarf Horticultural, or Cherry—This is a broad, long flat meaty bean, very productive, of delicious flavor; absolutely stringless. It also makes a good dried bean for winter. Price same as Burpee's Stringless Green Pod.

White Navy, or Boston Pea Beans—Yields large quantities of white shell beans, which are used for baking. Pkt. 10c; ½ lb. 20c; 1 lb. 35c; 2 lbs. 60c; 15 lbs. \$2.00; 60 lbs. \$7.00, equals 1 bushel.

Masterpiece—This is a large, flat-podded variety, especially adapted for growing under glass, though it may be grown successfully outdoors. 1 lb. 60c; 2 lbs. \$1.10.

Wax Pod Varieties

M. & S. SURE CROP STRINGLESS WAX—This is a grand bean of recent introduction. Absolutely stringless and a great rust resister. Will produce an abundance of long yellow flat pods. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.00; 60 lbs. \$10.00, equals 1 bushel.

Currie's Rust-Proof Black Wax—Valuable for general use, being early, hardy, and a heavy yielder. Extra long flat pods of fine color and not apt to rust. Price same as above.

Davis Kidney Wax—Beans handsome flat yellow pods. White seed. Price same as above.

Improved Golden Wax—Small plants of erect growth, bearing flat thick pods about 5 inches in length, and of excellent quality. An early and reliable variety, recommended for home use. Price same as above.

Pole String Beans (GREEN AND WAX POD)

CULTURE—Same as Pole Lima.

M. & S. Golden Cluster Wax—Deep yellow flat pods, often 8 inches long. Heavy yielder, bearing in large clusters. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.50.

Horticultural or Pole Cherry—Pods green, dashed with red when beans are matured. Very showy. Price same as above.

Yard Long, or Snake Beans—This is an ornamental as well as useful pole bean. Produces an abundance of dark green foliage and stringless green pods, often measuring from two to three feet long, which when cooked make a delicious dish. Seeds very small. Pkt. 10c; oz. 25c.

Burpee's Stringless Green Pod.

Humogerm Nitrogen Fixing Bacteria for all kinds of Beans—Means bigger crops, healthier vines, early and more continuous crops. ¼ bus. 35c; 1 bus. 60c; 5 bus. \$2.25. It will pay you to use this when you plant peas and beans. See page 29.

Pole Beans Continued on Next Page.

Kentucky Wonder, or
Old Homestead.

Kentucky Wonder, or Old Homestead—The most popular of the pole varieties, and it should be in every garden where beans are planted. It grows luxuriantly and bears for a long period. Pods are very long, very fleshy and deeply creased or saddle-backed, green in color and stringless. Seed light brown. Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.50.

Lazy Wife, or White Cherry—Pods 6 to 8 inches long, entirely stringless, of a rich, buttery flavor when cooked as a snap bean; also a good, white shell-bean for winter. One of the very finest flavored. Price same as above.

M. & S. Kentucky Wonder Wax—Same as the above Kentucky Wonder with exception of beautiful yellow pods. Price same as above.

Do not forget to order
that bag of

**WIZARD BRAND
SHEEP MANURE**

It will make your garden
more of a success.

English, or Broad Windsor Beans

CULTURE—Same as Bush Limas, only plant thinner. A bean similar to Lima Beans, but a different flavor and larger. Should be planted early, March or April, as they are very hardy. Pkt. 10c; $\frac{1}{2}$ lb. 30c; 1 lb. 45c; 2 lbs. 85c; 15 lbs. \$4.00. We furnish 10c packages of all Beans.

HUMOGERM Nitrogen-Fixing Bacteria means bigger crops, healthier vines, early and more continuous crops. $\frac{1}{4}$ bus. 35c; 1 bus. 60c; 5 bus. \$2.25. It will pay you to use this when you plant peas and beans. (See page 29.)

Stemmers Run, Md.

Gentlemen:

The M. & S. Detroit Dark Red Beet which I got from you this year turned out to be the finest I have ever seen.

Respectfully yours,

WILLIAM HOMBERG.

M. & S. Strain Detroit Dark Red Beet.

Gentlemen: The M. & S. Strain Detroit Dark Red Beet which I purchased from you in the spring turned out to be the best beet I have seen for some time. They all ran true to color and cut fine and it was a pleasure for me to walk from one row to another and see them growing. The other seed, such as beans, tomatoes, cabbage, spinach, etc., also gave me wonderful results and I do not hesitate to recommend them.

MR. E. RUTOWSKI.

Bush Lima Beans

1 qt. to 100 feet of drill.

We Pay Postage on Pkts., Ozs., $\frac{1}{4}$ lbs., and 1 lb.

CULTURE—Plant in rows two feet apart, and about one foot apart in the rows.

M. & S. Enormous Bush Lima Beans—As the name implies, these are truly enormous, bearing in abundance, large pods which are filled with delicious large beans. Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 50c; 2 lbs. 90c; 15 lbs. \$4.00; 60 lbs. equals 1 bus. \$15.00.

Burpee's Bush Lima—Pods abundantly and well filled with handsome beans. Price same as above.

Fordhook Bush Lima—Beans large, round, thick, green and of delicious flavor, bearing in clusters of from four to eight, averaging four large beans to the pod. Price same as above.

Henderson's Dwarf Lima—Beans are small but their flavor is excellent. Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.75; 60 lbs. equals 1 bushel, \$13.75.

Pole Lima Beans

CULTURE—These require pole 8 to 10 feet long. The beans should be planted in May if the season is suitable. Set poles four feet apart each way, and plant 4 to 6 beans, about 1 inch deep, around each pole. Thin out to three plants to a pole, if the soil is rich; pinch off the ends of plants when they overrun the top of the poles to effect a more perfect growth below. Lima Beans for early use may be grown in frames and transplanted, 1 quart to 100 poles.

Early Leviathan—The earliest large pole lima; very productive. Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 15 lbs. \$3.75; 60 lbs. equals 1 bushel, \$13.75.

King of the Garden—Vigorous grower, bearing large pods, 5 to 8 inches long. Beans large and of rich flavor. Price same as above.

Carpenteria Early Lima—Very fine, immense beans, which retain their green color a long while. Price same as above.

Dreer's Improved, or Potato Lima—Beans round and thick, of delicious flavor easy to shell, immense crop. Pkt. 10c; $\frac{1}{2}$ lb. 25c; 1 lb. 50c; 2 lbs. 90c; 15 lbs. \$4.00; 60 lbs. equals 1 bushel, \$15.00.

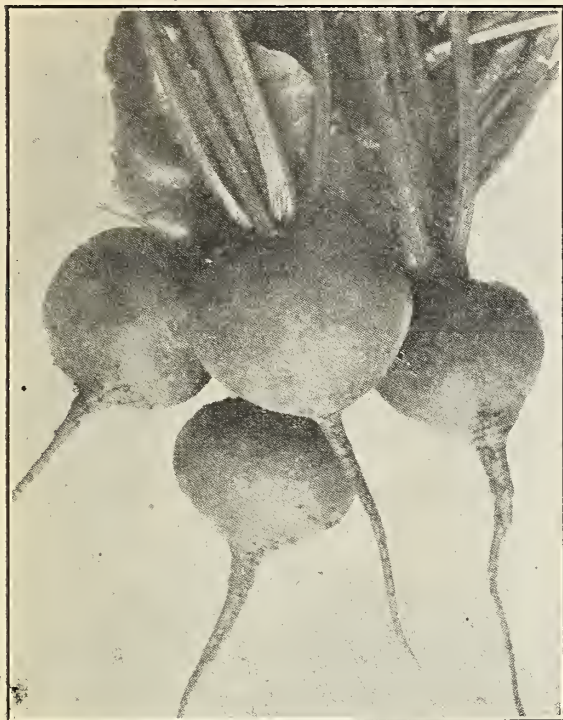

TABLE BEETS

(German—Rote Rueben.
French—Bette)

One ounce of seed sows sixty feet of drill; five pounds will sow an acre in drills.

CULTURE—The soil best suited to the culture of the beet is that which is rather light, provided it is thoroughly mixed with manure. If wanted very early sow in hotbeds and transplant; but for main crop sow in the Spring as soon as the ground becomes fit to work, in drills 18 inches apart and two inches deep. For winter use sow as late as July. When the plants have attained three or four inches in height, thin out so that they stand five to six inches apart. Keep free from weeds. Before freezing weather sets in the roots may be stored in cellars or pits, same as Potatoes; dry earth thrown over them before the straw and earth covering is put on insures their keeping over winter. Be careful not to bruise them in handling.

M. & S. Strain Detroit Dark Red Beet—Like the Detroit Dark Red, but runs more uniform in shape and color, positively the best beet for the truck farmer, as they always bring top-notch prices on the wholesale market, or at the packers. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.35; larger quantities at \$1.25 per lb.

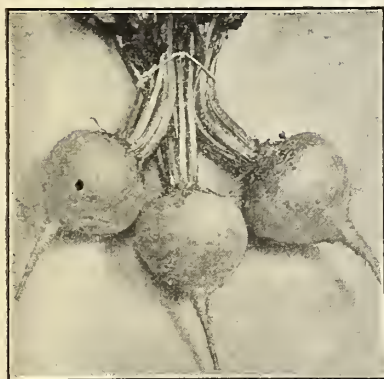

M. & S. Early Marvelous Beet.

"M. & S." EARLY MARVELOUS BEET

The Ideal Beet for the market or home garden; in shape it is nearly a perfect globe, about 10 inches around with smooth skin free from rootlets; the flesh is a rich blood red nicely ringed, never stringy, and always tender and sweet; excellent for canning. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Extra Early Flat Egyptian—Maturing in an incredibly short time. Bulbs half globular, or flattened at the poles; roots very slim, skin smooth, leaves red and green, flesh quite dark. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Crosby's Improved Egyptian Beet.

Crosby's Improved Egyptian—Very desirable. Thicker in body than the Egyptian, small necked and dark fleshed. Fine for early market. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Extra Early Eclipse—Maturing in an incredibly short time, round-shape beet. Small top, and of excellent table quality. Makes an attractive seller in market. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Edmand's Blood Turnip—This beet of American origin is the most uniform of all Turnip Beets. The root is always smooth, round and handsome; tops are small; of good marketable size. Color dark red, flesh purplish, crisp, tender and sweet. An excellent keeper. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Gentlemen—The seed which you have produces the best looking crops I have ever seen and I do not hesitate to order whenever I am in need of some Yours very truly,

MRS. BASIL SMITH, White Hall, Md.

Extra Early Eclipse Beet.

Detroit Dark Red Beet—A blood red, early, turnip-shaped variety. Has small upright top; fine round shape. Skin and flesh dark blood red. Very tender and sweet. Remarkably uniform in growth and a particularly desirable sort for truckers and market gardeners. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Long Smooth Dark Blood—This variety has long, slender roots. The beets are seldom more than two inches through. Matures rather late, but is an excellent keeper. The flesh is dark red and quality sweet and tender. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

BEEF PLANTS, see page 5.

Crimson Globe—A second early variety, does not grow large and coarse, the matured beets being medium in size and good shape. The flesh and skin are both very dark and quality fine, being sweet and tender. The tops are small and dark in color. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

SWISS CHARD, see page 23.

Cow Beets

MANGEL-WURZEL

(German—Runkelrueben)
(French—Betterave)

Used for feeding cattle.
Sow five pounds per acre.

CULTURE—Sow in April and May in thoroughly plowed, well-manured soil, in drills 2 inches deep and about 18 inches apart. Thin out to 12 ins. and keep the weeds down by frequent hoeing and cultivating. Low ground is best adapted for Mangel-Wurzel.

Golden Tankard—The best long yellow mangel in cultivation. Relished by milch cows and sheep. Maturing earlier than other large sorts. Oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.00.

Improved White Sugar Beet—An improvement on the other varieties of sugar beets, hardier, and containing a greater percentage of sugar. Oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c; 5 lbs. \$2.50.

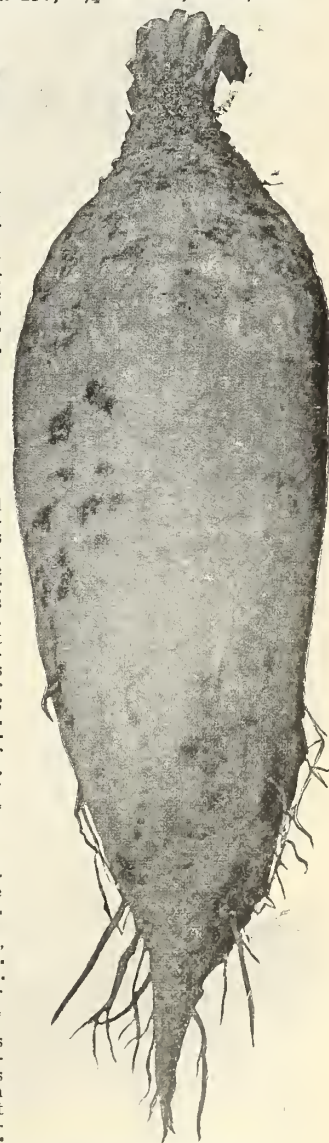

Sludstrup Barres Mangel

Half-long, stump-rooted yellow flesh. Outside color orange with red top. Oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.00.

Jumbo Mangel—Immense, long, red, very fine quality. Oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.00.

Gate Post Mangel—Large, yellow, excellent sort. Oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.00.

Mammoth Long Red—This is an enormously productive variety, yielding from 50 to 70 tons to the acre, a single root often weighing 20 to 40 lbs. The best long red mangel and very valuable for stock feeding. Oz. 10c; $\frac{1}{4}$ lb. 15c; lb. 50c; 5 lbs. \$2.00.

Gate Post Mangel Beet.

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.**M. & S. CHOICE CABBAGE SEED**

(GERMAN—KOPFKOHL. FRENCH—CHOU)

One ounce will produce about 2,500 plants; one-quarter pound for transplanting an acre.

Culture—Sow seeds in January or February in hotbeds, and transplant latter part of April or early in May to open ground, or an early sowing in open ground can be made as soon as weather will permit. Set the plants in rows two feet apart, and 12 to 18 inches apart in the row. For second early sow in April and transplant in May, or sow in May and transplant in July, setting plants in rows three feet apart and two feet in rows. Never plant in the same ground two years in succession.

Early Varieties

Golden Acre Cabbage, Earliest Flat.

Golden Acre—This is an extra early strain of Copenhagen Market maturing about ten days earlier. It will mature heads in eighty days from time of sowing, measuring nine inches in diameter, with a uniform weight of five pounds. Height of stalk is two inches and entire plant consists of thirteen leaves which allows close planting. Pkt. 25c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; 1 lb. \$10.00.

M. & S. COPENHAGEN MARKET—A valuable new early cabbage from Denmark, producing a large globe-shaped solid head, which comes into market along with Charleston Wakefield. Our seed comes direct from the originator, makes few loose leaves, it is a vigorous grower and an excellent keeper. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 90c; 1 lb. \$3.00.

New Early—The largest of the early cabbage. The head is roundish flat and remarkably solid. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Early Flat Dutch—A dwarf-growing type, principally used for early summer. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Early Jersey Wakefield—The finest oblong-shaped cabbage in existence. The head is solid, there being very few outside leaves. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Extra Early Jersey Wakefield—Our strain of this excellent extra early, pointed head sort is without a doubt the earliest cabbage of the day. Heads are smaller than Early Jersey Wakefield, but are solid and extremely uniform in both green color and size. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$3.00.

Large Charleston Wakefield—Similar to Early Jersey, but the heads are more blunt, equally as solid, while almost twice the size, but matures one week later. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

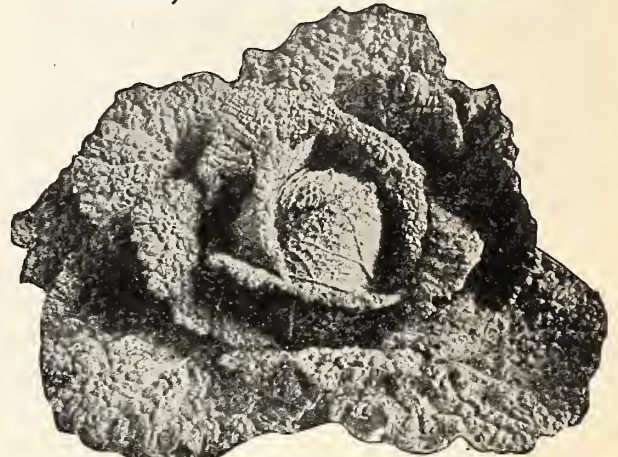

Early York—Resembles the Early Wakefield. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Early Winnigstadt—Resembles Charleston Wakefield. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Second Early Varieties

Early Drumhead—A large solid roundish flat-headed sort with few outer leaves. One of the best sorts to follow the Large Charleston Wakefield. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Succession—A very popular sort with the market gardeners. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Late, or Winter VarietiesM. & S. PERFECTION DRUMHEAD SAVOY CABBAGE
(German—Wirsing Kohl. French—Choufrise.)

Perfection Drumhead Savoy—A beautifully crimped-leaved sort, color a deep glossy green. The head is almost round. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Red Dutch Drumhead—A red variety, used extensively for pickling. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

All Seasons (Vandergaw)—A very large head, round and solid. It is valuable for Summer or Winter use. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Danish Ballhead—An elegant medium late variety. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Late Flat Dutch—Improved Strain. This has been selected especially for our trade, and seed was taken from the finest type of heads which were selected for solidity and uniformity. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Chinese Celery Cabbage

Pe Tsai—Improved Chinese Cabbage. The market appearance of this cabbage in quantity the past few years has created a widespread demand for the seed.

It is very easily grown and does well in nearly all parts of the country. It should be grown like a late cabbage, planting in July (turnip planting time), as early plantings run quickly to seed. The seed is sown in drills 16 to 20 inches apart and the seedlings thinned two or three times. The full-grown plant somewhat resembles a Cos Lettuce in appearance. It has a mild flavor and may be eaten raw or as a salad, or cooked. Boiled, minced and seasoned with butter, it is especially delectable. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$3.50.

Wong Bok—Similar to the above; considered more choice by a great many. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$3.50.

Extra Early Jersey Wakefield.

Carrot

(German—Moehre
oder Gelbe Reube.
French—Carotte)

One ounce to 100
feet of row. 2 or
3 lbs. to acre.

Culture—A light,
loamy soil that
has been well
manured the pre-
vious year is pre-
ferred for growing
carrots, although
good crops may
be obtained from
ordinary garden
soil. For early
use seed may be
sown in hotbeds
from January un-
til March, and in
the open ground
as soon as the
weather becomes
warm and settled,
usually in April.
Sow seed one-half
inch deep in rows
15 inches apart,
and later thin to
five inches in the
row. Keep soil
between the rows
well hoed and free
from weeds. From
July 1st to 15th
sow for Winter
crops.

M. & S. SOUTH- ERN PRIDE

—An ideal medium early
stump-rooted Car-
rot; smooth and
uniform in shape,
averaging five in-
ches in length,

M. & S. Southern Pride
Carrot.

with thick, heavy shoulders, rather large
tops and deep orange color, almost coreless
and of fine flavor. Positively the best carrot
for home garden or market. Advisable for
trucks. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Parisian Forcing—Extremely early, of small size, but very
sweet, tender and beautiful orange-red color. Pkt. 10c; oz. 15c;
¼ lb. 30c; lb. \$1.00.

Chantenay—Top medium sized, neck small, roots tapering
slightly but uniformly stump-rooted and smooth; color deep
orange-red; flesh very crisp and tender. Pkt. 10c; oz. 15c; ¼
lb. 30c; lb. \$1.00.

Pride of Market Carrot—Similar to the above. Same price.
Danvers, or Half-Long Orange—Owing to its enormous yield,
this variety is the best and most profitable for main crop, also
desirable for feeding cattle. It is somewhat longer than Chante-
nay. Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

M. & S. Strain Danvers Carrot—Like the above, but runs more
uniform in shape and darker in color. Advisable for trucks.
Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Oxheart or Guerande—A short thick carrot not exceeding four
inches in length and about the same in width which does quite
well on hard, heavy soils where the longer varieties are useless.
Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

Georgia Collards

Georgia Collard—Culture like Cabbage. The lower leaves are
pulled off and used same as Cabbage Sprouts and Kale; will be
found very delicious if you have never tried it; give it a place
in your garden this coming season. Pkt. 10c; oz. 15c; ¼ lb.
30c; lb. 75c.

Corn Salad

(German—Acker Lattig.
French—Mache)

Culture—Sow in
Spring, in drills
one foot apart; it
will mature in six
to eight weeks.
For Winter and
early Spring use,
sow in drills in
August and Sep-
tember. Three
ounces of seed to
100 feet of drill.
Will do well if
sown in spring.

Large Leaved —
Pkt. 10c; oz. 15c;
¼ lb. 25c; lb. 75c.

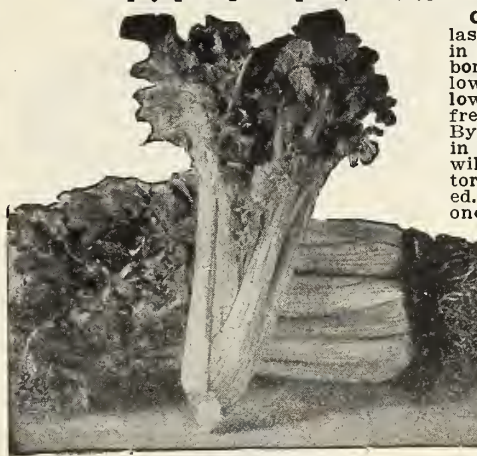

Corn Salad

Celery

(German—Sellerie. French—Celeri)

One ounce will produce about 2,000 plants.
We pay postage on pkts., ozs., ¼ lbs. and 1 lbs.

M. & S. Magnificent

Culture—Sow the
last of March or early
in April, in an open
border, in rich, mel-
low ground, in shal-
low drills, watering
freely in dry weather.
By rolling or pressing
in the seed the result
will be more satisfac-
tory than when cover-
ed. Cut the tops off
once or twice before
planting out, to
make them
stocky. When the
plants are five or
six inches high
transplant the
dwarf varieties 3
feet, and the
taller sorts 4
feet between the
rows; plant 6
inches apart in
the rows. Culti-
vate well, and
when large
enough, blanch
by earthing up.

The first operation is that of "handling," generally done the be-
ginning of September; after the soil has been drawn up with the
hoe it is drawn closer around each plant by the hand to keep
the leaves firm, in an upright position, and to prevent spreading.
When the plants have become set in an upright position the
Celery wanted for early use should be banked, by throwing the
soil up as close to the plants as possible with a plow and finish-
ing it with a spade, bringing the earth up nearly to the tops
of the plants.

M. & S. MAGNIFICENT—It is well named for its many good
qualities; it is a semi-late sort, coming into use about January.
The stalks which blanch almost white are exceedingly brittle,
so that it has a tendency to melt in the mouth; it is a truly good
sort and should be planted extensively. Pkt. 10c; oz. 25c; ¼
lb. 75c; lb. \$2.50.

M. & S. MONARCH—This variety is a decided acquisition in
green Celery, producing large stalks, and magnificent bright
golden yellow heart. The stalks are very solid, brittle and of
most delicious flavor, and entirely free from stringiness. It is a
remarkably good keeper and presents a handsome appearance
when ready for the table. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

M. & S. Golden Plume—Resembles Golden Self Blanching,
but is larger and ranker in growth, more plainly ribbed,
blanches quicker, matures earlier, does not blight and is just
as crisp and has the same flavor. Pkt. 25c; ½ oz. \$1.25;
1 oz. \$2.25; ¼ lb. \$7.50.

Golden Self-Blanching—For early use; preferred by many to
all other sorts; as self-blanching as White Plume, and simply
needs a slight earthing-up. Pkt. 10c and 25c; oz. 40c; ¼ lb.
\$1.25; lb. \$3.75.

French Golden Self-Blanching—(Pure Stock). Pkt. 10c and
25c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

White Plume—Unsurpassed for Fall and early Winter use,
requiring very little earthing-up to blanch it. Pkt. 10c; oz. 25c;
¼ lb. 60c; lb. \$2.00.

Giant Pascal—The stalks are
very large, thick, solid, crisp and
of a rich nutty flavor, good keeper.
Pkt. 10c; oz. 25c; ¼ lb. 60c; lb.
\$2.00.

Golden Heart—Largely used, al-
ways giving satisfaction; a showy
sort; solid, of fine flavor and a good
keeper. Pkt. 10c; oz. 25c; ¼ lb.
60c; lb. \$2.00.

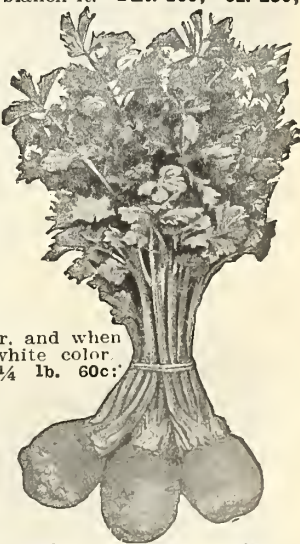

Boston Market—A short, bushy
variety, constantly increasing in de-
mand. Pkt. 10c; oz. 25c; ¼ lb.
60c; lb. \$2.00.

Winter Queen—This variety
grows a very thick, solid and heavy
stalk, and has a large heart. It is
a close, compact grower, and when
blanched is a creamy-white color.
Pkt. 10c; oz. 25c; ¼ lb. 60c;
lb. \$2.00.

Pink Plume—The stalks when
blanched are a beautiful rose-pink.
Pkt. 10c; per ½ oz. 20c; oz. 35c.

CELERY PLANTS, SEE PAGE 5.

Giant Prague Celериac—This is
unquestionably the largest and best
Celериac in existence, very large,
almost globe-shaped, smooth, with
only a few roots at the bottom.
Flavor is excellent. Pkt. 10c; oz. 25c; ¼ lb. 60c; lb. \$2.00.

Giant Prague Celериac.

M. & S. Early Snowball Cauliflower.

Cauliflower

(German—
Blumenkohl.
French—
Chou-Fleur)

One ounce of seed
for 1,500 plants.

Culture—When grown to perfection this is a most delicious vegetable, and well repays generous treatment in cultivation. With a deep rich soil, and an abundance of moisture, which in dry seasons must be applied artificially, Cauliflower can be grown well. The cultivation is similar to that of Cabbage. For early Fall crops, sow in May and transplant in June, in rows of four feet

apart, setting the plants two feet apart in the row; water frequently if the ground is dry. Frequent hoeing and a liberal supply of rich, liquid manure, to keep up a continuous and rapid growth, will produce splendid heads of the most delicate flavor. It facilitates blanching if the leaves are gathered loosely together and tied over the top of the head to protect it from the sun. Cut before the flowers begin to open. Sow as late as June 20 for late crops, in beds or in hills, covering one-half inch deep.

M. & S. EARLY SNOWBALL—An extremely early dwarf variety, producing magnificent white heads of fine quality. Well adapted to hotbed culture and outdoor. Pkt. 10c, 25c and 50c; oz. \$1.50; ¼ lb. \$5.00.

Dry Weather or Danish Giant—The great drought-resisting variety; the heads are large, snow white and are protected with a liberal growth of foliage. This is the ideal variety to plant for summer use if you want to be sure of cauliflower at that season. Pkt. 10c, 25c, 50c; \$1.50 per oz.; ¼ lb. \$5.00.

Select Early Dwarf Erfurt—Of highest excellence, and for field culture not much surpassed by any type of newer name. Some so-called new varieties appear to be identical with Select Erfurt. Pkt. 10c, 25c and 50c; oz. \$1.50; ¼ lb. \$5.00.

Veitch's Autumn Giant—A distinct and valuable late variety; heads large and fine, well protected by foliage. Pkt. 10c; oz. 75c.

CAULIFLOWER PLANTS, PAGE 5.

SWEET, or SUGAR CORN

(German—Zuckermals. French—Mais)

One quart will plant 200 hills; eight quarts in hills to acre.

Sugar Corn varies in weight according to variety. We have decided to list 44 lbs. as a bushel, except Adams and Red Cob or 90 Day, which weighs 56 lbs. to bushel.

Postage prepaid up to 2 lbs.

½ pound equals slightly more than ½	Pint
1 pound equals slightly more than 1	Pint
2 pounds equal slightly more than 1	Quart
6 pounds equal about ½	Peck
12 pounds equal about 1	Peck
44 pounds equal about 1	Bushel

Culture—The Sweet or Sugar varieties, being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm; for a succession, continue planting every two weeks, until the middle of July, in rich, well-manured ground, in hills three feet apart each way, covering about half an inch, and thin out to three plants to a hill. Extra early varieties can be planted 18 inches in the row and 2½ feet between the rows. The field varieties should be planted four feet apart each way, leaving three plants to a hill.

Extra Early Adams—Height of stalk three to four feet, ears set within six inches of ground. Not a sugar corn, but a decided acquisition so early in the season. Pkt. 10c; ½ lb. 20c; 1 lb. 30c; 2 lbs. 45c; 7 lbs. \$1.00; 14 lbs. \$1.75; 56 lbs. \$6.00.

Early Adams—Similar to Extra Early Adams; larger, but not so early. Price same as above.

Bardens Wonder Bantam—A yellow sugar corn with all that the name implies, making ears up to 9½ inches long; deliciously sweet and of unsurpassed flavor. Matures only about a week later than Golden Bantam. A strong grower and very productive. Pkt. 10c; ½ lb. 30c; 1 lb. 50c; 2 lbs. 90c; 6 lbs. \$2.00; 12 lbs. \$3.75. See illustration, below.

EARLY SHEFFIELD—The best early Sugar Corn for truckers, making fine large ears. ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 6 lbs. \$1.50; 12 lbs. \$2.50; 44 lbs. \$7.50.

Black Mexican—An old favorite, being very tender and sweet. Price same as above.

Preston, Md.

Gentlemen:

Send me one of your catalogues. I had half a pound of your M. & S. Early Snowball Cauliflower last year and it was fine.

Yours truly,

A. W. FLUHARTY

Golden Bantam—Extremely early. A true sugar corn. The grain when ripe is a bright golden-yellow, the flavor is exceptionally rich and sugary. Produces from two to three good ears to the stalk. Price, ½ lb. 25c; 1 lb. 40c; 2 lbs. 75c; 6 lbs. \$1.50; 12 lbs. \$2.50; 44 lbs. \$7.50.

Howling Mob—Another new early Sugar Corn, with fine, large ears, excellent for truckers or the home gardener. Price same as above.

Peep-O-Day—This corn has two valuable points—extraordinary earliness and unsurpassed sweetness. Price same as above.

GOLDEN CREAM—The originator says: "It is good enough to eat raw." It is a cross between Country Gentleman and Golden Bantam; has the color of the latter and the fine quality of the former. It is really a very early yellow Country Gentleman—that means earliness, good size and first-class roasting ears. Price same as above.

M. & S. SNOW WHITE EVERGREEN SUGAR CORN—It produces large uniform ears, which are well filled to the top with beautiful white kernels; it is 10 to 12 days earlier than Stowell's Evergreen. Splendid sort for market and home garden; keeps well after being cut. Price same as above.

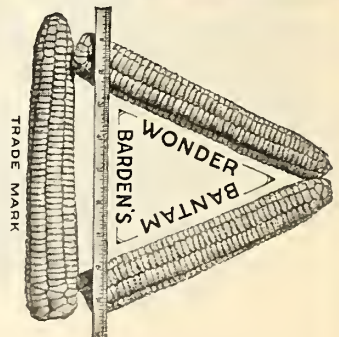

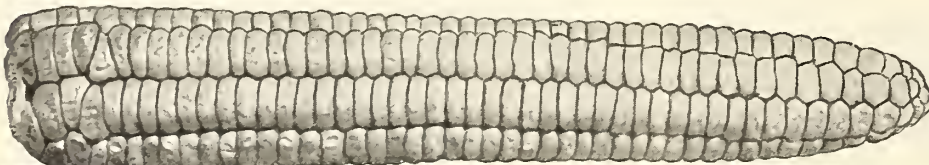

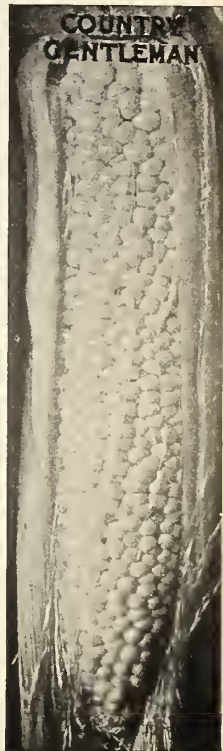

Country Gentleman or Shoe Peg—A short-stalked, productive sort. Ears large for so small a stalk; grain narrow and very deep; excellent quality. Price same as above.

Stowell's Evergreen—Matures for table in about 80 days from germination. Price same as above.

Early Mammoth—Price same as above.

Late Mammoth—Price same as above.

Red Cob, or 90-Day Corn—A distinct and well-known sort of white corn; matures in about 90 days; produces large, handsome ears. 1 lb. 25c; 2 lbs. 40c; 7 lbs. 75c; 14 lbs. \$1.25; 56 lbs. or 1 bushel, \$4.25.

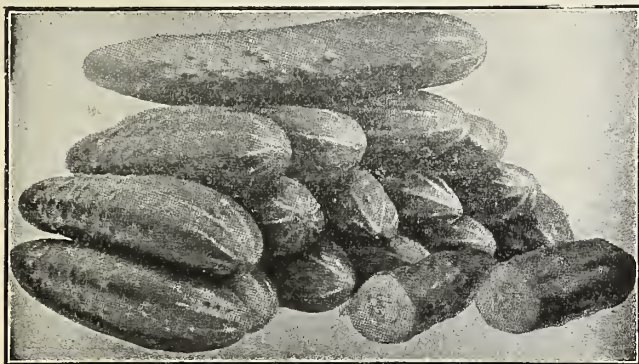

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.

Cucumber

(German—Gurke. French—Concombre)

One ounce will plant fifty hills; two pounds, one acre.

Culture—For very early Cucumbers, sow the first of April in a hotbed, upon pieces of sod or in small pots, so that they can be readily transplanted to the open ground (in rich soil) when danger of frost is over. For general crop plant, if the weather has become settled and warm, in hills about four feet apart each way; thin out to four of the strongest plants to each hill. They succeed best in a warm, moist, rich, loamy soil. For succession sow until the middle of August.

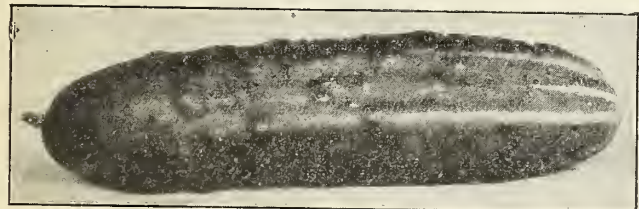

Early Fortune Cucumbers.

Early Fortune—A great favorite with our Anne Arundel County farmers for its early maturity, productiveness, uniformity in large size and dark green color. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.35.

New Klondike—One of the best for shippers. Grows vigorous vines, fruits early and abundantly. Dark green in color, large size, and of fine flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.35.

Improved Early White Spine—The old standard favorite. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.35. Special prices on large quantities.

New Klondike.

Arlington White Spine—Another standard sort. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.35. Special prices on large quantities.

Improved Long Green—Long and crisp; a popular and reliable variety for pickles. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.50.

Japanese Climbing—Distinct from other varieties, being a real climber. Very prolific of fruit. A valuable, interesting novelty. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c.

Jersey Pickle—Productive and said to "green" better than any other variety, and to "hold color." Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.35.

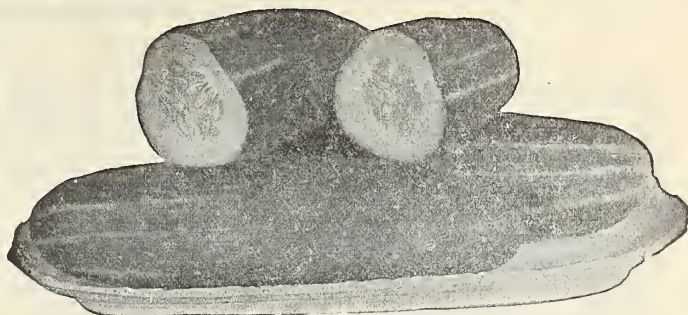

Early Green Cluster—A short, prickly variety, bearing clusters, prolific. Fine for bottle pickles. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Small Gherkin, or Burr—Used only for pickling while young and tender. Pkt. 10c; oz. 25c.

Danish Pickling Cucumber—A new introduction from Denmark. Seeds extremely scarce. A very prolific grower producing small dark green warty fruit, especially desirable for pickling. Pkt. 10c; oz. 25c.

Lemon Cucumber—A very productive variety with round or slightly oval fruits of light creamy yellow color; of distinctive flavor and desirable quality either for slicing or pickling. The fruits are ready for slicing when just starting to turn yellow. For pickling they may be used either green or ripe. Pkt. 10c.

English Forcing Telegraph Cucumber—These are ideal for growing outdoors as well as under glass. They produce enormous fruits, generally 18 to 24 inches long and 3 inches in diameter. They have a delicate flavor and possess very few seeds; for slicing, no other sorts can approach them. Pkt. of 12 seeds, 25c; 100 seeds, \$1.25.

M. & S. Cool and Crisp.

M. & S. COOL AND CRISP—Ideal for home and market gardening. Extra early and very prolific, long straight, slender and very dark green; good either for pickling or slicing. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c; 1 lb. \$1.50.

Cress : Chervil

(German—Kresse) (German—Kerbel)

Water Cress—Sow early in spring near pond or running water; when established will last for years. Pkt. 10c; oz. 50c.

Land Cress or Pepper Grass—Sow in early spring in rows two feet apart, and repeat often as it runs to seed very quickly. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c.

Chervil—Sow like the above, used as a salad seasoner. Pkt. 10c; oz. 25c.

Dandelion

(French—Pissenlit. German—Loewenzahn.)

One ounce to 100 feet of row.

Culture—Plants usually come up small and feebly. Sow seed in good clean loam, in drills 1 foot apart, and thin or transplant to 10 or 12 inches apart in the rows. May be blanched by covering with leaves or other loose litter, or by placing a large inverted flower pot over each plant.

Broad-Leaved—Pkt. 20c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.50.

Improved Thick-Leaved—An improved variety. Pkt. 20c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.50.

Eggplant

(German—Eierpflanze. French—Aubergine)

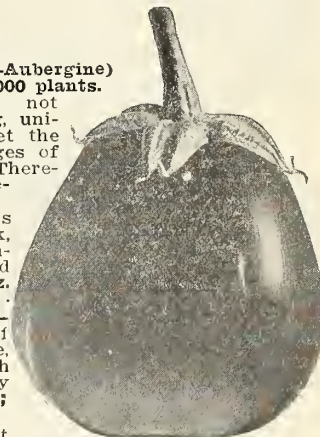

One ounce will produce about 1,000 plants.

Culture—Eggplant seed will not vegetate freely without a strong, uniform heat, and if the plants get the least chilled in the earlier stages of growth they seldom recover. Therefore repeated sowings are sometimes necessary.

M. & S. Ebony King—As its name implies it is almost black, large size, perfect shape, thornless, great drought resister and splendid bearer. Pkt. 10c; $\frac{1}{2}$ oz. 25c; 1 oz. 50c; $\frac{1}{4}$ lb. \$1.75.

New York Improved Purple—The leading market variety; of large size, skin deep purple, smooth, free of thorns; flesh white, of excellent quality; very productive. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.50.

Black Beauty—The earliest large variety; color, rich, dark purple. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.50.

M. & S. Ebony King.

EGGPLANT PLANTS, SEE PAGE 5.

Whitloof Chicory, or French Endive

(German—Succory. French—Chicoree)

Whitloof Chicory, or French Endive—Known in restaurants as French Endive. We want to get our customers interested in this delicious vegetable, and feel confident that after it has once been tried it will become quite as popular as Swiss Chard, which was only planted very sparingly a few years ago. Every garden should have a row of Whitloof Chicory and we feel sure that every amateur or experienced gardener will be pleased with the results. Whitloof is eaten raw or as a salad, and is also sometimes cooked like ordinary Endive. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Large Rooted Chicory—The roots are dried and ground and used for flavoring or to substitute coffee. It can also be served like salsify. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Whitloof Chicory.

We pay postage on pkts., ozs., ¼ lbs. and 1 lbs.

Endive

(German—Endivie.
French—Endive)

Culture—Sow in June, July and August; cover lightly; when up thin out to eight inches apart, and water well afterwards, if dry. When the leaves are 6 to 8 inches long, blanch by gathering in the hand and tying together near the top with yarn or bast. This must be done when quite dry or they will rot. At the approach of Winter, take up carefully, with a ball of earth to each plant, and place close together in frame or cellar for use. They must be kept dry and have plenty of air.

White Curled Self Blanching Endive.

Green Curled—Tender and crisp. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

White Curled—Self-blanching. Very tender when young; blanches readily. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Broad Leaved Batavian (Escarrole)—This variety is chiefly used in soups and stews; it requires to be tied up for blanching. Pkt. 10c; 1 oz. 15c; ¼ lb. 40c; lb. 1.25.

Herbs

(German—Krauter.
French—Herbes)

Culture—Herbs delight in a rich, mellow soil. Sow seeds early in Spring in shallow drills, one foot apart; when up a few inches thin out to proper distances, or transplant. They should be cut on a dry day just before they come into full blossom, tied in bunches and hung up or spread thinly where they can dry quickly.

Anise—Pkt. 10c.
Balm—Pkt. 10c.
Bene—Pkt. 10c.
Catnip—Pkt. 10c.
Cumme—Pkt. 10c.
Pennyroyal—Pkt. 10c.
Peppermint for Flavoring—Pkt. 10c.

Tansy—Pkt. 10c.
Borage—Pkt. 10c.
Caraway—Seeds used to flavor bread. Pkt. 10c; oz. 25c.

Coriander—Pkt. 10c.
Dill—The seeds are used as a condiment and for pickling. Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. 75c.

Fennel, Sweet—A hardy perennial, indigenous to Southern Europe. The leaves are extensively used in sauces for flavoring. Sometimes eaten raw. Pkt. 10c; oz. 25c; ¼ lb. 75c.

Horhound—For medicinal purposes and flavoring. Pkt. 10c.
Lavender—For flavoring and perfumery. Pkt. 10c.

Martynia—Produces long green pods which are used for pickling. Pkt. 10c; ½ oz. 25c.

Rosemary—Leaves used for seasoning. Pkt. 10c.

Rue—Pkt. 10c.

Sage—For seasoning and dressing. Pkt. 10c; oz. 40c.

Summer Savory—Used for flavoring. Pkt. 10c; oz. 25c.

Sweet Basil—For flavoring soups. Pkt. 10c; oz. 25c.

Sweet Marjoram—Leaves and ends of shoots used for seasoning. Pkt. 10c; oz. 40c.

Saffron—For medicinal and coloring purposes. Pkt. 10c.

Thyme (Broad Leaf)—For seasoning, also for making tea for nervous headache. Pkt. 10c; oz. 50c.

Woodruff—A sweet scented herb which is used as essence in the German Maitrank. Pkt. 15c.

Wormwood—Pkt. 10c.

Finocchio, or Florence Fennel

A delicious vegetable which should be more largely grown. It is extensively used in Italy as a salad, but is particularly palatable when served boiled, with a cream dressing. When the enlargement of leaf stalk, at base of stem, is about the size of a hens egg it should be earthed up so as to cover half of it, and in about ten days cutting for use may be commenced and continued as the plants increase in growth. The flavor is somewhat like celery, but it has a sweet taste and delicate odor. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. \$2.50.

Kohl-Rabi

One ounce will sow 150 feet of drill.

This is a favorite vegetable in Europe, where it is extensively grown for table use. The bulb is formed above ground, and, if used when young and tender, makes a most delicate dish for the table.

Earliest White Vienna—Greenish white outside, with clear white flesh within. Smooth, short leaf. Pkt. 10c; oz. 15c; ¼ lb. 50c; lb. \$1.50.

Earliest Purple Vienna—Same in every respect as the Earliest White Vienna, except in the outside color. Pkt. 10c; oz. 25c; ¼ lb. 75c.

KOHL - RABI PLANTS, SEE PAGE 5.

Earliest White Vienna Kohl-Rabi.

Kale, or Borecole

(German—Kranskohl.
French—Chou Vert)

One ounce sows a drill of about 100 feet. 2 to 3 lbs. to the acre.

Culture—Sow from May to June, and cultivate same as Cabbage. For early Spring use, sow in September, and protect during Winter. The Kales are more hearty than Cabbage, and make excellent greens for Spring and Winter use, and are improved by frost.

BORECOLE PLANTS, SEE PAGE 5.

Emerald Isle Kale—This is really the handsomest Kale that has ever come under our notice, and is entirely distinct from other strains. The closely curled, handsome leaves are most attractive. A fine exhibition plant of medium height. Very hardy. Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.00.

Dwarf Green Kale—Pkt. 10c; oz. 15c; ¼ lb. 25c; lb. 60.

Tall Scotch—Best for Summer. Very spreading, nicely curled and hardy; frost improves it. Pkt. 10c; oz. 15c; ¼ lb. 30c; lb. \$1.

New Imperial Curled Long Standing—The leaves are very crimped and of a dark green color. Pkt. 10c; oz. 15c; ¼ lb. 25c; lb. 60c.

Dwarf Green Curled Scotch, or Norfolk—One of the most popular shipping sorts; very largely used in Norfolk trucking district. Pkt. 10c; oz. 15c; ¼ lb. 25c; lb. 85c.

Sea Kale—Not a true Kale (a member of the Cabbage family) but a perennial which should be grown and cultivated like rhubarb. The edible parts are the young, strong shoots that come up in early spring. When blanched, they are cooked and served like asparagus, or the leaves may be used as greens. Pkt. 10c; oz. 30c.

Borecole—
Hardy Winter.

Borecole, Hardy Winter—This variety is grown and treated like cabbage. The plant attains a height of 18 inches, with an abundance of beautiful light green leaves which are densely curled and crimped. Besides being very hardy it possesses the advantage of all other varieties in forcing a second crop of moss-curved leaves as soon as the first ones are gone. This new growth is of the finest quality, and is ready for market during the Winter and early Spring months, when it demands fancy prices. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

Do not forget to order that bag of **WIZARD BRAND SHEEP MANURE**. It will make your garden more of a success.

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.

Don't Forget to Order That Cart Load of Manure in a 100-Pound Bag

M. & S. CHOICE STRAINS OF LETTUCE

(German—Salat. French—Laitue.)

Two ounces of seed to 100 yards of row; one ounce for 2000 plants

Culture—Lettuce is now sown during most all seasons of the year. For outdoor use the seed can be sown in well-manured hotbeds in February and March. Transplant there or outdoors when the weather will permit, in rows about 12 inches apart, 10 inches apart in the row. If the salad is not to head, sow thickly and cut as desired. For best results it is well to sow only the varieties best suited to the different seasons and conditions. For winter use sow the seed in September in hotbeds and follow it with other sowings for succession.

Big Boston Lettuce

Big Boston—Resembles Boston Market, but nearly twice as large, desirable for forcing and Spring and Fall outdoor planting. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Los Angeles, New York, or Wonderful—This very large heading lettuce is desirable not only as a garden variety for summer use but is much used as a fall and winter market sort. It is the variety largely grown in California and shipped to eastern markets under the trade name of Iceberg. The plant is very large but compact and tight heading; outer leaves attractive deep green, broad, frilled at edges. The inner leaves form a large head, very sweet and tender when in condition for use. Cultivate same as Big Boston. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

May King—This valuable Lettuce is, without any question, one of the best Lettuces on the list for early Spring planting in the open ground. The heads are six to seven inches in diameter, of a clear light green, the outer leaves being slightly tinged with brown, the inner being clear, bright yellowish, with very rich, oily flavor. It is an excellent market sort, the round, compact heads being so solid that they carry extremely well. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Cos Lettuce

Romain White Cos Lettuce

Romain White Cos—Has long, narrow, upright leaves, does not head, but when tied up blanches very nicely. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; 1 lb. \$2.00.

Best of All—A great drought and heat resister; forms large compact heads of light green leaves and yellow heart. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Grand Rapids—Excellent for forcing, fine quality, large, loose, yellowish-green head, stands well. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 60c; 1 lb. \$1.50.

California Cream Butter—A good Summer sort, of reliable heading quality. Yellowish-green, slightly marked with brown specks. This is a variety growing in favor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Boston Market, or White-Seeded Tennisball—Early and compact, quite desirable, good forcer. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Black Seeded Tennis Ball—Similar to above. Price same.

M. & S.
Belvedere Lettuce

M. & S. BELVEDERE LETTUCE—In 1912 we introduced this grand Lettuce after having it in our trial grounds for two seasons, and we were amply repaid by the success which our Truck Farmer customers had with it. The M. & S. Belvedere is extremely slow in running to seed; it is therefore the ideal Lettuce to plant in the Spring, as it withstands the Summer heat better than any variety we have known so far. It is all green, no red edges, is tender and crisp and has a fine yellow heart. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Oak Leaf—Quite popular. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Iceberg—Leaves green, heads large, solid; one of the best large-growing cabbage lettuces. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

All Season M. & S. Strain.

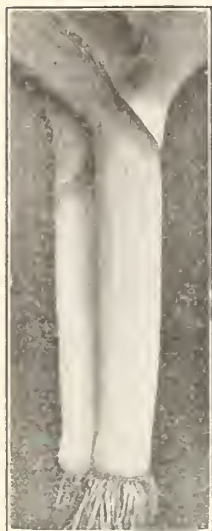

M. & S. STRAIN ALL-SEASON—A cabbage lettuce of sterling merit, making larger and more closely folded heads than any other known variety. The outer leaves are a bright, soft green, the inner ones rich golden yellow. The solid heads measure from eight to ten inches across. Black seed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

Way-a-Head—Similar to the above, but suitable for all-season in or out-door planting. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; 1 lb. \$1.25.

Black Seeded Simpson Lettuce—Fine, large, loose heads, early, finely fringed and curled, very popular for family garden and forcing. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

LETTUCE PLANTS POPULAR VARIETIES, SEE PAGE 5.

We pay postage on pkts., ozs., ¼ lbs. and 1 lbs.

Flag Leek

Leek

(German—Lauch. French—Poireau)

One ounce to 150 feet of row.

Culture—Sow the seed and care for the young plants same as for Onions, but they need a little more room to develop fully. When the young plants are about the size of a goose quill, transplant into a prepared bed in rows one foot apart and four to five inches in the rows. Set the roots deep and draw the earth to them when cultivating, so that they may be well blanched by the time they are fit for use.

Giant Carentan—Produces a large, thick stem and of mild flavor. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.75.

American or Flag—One of the hardest and best for Winter use. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.75.

Pure Culture, Spore Process Mushroom Spawn

Prices for Pure Culture, Spore Process Spawn (if ordered to be sent by Parcel Post, include postage, according to zone; a brick weighs 1½ lbs.). 1 brick, 25c; 5 bricks, \$1.00; 25 bricks, \$4.50; 50 bricks, \$8.50; full case, 100 bricks, \$16.00.

Mushroom, or Hotbed Thermometers—Wood frame, heavy brass point. Price, \$2.25. Parcel post weight, 2 lbs.

Leaflet on Growing Mushrooms free.

Mustard

(German—Senf. French—Moutarde)

One ounce will sow 100 feet of drill.

Culture—A small, pungent salad, used like cress; the seed is also used for flavoring pickles, pepper sauce, etc. For salads sow thickly in shallow drills 6 inches apart. Since plants go to seed quickly, short rows should be sown frequently, rather than long ones at one time. Successive sowings can be made every week or two. To grow seed, sow in April, in rows 1 foot apart, and thin out to 3 inches apart when 2 inches high.

Chinese—Large, light green leaves, frilled at edge. Pkt. 10c; oz. 15c; ¼ lb. 25c; 1 lb. 75c.

Southern Giant Curled—Pkt. 10c; oz. 15c; ¼ lb. 25c; 1 lb. 75c.

Okra, or Gumbo

(German—Safran)

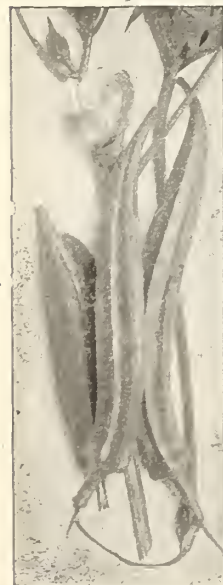

Four ounces to 40 feet of drill.

Culture—Sow the seed thickly in rich ground about the middle of May, or when the ground has become warm, in drills three feet apart, one inch deep; thin to 10 inches apart in drills. Grown for its green pods, which are used in soups, stews, etc., to which they impart a rich flavor, and are considered nutritious.

White Velvet, or Lady Finger—Bears round, white, smooth pods, unlike other varieties, which are ridged or square edge. The pods are of extra large size, and are produced in great abundance. Pkt. 10c; oz. 15c; ¼ lb. 20c; lb. 60c.

Improved Dwarf Green Prolific—Of dwarf growth, but immensely productive and very early. Short, thick, green pods. Home grown seeds of superior quality. Pkt. 10c; oz. 15c; ¼ lb. 20c; lb. 60c.

Perkins' Mammoth Podded—A distinct, valuable new okra. Its productiveness is simply wonderful. The pods shoot out from the stalk within three inches of the ground, and the whole plant is covered with them to the extreme of its height. The pods are of an intense green color, of unusual length—eight or nine inches—and do not get hard, as is the case with other okras. Very superior for canning. Pkt. 10c; oz. 15c; ¼ lb. 25c; lb. 60c.

Improved Dwarf
Green Prolific Okra

Onion

(German—Zwiebel.

French—Eignon)

American Grown Seed. One ounce for 100 feet of drill; six pounds for one acre.

Culture—For sets sow the seeds early as possible in the Spring, very thickly in drills. As soon as the tops dry off in the Summer remove them to a dry, airy place, and early in the following Spring replant by placing the sets in shallow drills 12 inches apart and about four inches apart in the drills; the Onions of this process obtained are of large size early in the season also be grown to full size during the first season by sowing thinly in drills one foot apart and about one-quarter inch deep in March or in early April, in strong land, well manured, and thinning them out to stand 3 or 4 inches apart in the drills.

Prizetaker—This is the large, pale yellow onion that is offered for sale in fruit stores and markets in the Fall. It grows to a very large size; flesh white, of mild and delicate flavor. The large onions are raised the first year from seed, and with ordinary culture produce enormous crops. The onions sometimes go over three pounds each in weight where good soil and culture is given them. Our seed is pure and genuine. Pkt. 10c; oz. 30c; ¼ lb. \$1.00; lb. \$3.50.

Yellow Globe Danvers—One of the most extensively used yellow onions. Price same as above.

Large Red Wethersfield—Grows to full size the first season from seed; almost round, large size, deep red color, and keeps well. Price same as above.

White Silverskin—Ripens early; of large size, mild in flavor and excellent for Winter use; much esteemed for pickling when small. Price same as above.

Australian Brown—A brown skinned onion which grows to a good size the first season. Price same as above.

Southport White Globe—The earliest of the Southport Globes, perfecting a very handsome product within 90 days from sowing seeds. The bulbs are pure white and of a very mild flavor, also equally as good for keeping as the Yellow Globe. The flesh is remarkably firm and solid. It is an enormous yielder, and as it is very attractive, always sells at high prices. Pkt. 10c; oz. 40c; ¼ lb. \$1.50; lb. \$5.00. **ONION PLANTS, SEE PAGE 5.**

White Bermuda—They are of a mild and delicate flavor, and keep longer than any foreign variety. They will produce full-grown onions from seed the same season. Pkt. 10c; oz. 50c.

Red Bermuda—Pkt. 10c; oz. 50c.

Chives Seed—Pkt. 10c; oz. 75c.

Onion Sets

One quart will plant a row about 50 feet.

Used for an early crop of onions, and should be planted just as soon as the ground can be worked. Press the bulb lightly in the ground and do not cover; in rows 12 inches apart, 2 inches apart in the row; so that all the development goes in the onion; on signs of their going to seed, bend the top over, but do not break it off. They can be harvested in this locality for Winter storage as early as July 10th. The advantage in planting sets lies in the fact that the young onion is ready in five weeks from time of planting, while those grown from seed cannot be used until well in the Autumn. Shipped on local orders about March 1st, unless otherwise requested.

Yellow Danvers—Pkt. 20c; qt. 30c; pk. \$1.25; bu. of 32 lbs. \$4.50. **Large Red Wethersfield**—Pkt. 20c; qt. 30c; pk. \$1.25; bu. of 32 lbs. \$4.25.

White Silver Skin—Pkt. 20c; qt. 30c; pk. \$1.50; bu. of 32 lbs. \$5.00.

Japanese, or Ebenezer Onion Sets. This variety is globe-shaped, about the color of a yellow Danver, is very solid and has a mild flavor. It will keep longer than any other variety. Pkt. 20c; qt. 30c; pk. \$1.50; bu. \$5.00.

Multiplier Onion Sets, yellow and white and Egyptian Top Onion, Brown, are furnished in Sept. and Oct. Market price.

Price on Onion Sets subject to change.

Prices on larger quantities furnished on request.

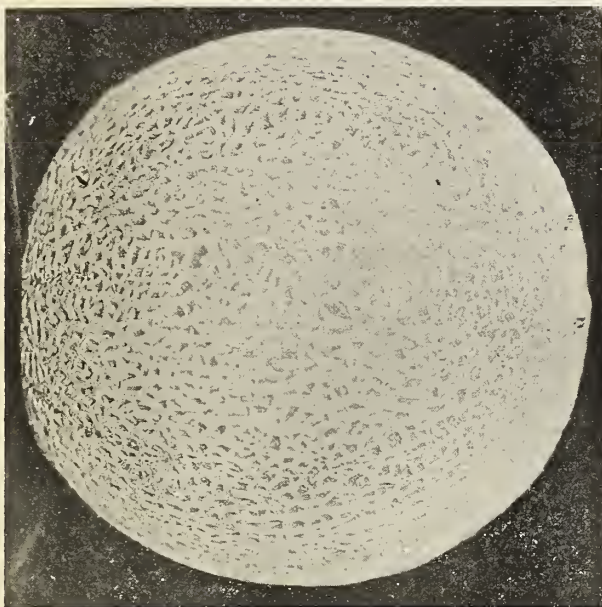

If ordered to be sent by Parcel Post, include postage according to zone; a quart of Onion Sets weighs about 1 lb.

ONION SEED IS SCARCE AGAIN THIS YEAR, OUR LOW PRICES WILL HOLD GOOD AS LONG AS OUR SUPPLY LASTS.

We Pay Postage on Pkts., Ozs., $\frac{1}{4}$ lbs. and Lbs.

MUSKMELONS or CANTALOUPE

(German—Melone. French—Cantaloup). One ounce will plant about 50 hills; two to three pounds in hills to acre.

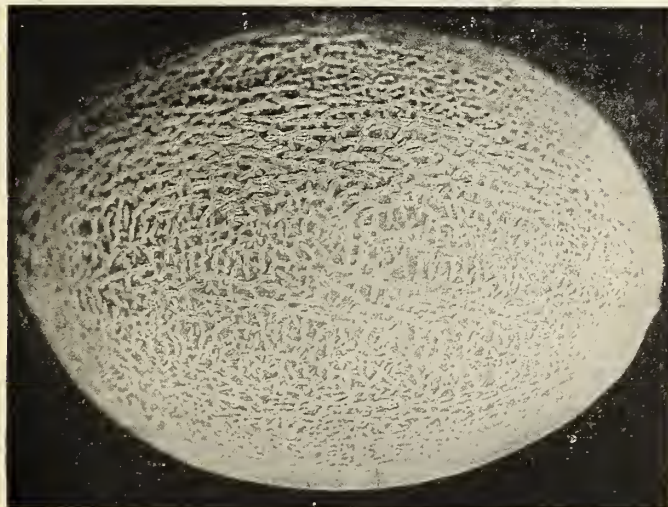

Salmon Tint No. 10-25.

Culture—Thrives best in light, rich soil. Plant early in May, in hills six feet apart. Manure in hill and sow seed freely. After danger from bugs is past thin to three plants per hill. When one foot long, pinching off tips makes vines branching and strong, and fruit will mature earlier. Water freely and feed liquid manure occasionally. For early use, sow in hotbed, on piece of sod.

SALMON-TINT No. 10-25—This is an early melon of the solid netted type that is so desirable. Very small seed cavity, with thick, luscious flesh of genuine salmon-tint shading to green near the rind. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Bottomly Cantaloupe—True Anne Arundel strain. Great favorite with the Anne Arundel County truckers and private gardeners. Medium size, oblong, deeply netted, green flesh and delicious flavor. Our illustration shows this splendid variety so true to nature that there is no further need of describing it. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.75.

M. & S. GOLDEN WONDER CANTALOUPE—Most delicious flavored golden yellow meat, which is thick and solid. Medium size, oval in shape, very vigorous and productive vines, which are great drought and blight resisters. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.50.

M. & S. Delicious Gold Lined Rocky Ford.

Rocky Ford—We have a very fine stock of this popular cantaloupe. Small, oval, of excellent quality and a good shipper; early; green fleshed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

M. & S. DELICIOUS GOLD-LINED ROCKY FORD CANTALOUPE—Its shape is ideal, very slightly oval, no ribs, and is heavily netted over the entire melon. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.25.

Early Netted Gem—One of the best of small melons, and very popular. Prolific and of excellent quality. Very early. A great favorite. Green fleshed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Emerald Gem—Small, green skin, and delicious yellow flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

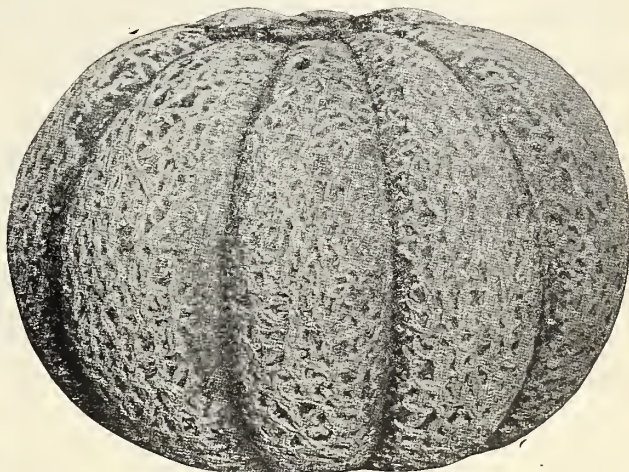

Acme, or Baltimore Nutmeg—A great favorite for retail market and for shipping. Large, oval, deeply netted, solid and of fine quality; green fleshed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Jenny Lind—Very early, small, round, netted and of fine quality; green fleshed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. \$1.00.

Hackensack, or Turk's Cap—A very fine, large sort; green fleshed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Miller's Cream, or Osage—Melons are large and round, with light green, netted skin, and thick, sweet, salmon-colored flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Knight Cantaloupe—True Anne Arundel County grown strain. The great favorite of the Baltimore market, of good size, deeply netted, green flesh, and delicious flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.75.

Jenny Lind Cantaloupe.

Banana—This melon surpasses all others in its delicious fragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is first rate when the melon is thoroughly ripe. It grows from 20 to 28 inches in length and is very prolific. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c.

Montreal Market—The large fruits are nearly round in form, slightly flattened at ends, with very large, broad, heavy ribs. Dark green skin, thickly covered with heavy netting. The flesh is two inches thick, light green, melting, and of delicious flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

New Honey Dew—Produces a melon with smooth, almost white rind, measuring about six inches in diameter by seven to eight inches long. The green flesh is thick and is of a peculiar sweet flavor, resembling a well-ripened banana. To have the melons in the best condition we suggest gathering (or picking) as soon as they slip from the vine and store in a cool place for two or three days before serving; they apparently are at their best when a trifle over-ripe. While we cannot yet recommend Honey Dew for general culture, we offer selected seed at: Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

HONEY DEW—Pink-fleshed, same as the above with the exception that the flesh is of a beautiful pink tint and highly flavored. Price same as green-fleshed.

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs., and 1 lbs.

Improved Hollow Crown.

Parsnip

(German—Pastinake. French—Pannais)

One ounce for 200 feet of drill; five to six pounds for an acre.

Culture—Sow as early in the Spring as the weather will permit, in drills 16 inches apart and one-half inch deep, in a rich, deep soil; thin out to six inches apart in the rows. The quality of the roots is improved by leaving them in the ground over Winter for Spring use.

Improved Hollow Crown—The best variety. A great cropper, roots long, very smooth, white, tender, sugary, and of excellent flavor. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

M. & S. Improved Jumbo Peanuts

(German—Erdnusse. French—Pistache de terre)

Culture—Plant in May or early June, in rows about 2½ to 3 feet apart, dropping the nuts 8 to 10 inches apart, one in a hill. Cover 1 or 2 inches deep. Cultivate three or four times with a cultivator, so as to loosen the earth and keep down weeds, and at the last working, with a shallow turn-plow throw the dirt to the nuts.

Price— $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 20c; lb. 30c. Special price on large quantity.

Pepper

(German—Pfeffer. French—Poivre)

One ounce will produce 1,000 plants.

Culture—Sow in hotbeds in March or April, or on a warm, sheltered border in May, and when the season is favorable transplant in rows two feet apart and 18 inches in row, in good, rich ground.

M. & S. Everbearing Sweet Pepper—Early, large productive and of finest quality. The flesh is so thick and the meat so tender, that it can be fried like meat; it is so sweet that it may be eaten like an apple. Pkt. 10c and 25c; $\frac{1}{2}$ oz. 50c; 1 oz. \$1.00.

Large Bell or Bull Nose—Large, early variety; hot flavor, thick and fleshy. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Chinese Giant—This is a real monster pepper, perfectly sweet, the fruit is green turning to bright scarlet, matures very late, a very shy seeder. Fine for stuffed mangoes. Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 60c; $\frac{1}{4}$ lb. \$1.75.

Topepo

The World's Newest Vegetable

In the Topepo we offer a new vegetable of exquisite flavor combining the delicious qualities of the pepper and the tomato, it is not an improvement on some other strain. It is a new and distinct creation.

The new vegetable appeals to the eye in its gorgeous colorings of vivid red, deeper than the tomato, or golden yellow, striped with dark green, it makes a very handsome table decoration; at first glance it is taken for an artificial waxen tomato.

In flavor the Topepo resembles the Bell Pepper but it is sweeter, not so peppery and has some of the zest of the tomato flavor.

In size it is from four to five inches in diameter. In shape it retains the regular bulges of the Bell Pepper.

The plants grow in a spreading bushy form. The foliage is a deep rich green, is smooth and shiny.

The Topepo is superior to the Pepper for stuffing and baking, because of its beautiful color and of its firm thick walls which do not break down when baked. It is also used for slicing in salads, for flavoring soups and gravies, or dressings, and for stuffing with shrimp, crab and lobster; it can be combined with any vegetable in making original dishes.

A very important feature of the Topepo is its keeping quality, it has kept in ordinary room temperature for thirty days without spoiling.

You will find the Topepo not only an interesting novelty, but a fine addition to your menu if you have a home garden, and an attractive and profitable vegetable if you grow vegetables for the market. Pkt. 25c, 50c and \$1.00.

Perfection Pimento Pepper—Very fleshy and sweet. Pkt. 10c; $\frac{1}{2}$ oz. 30c; 1 oz. 50c.

Large Sweet Spanish—Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Long Red Cayenne—Long, slim, and very pungent. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Mammoth Ruby King—Good for Mangoes or pickling, very sweet. Large, quite productive. Pkt. 10c; $\frac{1}{2}$ oz. 20c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

Small Chili—Small, conical pods. Very hot. Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c.

Red Cherry—A small round pepper, very hot. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c.

Neapolitan—Grows a long shape and somewhat narrow; it stands upright on the bushes. Sweet, bright red; and very early. Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c.

Golden Dawn—A large yellow variety, very sweet. Pkt. 10c; $\frac{1}{2}$ oz. 35c; oz. 60c.

PEPPER PLANTS LISTED ON PAGE 5.

Parsley

(German—Petersilie. French—Persil)

One ounce to 150 feet of drill.

Culture—Parsley requires rich, mellow soil. The seed is even slower than Parsnip in germinating, and should be sown as early as possible in the Spring, in drills one foot apart, and when the plants are well up thin to one foot in the row. When the plants are about three inches high, cut off the leaves, the plant will start a new growth.

M. & S. GREEN CURLED BEAUTY PARSLEY—Very head-some, dark green, beautifully curled. Dwarf habit, hardy and productive; very slow going to seed; it can be cut the year around. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Champion Moss Curled—A distinct variety of unequalled merit, beautifully crimped and curled. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Green Mountain Parsley—Beautifully crimped and curled; perfectly hardy and vigorous grower. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Plain, or Single—Very strong in flavor, but not curled. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Hamburg, or Rooted—Edible roots. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

M. & S. Everbearing Sweet Pepper.

Gentlemen—It gives me a great pleasure to say that the Juliana spinach seed stood more hot dry weather than anything I have sown in my life.

Yours truly,

HERMAN LEMOYNE.

M. & S. SUPERIOR HAND PICKED PEAS

(German—Erbsen. French—Pois)

We pay postage on Peas up to 2 lbs.

Prices on Larger Quantities on Application.

Sow one quart of seed to 100 feet of row; and one-half to two bushels to the acre in drills.

If larger quantities wanted by Parcel Post, include postage, according to zone.

Weight— $\frac{1}{2}$ peck, 7 $\frac{1}{2}$ lbs.; 1 peck, 15 lbs.; 1 bushel, 60 lbs.

Prices on all Pea Seeds are subject to market changes.

Packets of all varieties of Peas, 10c.

Culture—Peas succeed best in light, dry, loamy soil. Early and dwarf sorts require richer soil than the late varieties. If manure is used, let it be old and wellrotted, or there will be a rank growth of vines with few pods. Sow the early, smooth, round sorts as early in the Spring as the ground can be worked. Seeds of wrinkled varieties are more liable to rot if the ground is cold, and must be planted later. Sow in single rows, dwarf sorts three feet apart and tall sorts four feet apart, or in double drills, six to eight inches apart, one inch apart in the drill, and not less than four inches deep, for late sorts five to six inches deep. Deep planting prevents mildew.

Extra Early Varieties

(Weight 60 lbs. per bushel.)

Early Bird—As early as Alaska and First and Best. As large as Thos. Laxton or Gradus. Dwarf, vigorous vines about 2 feet high, covered with immense well-filled pods. Perfectly hardy. Can be planted as early as any variety. $\frac{1}{2}$ lb. 30c; 1 lb. 50c; 2 lbs. \$1.00; 7 $\frac{1}{2}$ lbs. \$2.25; 15 lbs. \$4.00; 60 lbs. \$13.50; 100 lbs. at 60 lb. rate.

Extra Early Alaska—Popular among market gardeners for an early crop. The pods are medium size, dark green in color and ripen almost at one time. $\frac{1}{2}$ lb. 20c; 1 lb. 40c; 2 lbs. 75c; 7 $\frac{1}{2}$ lbs. \$1.50; 15 lbs. \$2.50; 60 lbs. \$9.50; 100 lbs. at 60 lb. rate.

Pedigree First and Best—An excellent strain of first early peas; very popular and largely planted throughout trucking sections. Height two to two and one-half feet. Price same as above.

Prolific Early Market—This is one of the largest podded and most productive of all smooth-seeded extra early peas. Vines grow about 30 inches in height, and can all be gathered in two pickings. The pods are remarkably well filled, and the peas sweet and fine flavored. A most satisfactory prolific home gardener. Price same as above.

Long Podded Alaska—Vines of this variety grow about three feet high and are heavy bearers. The pods, three inches long, mature shortly after Alaska and are well filled with sweet, tender peas. Price same as above.

Extra Early Wrinkled Varieties (Weight 56 lbs. per bushel.)

M. & S. WORLD'S RECORD—Medium vines of dark green color and heavy foliage, bearing large handsome well-filled pods measuring sometimes 4 ins. and longer, filled with from 8 to 12 tender luscious peas. $\frac{1}{2}$ lb. 30c; 1 lb. 50c; 2 lbs. \$1.00; 7 lbs. \$2.00; 14 lbs. \$3.75; 56 lbs. \$11.20; 100 lbs. at bus. (56 lbs.) rate.

Laxtonian—A dwarf pea with large handsome pods. It is slightly earlier than Gradus, maturing about the same time as Thomas Laxton. Vines medium dark and medium heavy of foliage. Pods 3 $\frac{1}{2}$ to 4 inches long, slightly curved. Will bear more abundantly at top of vines, making it easy to pick, very heavy yielder. Price same as above.

Thomas Laxton—An exceptionally fine variety, growing three feet in height and yielding large podded peas, four to five inches in length, of the finest flavor, very early. Price same as above.

Gradus, or Prosperity—One of the most popular wrinkled sorts. Even though it matures a short time later than the extra earlies, the pods, fully as long as those of the well-known Telephone, contain very large peas that are unexcelled for sweetness. Superior variety for market or garden. Price same as above.

Medium Early Wrinkled Varieties

(Weight 56 lbs. per bushel.)

M. & S. LITTLE MARVEL PEA—An extremely valuable variety, especially suited to small home gardens, and also a splendid variety for early market gardening. It matures very early and produces large crops. The vines grow about 15 to 18 inches in height. The pods are dark green, fair sized, produced in pairs, and are closely filled with 7 to 8 peas of extra fine flavor. $\frac{1}{2}$ lb. 30c; 1 lb. 50c; 2 lbs. \$1.00; 7 lbs. \$2.00; 15 lbs. \$3.75; 56 lbs. \$11.20; 100 lbs. at bus. (56 lbs.) rate.

Nott's Excelsior—Resembling Little Marvel in habit and growth. Price same as above.

Daisy, or Dwarf Telephone—The striking features of the Daisy pea are its large pods and the way in which they are heaped up in ridges on the short, strong vines. The pods are well filled with large peas of most excellent quality. The vines are 16 to 18 inches high, and, being strong and thrifty, require no support, making it an ideal variety for use where brush or stakes are not available. This pea is desirable on account of the fine appearance of the pods, and always finds a ready sale. Price same as above.

Pot Latch—Resembling Daisy, or Dwarf Telephone in habit and growth. Price same as above.

Medium and Late Varieties

(Weight 56 lbs. per bushel except in Sugar Marrow.)

Telephone—For general planting this tall-growing variety is undoubtedly the most popular among market gardeners. The pods 4 to 4 $\frac{1}{2}$ inches long, are light green in color and filled with large, sweet, tender peas. Price same as above.

Champion of England—A standard pea; vines grow 4 $\frac{1}{2}$ feet high and bear medium-sized pods of peas of good quality. Price same as above.

Improved Sugar Marrow Peas—We have the genuine stock of this variety. This pea is the kind planted principally by the larger growers around Baltimore for late crop. It is a strong grower and produces an abundance of large, well-filled pods. $\frac{1}{2}$ lb. 20c; 1 lb. 40c; 2 lbs. 65c; 7 $\frac{1}{2}$ lbs. \$1.50; 15 lbs. \$2.50; 60 lbs. \$9.50; 100 lbs. at bus. rate.

Dwarf Melting Sugar—The pods as well as the peas of this variety are edible and both very sweet. $\frac{1}{2}$ lb. 30; 1 lb. 50c; 2 lbs. \$1.00.

Early Bird Peas.

early sort, both for the market gardener and the

M. & S. World's Record Peas.

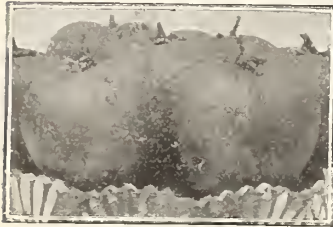

POTATOES

Subject to Market Fluctuations.
Prices on large quantities furnished
on application.

(German—Kartoffeln. French—Pomme de Terre)

Cook's New Hybridized Potato Seeds

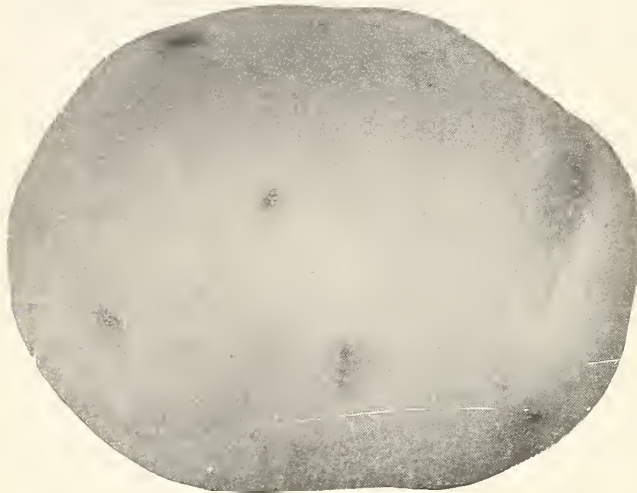

(FROM THE TRUE SEED BALLS)

Balls Half Size

thing in the Potato line. Potato Seed-Balls are vanishing. Get the seed now while you can. Millions want them. **Packet 15c; 4 for 50c.**

Cook's Potato Seeds are the wonder of Gardeners and a puzzle to Scientists. No other can compare. Over 100 new seedling varieties can positively be grown from a single packet. All valuable new Potatoes are produced from such seed. One may be worth a gold mine. There will be all colors, shapes sizes and qualities—often 50 to 200 Potatoes in a hill. There will be white, yellow, red, pink, blue, purple and black Potatoes. Marvelous "freaks" often appear. They seem to grow mad and try to produce anything and every-

Irish Cobbler Potato

Present price of all kinds: Peck \$1.00; bushel \$3.50.

Sack of 165 lbs. \$8.50. If wanted by parcel post add at the rate of 15 lbs. for a peck and 60 lbs. for a bushel.

Prices on quantity of Potatoes furnished on application.

Potato prices subject to market fluctuation.

Culture—Planting may commence as early in the Spring as the ground can be worked. Place one piece every twelve inches in rows two and one-half feet apart, covering about four inches. When cutting the seed allow one eye to each piece.

Ten bushels cut tubers will plant one acre.

Red Bliss—Very early, thin, red skin, round, white flesh.

Irish Cobbler—This is an early potato of exceptional merit, which has given our trade entire satisfaction. The shape is round. Flesh is white and the eyes strong and deeply set.

Houlton Early Rose—The Houlton strain of the old favorite Early Rose has been the most popular on our market in recent years.

Crown Jewel—A well-known and deservedly popular early variety. Very productive and an excellent cooker. Skin white and smooth, eyes shallow, but strong.

M. & S. FILL BASKET—On account of the large yields that have been reported on this potato, our sales on it have increased wonderfully. It is of handsome round shape and most desirable for the best trade. It is a vigorous grower, ripens uniformly, is a good keeper, medium late. The vines are always very heavy, the seed being especially vigorous, and tubers always good size, where soil is well tilled. Very smooth and a good cooker.

Improved Green Mountain, Early Norther, New Queen, Early Ohio, Prosperity, McCormick, Rehoboths. Prices furnished on application.

Choice Seed Sweet Potatoes, Leading Varieties—Prices on application. Sweet Potato Plants. **SEE PAGE 5.**

Pumpkins

(German—Kurbiss. French—Potiron)

We pay postage on pkts., ozs., ¼ lbs. and 1 lb.

One ounce for fifteen hills; three to four pounds plant an acre.

Culture—Sow in the month of May. Make hills the same as you do for squashes, but do not make the hills too close.

King of the Mammoths, or Pot Iron Pumpkin.

M. & S. YANKEE PIE PUMPKIN—The best Pie Pumpkin that grows. Strong vines bearing an abundance of good keeping, large handsome pear shaped, golden yellow pumpkin, which are so sweet that they require very little sugar and ripen early. **Pkt. 10c; oz 15c; ¼ lb. 40c; 1 lb. \$1.25.**

Cushaw, or Winter Crookneck—An old standard variety, which is very popular. It is also used for feeding stock. Long yellow crookneck, fine grained yellow flesh, very solid. **Price same as above.**

Cushaw Striped—Same as above, but it is green and white striped. **Price, same as above.**

King of the Mammoths, or Pot Iron—An immense variety, which always wins prize offered for the largest and best pumpkins, grown to weigh over 200 pounds. Flesh of a rich, golden yellow; a splendid keeper. **Price same as above.**

Japanese Pie—Flesh very thick, rich salmon color, fine grain, dry and sweet. **Price same as above.**

Tennessee Sweet Potato—Excellent for pies; pear-shaped, medium size, flesh and skin creamy white, fine grained, sweet, a first rate keeper. **Price same as above.**

Sugar, or New England Pie—For making pies this variety cannot be excelled. The Pumpkins are small but very sweet, fine grained and of the best quality. **Price same as above.**

Winter Luxury Pumpkin—A very good keeper and a splendid pie Pumpkin; shape round, skin finely netted, and beautiful russet - yellow color; flesh thick and of fine flavor. **Price same as above.**

Kentucky Field, or Cheese—Shape flat like a cheese box; good keeper, popular. **Pkt. 10c; oz. 15c; ¼ lb. 25c; 1 lb. 75c.**

Common Yellow, or Connecticut Field—Very productive; for feeding stock. **Price same as above.**

Cushaw or Winter Crookneck.

Gentlemen:—I find your Juliana Spinach a great improvement over all other varieties which I have grown in the past.

Yours very truly, JOHN H. GRIFFITH, Manager.

Gentlemen—It gives me great pleasure to say that our gardens turned out wonderful this season, even though we had such unfavorable weather. I was pleased with everything grown from your seeds.

Sincerely yours,
MR. MOORE, Notre Dame College.

M. & S. SELECTED RADISH SEED

(German—Radies. French—Radis)

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.

One ounce for fifty-foot drill; ten pounds in drills to one acre.

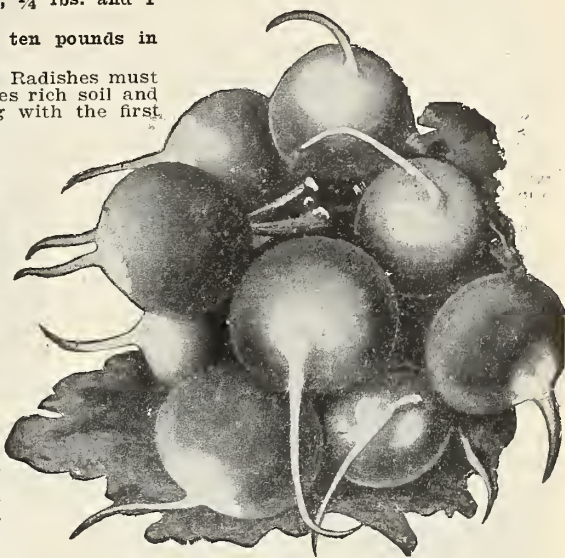

Culture—To be tender and crisp Radishes must be grown quickly, and this requires rich soil and plenty of moisture. Commencing with the first mild spell in the Spring, sow at intervals of ten days. May also be sown as a catch crop between rows of beets, lettuce, onions, etc. Radishes can be forced in hotbeds, but must have plenty of ventilation and moisture.

Extra Early Varieties

Scarlet Globe
Early — M. & S. Strain—Highly recommended for truckers. This variety can be used for forcing and is

M. & S. Strain
Scarlet Globe.

White-Tipped Scarlet Globe

recommended for early outdoor planting. It is small, round, red and of excellent flavor; its rich, crisp, tender flesh makes it very popular. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c; 5 lbs. \$4.

French Breakfast, Early—Oblong shape, rapid grower, very mild and tender; of a beautiful scarlet color, tipped with white. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Early Long Scarlet Short Top—The principal outdoor quick-growing variety, also very good for forcing. Grown in light, rich soil, its average length is about eight inches; grows half out of the ground, straight, uniform in color, brittle, crisp, small tops, bright scarlet. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Long White Vienna or Lady Finger—Has slender pure white roots which are smooth and average about 6 to 7 inches in size when matured. They are quite early and of excellent quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Iceberg—A beautiful long, slender radish, of recent introduction. Beautiful pearl-white color, firm and solid, slow to get woody. A good seller. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

White Strasburg—Handsome, oblong, tapering shape, both skin and flesh pure white; flesh firm, brittle, tender and possessing the most desirable character of retaining its crispness, even when the roots are old and large. Excellent for Summer use, as it withstands severe heat and grows very quickly. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

New Glass, or Cincinnati Market—A long Scarlet Radish with a distinctive white tip. A suitable radish for deep mellow soil. A fine radish for the home garden as well as an attractive one for the market stall. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

White Turnip (Short Top)—Of quick growth; roots round, pure white, tails very thin; leaves short, flavor excellent. Fine for forcing and open ground. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

White-Tipped Scarlet Globe—A good forcing variety. Small size and very attractive, being a handsome, bright scarlet, with white tip. Very early and good quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Ruby King, Extra Early—Of brilliant red color, mild for forcing or open ground; roots are tender; juicy and fine. One of the best round red Radishes that grows. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

The best soil improver you can use is manure. Use plenty of it. We can sell you a whole wagon load in a 100 lb. bag of our High Grade Sheep or Cattle Manure, at a surprisingly low figure.

M. & S. EARLY CARDINAL RADISH

—These are the best little crisp red radishes, which come so early in the season; they grow globular in shape and are of the most brilliant cardinal red color; are tender and crisp; will stand the heat and are fine for forcing. The most desirable for home garden and market gardeners' use. Pkt. 10c; oz.

M. & S. Early Cardinal. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. 90c.

Crimson Giant—Like above but much larger. Very desirable. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Strawberry—The exceptional merit of this radish is proved by its popularity increasing every year with successful market gardeners. This radish is a table dainty, crisp, tender and sweet; it is turnip shaped, bright scarlet color, and is a high class strain for out-door planting. It combines beautiful appearance with finest radish quality—appealing to the eye and palate. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Summer Varieties

Large White Stuttgart—Very large, top-shaped, flesh and skin white, fine quality, firm and brittle, seldom pithy. Can be stored for winter. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Large White Summer Turnip—Round, smooth and very white; crisp and tender. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Golden Globe—A favorite summer radish. Golden-brown skin, perfect globe shape, mild and brittle, slow to seed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Improved Chartier—Somewhat resembling brightest scarlet—early radish. It is double the size and later; long scarlet and tipped with white. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Winter Varieties

Long Black Spanish—Large radish, with black skin and white firm flesh, grows six to eight inches long. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c.

Round Black Spanish—Like the above, except that it is round shape. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c.

Long White Spanish—Like the Long Black Spanish, only different in color. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c.

Round White Spanish—Like the Round Black, but white, like all the Spanish radishes, which are fine keepers, mild flavor and brittle. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c.

China Rose, or Scarlet China—Bright rose-colored, stump-rooted, of excellent quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 90c.

White Chinese, or New Celestial—Large stump-rooted, white skin and flesh, mild in flavor, brittle and never woody. For late planting and a splendid keeper. Market gardeners will find this a good variety that sells readily. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. 90c.

Sakurajima (Mammoth Japan)—The largest sort in cultivation. Sow early in rich soil. In Japan it grows as much as twenty-one inches long and forty-three inches in circumference. Thin well to allow of proper development. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Merima—Also a Japanese radish. Similar to Sakurajima, but round instead of long. Very tender and sweet. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

HORSE RADISH (German — Meerrettig; French — Ralfort) — SEE PAGE 5.

WE PAY POSTAGE ON PKTS., OZS., ¼ LBS., AND 1 LBS.

Rhubarb

(German—Rhababer. French—Rhubarbe)

Culture—Sow seed in a cold-frame, in a fine, rich, sandy loam, about the first of March, in drills four inches apart. Keep the frames covered during nights and cold days, so that the soil will not freeze, and in six or eight weeks the plants will be large enough to set in the open ground. Transplant to a rich soil, and set in rows twelve inches apart and twelve inches in the row. The following Spring transplant to a permanent location, setting four or five feet apart each way. In good soil Rhubarb is ready to use the second year from seed.

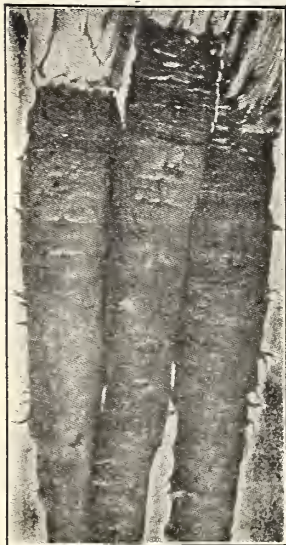

If our two-year-old roots are used, a crop may be had the same season, which is much better than sowing seed where only a few plants for family use are needed. In the Fall the bed should have a thick dressing of coarse manure, to be spaded under in Spring.

Myatts Victoria—The leading variety. Pkt. 10c; oz. 20c; ¼ lb. 60c.

ROOTS—SEE PAGE 5.

Salsify, or Oyster Plant

Mammoth Sandwich Island Salsify

(German—Haferwurz. French—Selsif)

One ounce to seventy feet of drill; about eight pounds to the acre.

Culture—Sow as early as the ground can be worked in the Spring, in drills twelve inches apart, one inch deep, and thin out to six inches in the row. Keep them free from weeds. Cultivate the same as for Carrots and Parsnips. A part of the crop may be left in the ground till Spring, when it will be found fresh and plump. The roots are cut into pieces one-half inch long, boiled until tender, and then served with drawn butter, in which way it is a delicious vegetable. They are also mashed and baked like Parsnips, and have a sweet and agreeable flavor like that of the oyster.

Mammoth Sandwich Island—This is an improved type and the largest and most profitable salsify now in cultivation. It is white in color, and a satisfactory sort in every way; invaluable to market gardeners and truckers.

Pkt. 10c; oz. 25c; ¼ lb. 65c; 1 lb. \$2.25.

M. & S. Swiss Chard, Delmonico

This is the finest Swiss chard that grows, making large handsome, finely crimped light green leaves, which are tender and have a delicious flavor, the ribs are edible and not unlike asparagus. Absolutely the best for home gardens. Pkt. 10c; oz. 15c; ¼ lb. 30c; 1 lb. \$1.00.

Swiss Chard, or Spinach Beet, Giant Lucullus—The leaves of Swiss Chard are used as greens, cooked in the same manner as spinach, and the large ribs are prepared like asparagus, in which manner they are delicious. Pkt. 10c; oz. 15c; ¼ lb. 25c; 1 lb. 75c.

M. & S. Swiss Chard, Delmonico

Vegetable Marrow

Italian (Cocozelle di Napoli)—Grows about 20 inches long, with a diameter of 3 or 4 inches. Skin smooth, dark green, marbled yellow or pale green.

Cosazza—Similar to the above. Great favorite with the Italians. Price of both Pkt. 10c; oz. 15c; ¼ lb. 50c.

Gentlemen—The Sweet William Seed which I purchased from you last year turned out to be the most beautiful I have seen. One bushel seemed to be an exception. I can recommend them highly to any of your customers.

A. L. LEPPER, Raspeburg, Md.

Sorrel, or Sourgrass

(German—Sauerampfer. French—Oseille)

Culture—Sow in Spring in drills 18 inches apart, in a rich soil and keep the flower-stems cut off as they appear. It remains in the ground year after year, and only needs to be taken up and divided once in four or five years. To be cut and cooked precisely like Spinach; or it is excellent cooked with it, one-third Sorrel to two-thirds Spinach. It is also used for soups. Very nice to be eaten after it has become cool. Inasmuch as the hot sun tends to increase its acidity, a northern exposure is preferable.

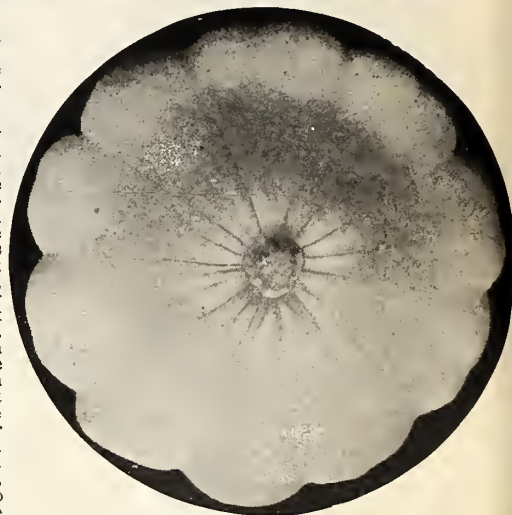

Large French—Pkt. 10c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

Squash

(German—Gemuse Kurbis. French—Courge)

Bush sorts, one ounce for fifty hills; five to six pounds to acre; running varieties three to four pounds in hills for an acre.

Culture—Squashes should be planted in a warm, light, rich soil after the weather has become settled and warm, about the middle of May or June. Plant in well-manured hills, in the same manner as Cucumbers and Melons—the Bush Varieties three to four feet apart each way, and the running kinds from six to eight feet. Eight to ten seeds should be sown in each hill, thinning out after they have attained their rough leaves and danger from bugs is over, leaving three to four of the strongest plants per hill.

M. & S. Perfection Bush Squash

M. & S. PERFECTION BUSH SQUASH—This is the finest scalloped white squash that grows, obtaining large size but stays tender as butter for a long time. The best for home gardens and market gardeners. Pkt. 10c; oz. 15c; ¼ lb. 45c; 1 lb. \$1.25.

Early Mammoth White Bush Squash—An excellent strain. Early prolific, much larger than the old White Bush. Splendid for market, best for shippers. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00.

Summer Crookneck, Bush Variety—About one foot long, with crooked neck, bright yellow, warty, shell hard when ripe. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00.

Hubbard—An excellent keeper; splendid quality. Vines of strong running growth. Large olive-shaped fruits with dark-green skin; very rich flesh. Pkt. 10c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

Golden Hubbard—Like the above, but of a beautiful orange-red color, except for a bit of olive-green on blossom end. Flesh deep orange, dry, fine grained and richly flavored. Pkt. 10c; oz. 15c; ¼ lb. 40c; 1 lb. \$1.25.

Boston Marrow—This is a large-fruited, hard-shell sort, highly esteemed for Winter use, having bright orange skin and deep orange flesh. Very fine, extensively used for pumpkin pies. Fine, strong running growth. Very productive, oval shape. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00.

Summer Crookneck Squash.

Blue Hubbard—A new variety and a selection from the original Hubbard. Fruit gray blue color; grows large; remarkably good keeper, and excellent quality. Pkt. 10c; 20c per oz.; ¼ lb. 50c; \$1.75 per lb.

Turnip

(German—Rube. French—Navet)

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.

One packet for 100 feet; two pounds to the acre.

Culture—For early use sow as soon as the ground opens in Spring, drills from 12 to 15 inches apart; thin out to six or nine inches in the rows. For a succession, continue to sow in July and August. The Ruta Bagas are grown for feeding stock, and are also excellent for the table. Take up the roots in November or before severe frosts; cut off the tops within an inch of the crown, store in a cool cellar or pit, or pile up in a conical form, out of doors, in dry ground; cover carefully with long straw and finish by earthing up, covering them with about 12 or 15 inches of earth, leaving a trench around the heap to carry off the water. Put away in this manner they will be found in good condition in the Spring.

M. & S. Early Champion Turnip.

M. & S. EARLY CHAMPION TURNIP—This is the best Turnip for home gardens and market gardeners to plant. It is large perfect globe shape, white as snow with a beautiful distinct red shoulder (tops are not over large), stays tender and sweet a long time. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Red, or Purple Top White Globe—A variety of decided merit, and the most popular in our markets. Globular-shape, very handsome and of superior quality. Is a heavy producer, early, and of rapid growth, and an excellent keeper. Besides being a first-class table turnip, it is also very good for stock. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Extra Early Purple Top Strap Leaved—Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Improved
Purple Top
Ruta Baga,
or Swede
Turnip

Purple Top Yellow Aberdeen—Medium size, round, pale-yellow, tender and sugary. Is hardy and productive and keeps well. Closely approaches Ruta Baga in hardness and firmness of texture. This is an old esteemed variety for stock. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Improved Purple Top Ruta Baga, or Swede—The leading variety of Ruta Baga and is grown principally for stock, although it is very often used for table. Hardy, productive, flesh yellow, solid, sweet, fine grained and of good flavor. Ruta Bagas should be sown about one month earlier than other turnips. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Gentlemen:—It gives me great pleasure to say that the Juliana Spinach seed stood more hot dry weather than anything I have sown in my life.

Yours truly,
HERMAN LeMOYNE.

Gentlemen—Your Juliana Spinach is truly wonderful. It is all you claim for it and then some.

JOHN MEHL, Gardener,
Foxcroft School, Middleburg, Va.

White Egg—A quick-growing, egg-shaped variety. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Yellow, or Amber Globe—Excellent for table use or stock. Fine quality, keeps well. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Pomeranian White Globe—Free growing and rough-leaved. Pure white. Useful for table and stock. Large and productive. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Cow Horn—A long, white, carrot-shaped turnip, which grows half out of the ground. Mostly used for feeding stock, but makes a fine table sort. Has lately been brought to prominence for green manuring in connection with rape. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c.

Seven Top—Grown exclusively for its tops, and when properly prepared and cooked, make a fine dish. Withstands our winter without any protection. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Tennoji Turnip—A Japanese variety of exceptional merit. Flat, snow white and of immense size, but very fine flavor. Seed very scarce. Pkt. 10c; oz. 25c.

Spinach

(German—Spinat. French—Epinard)

One packet will sow fifty feet of drill; 15 to 20 lbs. to an acre. Prices on larger quantities furnished on application.

Bloomsdale Savoy Leaved Spinach.

Culture—Sow in early Spring, in drills a foot apart, every two weeks for a succession, and as it grows, thin out for use. For Fall use, sow in August, and for Winter crop in September. Cover that which is left over winter with straw or leaves after the weather becomes quite cold. Keep clear of weeds. Sow the seeds of New Zealand in hills two feet apart each way, three or four seeds in a hill.

Bloomsdale Savoy Leaved—The popular Fall Spinach so largely grown for market. Grows upright, the leaves being crumpled, dark green and very thick. Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 35c; 5 lbs. \$1.25.

New Long Standing Bloomsdale—Has all the good points of the above, in addition, it will withstand the summer heat and does not go to seed. Pkt. 10c; $\frac{1}{4}$ lb. 20c; 1 lb. 50c; 5 lbs. \$2.00.

Victoria—A favorite for early Summer. It is one of the darkest in color. Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 35c; 5 lbs. \$1.25.

Long Season—Leaves are decidedly dark green in color, very broad, thick and fleshy. It resists the Summer heat. Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 35c; 5 lbs. \$1.25.

Triumph Spinach—This excellent new Spinach is nearly double the size of the Victoria and has all its good quality. Very profitable for market gardeners and shippers. Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 35c; 5 lbs. \$1.25.

Juliana (the latest introduction)—Very long standing, heat resisting, handsome dark-green. Very thick and curled leaves. Absolutely without male plants which is the cause of the long-standing quality. Pkt. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c; 5 lbs. \$2.00.

King of Denmark—The leaves are large, rounded, somewhat blistered, and deep green. The plants grow vigorously and are ready to use as soon as any kind; while at the same time they remain a long time in good condition after other kinds have run to seed. Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 35c; 5 lbs. \$1.25.

New Zealand—Of delightful flavor and practically ever-bearing. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Tobacco Seed

Connecticut and Pennsylvania Seed Leaf—Pkts. 5c and 10c; oz. 25c.

Havana Seed Leaf—Pkts. 10c; oz. 35c.

Maryland Tobacco—Pkts. 10c; oz. 25c.

Ruxton, Md., June 1st, 1925.

Gentlemen—I find your Juliana Spinach a great improvement over all other varieties which I have grown in the past.

Yours very truly,
JOHN H. GRIFFITH, Manager.

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.

M. & S. "SURE CROPPING" TOMATOES

(German—Liebesapfel. French—Tomate)

One ounce for 1, 500 plants; quarter pound (to transplant)
an acre.

Culture—This delicious vegetable is one of the most important of all garden products. The seed should be sown in a hot-bed about the first week in March or latter part of February, in drills five inches apart, and half an inch deep. When the plants are about two inches high they should be set into small pots, allowing a single plant to a pot. About the first of May the plants may be set out in the open ground in hills three feet or four feet apart each way. (Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower pot, and placing it in a sunny window of the room or kitchen.) Cultivate thoroughly as long as the vines will permit, but the last two or three workings of the soil should be very shallow (surface cultivation), or the crop may be badly injured, especially if the cultivator is run too near the young plants.

New Introduction—Marglobe

Tested repeatedly and approved by the United States Department of Agriculture. Is sure to be planted extensively before long. This is what the Department says about it. "Very productive, second early variety. Fruits large, smooth, meaty, red, globular. Highly resistant to wilt and somewhat resistant to blights. Pkts. 25c and 50c; $\frac{1}{2}$ oz. 75c; 1 oz. \$1.25; $\frac{1}{4}$ lb. \$4.00; 1 lb. \$15.00.

EARLY VARIETIES M. & S. Early Wonder

This is the fifth year that we are offering this wonderful extra early Tomato, after several years of careful selection. The fruits are large for so early a variety, round or slightly flattened, deep scarlet red color, smooth, free from cracks and of fine quality. It produces ripe fruit as early as Earliana and continues to yield marketable fruit a longer period than the other first early varieties. The vines are vigorous and very productive. We consider this a valuable addition to the list of early tomatoes for the market or home garden. Pkt. 25c; $\frac{1}{2}$ oz. 40c; oz. 75c; 2 oz. \$1.25; $\frac{1}{4}$ lb. \$2.25; 1 lb. \$8.00.

The "Burbank"—The Earliest Tomato in the World—By far the earliest, smoothest, solidest, most productive, and best of all early tomatoes; resists wilt and other tomato diseases better than most others. Fruit, bright red; thick, solid, heavy, smooth, firm, medium to large in size, superior quality, unusually heavy and continuous bearer throughout the season; best keeper and shipper. The "Burbank" has one other unique and most remarkable quality which will be appreciated by those who like fresh sliced tomatoes for the table. Unlike other tomatoes, the skin peels freely from the rich, firm flesh. Price: Pkt. 15c; 2 pkts. 25c; 10 pkts. \$1.00. In bulk, $\frac{1}{4}$ oz. 50c; $\frac{1}{2}$ oz. 80c; 1 oz. \$1.50.

Extra Early I. X. L.—Combines extreme earliness, immense size and prolificness. Fruit red, ripening mostly all at one time. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Sparks Earliana—Particularly desirable for shipping and for earliest market. The fruits are smooth, round, of red color, making desirable and salable fruits. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; 1 lb. \$2.50.

Chalks Jewel—A tomato of fine quality. Early, round, smooth, red fruit of excellent flavor. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 90c; 1 lb. \$3.00.

Marglobe Tomato.

Bonnie Best—The finest of the second early tomatoes. About a week later than the Earliana, but far superior in quality. Fine red color, fine quality, hardy and productive. Excellent flavor. A most profitable variety for early and main crop. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.00.

John Baer—This tomato compares with Bonnie Best, but grows much heavier foliage and larger fruit; is also more productive. While not as early as the Earliest, it will pick some fruit quite early; the bulk of the crop coming five to seven days later. It is a good, all around tomato, the fruit being smooth, ripening clear to the stem and of a good rich red color. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.10; 1 lb. \$4.00.

June Pink—For gardeners who have a market for a nearly purplish pink fruit (which is produced in clusters). This is the variety to plant. True strain seed. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.25; 1 lb. \$4.00.

November 1, 1926.

Gentlemen:

The Long Green Cucumber seed which I purchased from you the past season gave splendid results, from seeds for which I paid 40c I picked 6000 cucumbers, which netted me \$60.00. Also glad to say that all the other seed which I got from you gave excellent results.

Yours truly,

C. K. DEMMITT, Owings Mills, Md.

M. & S. Incomparable Tomato

We pronounce this the best medium early Tomato that grows. It produces large smooth fruit, which are very thick from stem to blossom end, very solid and of a deep red color. It yields immensely and clean up to frost, we have counted fifteen marketable fruit on a single crown setting. We do not mean to say that half the patch will do this, but we can honestly say that we saw a great many plants with seven, eight and nine fruits on a crown setting. The vines are stout and dark green, holding the fruit well off the ground.

Seed scarce, order early, grown exclusively by us. Packet 10c and 25c; ounce 50c; $\frac{1}{4}$ pound \$1.50; 1 pound \$5.00.

TOMATO PLANTS, PAGE 5.

Gentlemen:

The Early Wonder Tomatoes which I grew from your seed this season were the best I have ever put on the market.

Yours truly,

TURNER WATSON.

M. & S. Early Wonder Tomato

M. & S. MAIN CROP AND SMALL FRUITED TOMATOES

M. & S. BIG CHIEF—A grand new main crop tomato of the very highest quality. It produces an abundance of large handsome red fruit, which ripens clean to the stem and will bear heavily from the early part of July until frost. It is a very shy seeder. The meat is deliciously juicy and free from acid. It is rare to see an ill-shaped fruit on a M. & S. BIG CHIEF VINE. We have tested this valuable new variety very carefully and have always been more than satisfied with the results. Order quick, as the seed is scarce, grown exclusively by us. Pkt. 10c; oz. 40c; ¼ lb. \$1.50; 1 lb. \$5.00.

Wisdom—This tomato of recent introduction has become very popular. It is a great yielder of large handsome red fruit, which ripens clean to the stem. It makes

very strong vines and should be given plenty of room. Pkt. 10c; oz. 40c; ¼ lb. \$1.50; 1 lb. \$5.00.

Kellys Red—This variety has obtained immense popularity in the last few years. It was originated in Anne Arundel County. Its solidity and carrying qualities are remarkable. Its color is a desirable red. Its shape perfectly smooth and thicker from stem to blossom than most varieties, making it very handsome and salable. Nobody finds any fault with this variety, but all speak in the highest terms of its beautiful color, its wonderful yielding qualities, its unequaled firmness, or some other of its good points. Pkt. 10c; oz. 25c; ¼ lb. 85c; 1 lb. \$3.00.

Greater Baltimore—General crop tomato of sterling merits; large, smooth, beautiful red skin fruits, which are produced in great abundance until frost kills the vine. Price same as above.

B. B. (Brinton's Best)—A very fine late crop tomato, which is similar to the New Stone. Keeps well after being picked. A vigorous grower and quite popular. Price same as above.

Ponderosa—Remarkably large and of fine quality. Very solid. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.50.

M. & S. IMPROVED NEW STONE—This

variety is one of the very best tomatoes grown. For productiveness, shipping and canning qualities it is excelled by none. Bright scarlet, fine flavor, very smooth and round. We recommend it as a thoroughly reliable main crop tomato. Price same as Kellys Red.

Matchless—Large, solid, smooth, handsome, deep red color, a heavy cropper and popular with canners. Price same as above.

Red Rock—A tomato for main crop. Producing enormous quantities of fine, large, red tomatoes, which carry well, making it a good shipper. Price same as above.

Golden Queen—Bright-yellow, large and solid. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.50.

Yellow Pear and Yellow Plum—Two small-fruited kinds for preserves. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25.

Red Pear—Pear-shaped red. Pkt. 10c; ½ oz. 25c; oz. 40c.

Peach—Very small, pink fruit, with slight peach bloom on skin. Pkt. 10c; ½ oz. 25c; oz. 40c. **TOMATO PLANTS, p. 5.**

Husk or Strawberry—Used for preserves. Pkt. 10c; ½ oz. 30c; 1 oz. 50c.

Red Cherry—Small, grows in clusters, also used for preserving. Price same as above.

I planted watermelons and muskmelons under "Hotkaps" April 30th, and on May 7th they were coming through the ground. We had a severe hailstorm here on May 17th and if it hadn't been for the "Hotkaps" my melons would have been ruined.

Amos Lower,
Williamsport, Ind.

We had a very cold, late spring to do planting of any kind. However, the vines started under "Hotkaps" are as long as a man's arm, vigorous and full of bloom. The transplants are just beginning to vine, and those seeded in the open have not begun to vine.

Mrs. C. M. Handley,
Coshocton, Ohio.

Germāco Hotkaps

INDIVIDUAL HOTHOUSES For Every Plant

"Hotkaps" Furnish Each Young Plant With Complete Protection From Wind, Rain, Frost and Insects. Now Have Hardier Crops That MATURE EARLIER!

Ask us about the interesting new invention, "Hotkaps."

They are individual hothouses for each plant, economically priced, to insure against the crop hazards of frost, rain, wind and insects. They are made of strong, durable, especially prepared waxed paper, light in weight, easy to use, easily ventilated.

"Hotkaps" bring crops to earlier maturity. Many write us that they have been first to market by from one to three weeks, and as a result have been able to get higher prices.

Farmers quickly appreciate them. Once you've tried them, you'll always use them. They afford the best crop insurance, and bring you more profit.

"Hotkaps" are packed 1,000 to the roll.

Prices: 1,000, \$10.00; 5,000 at \$9.75 per 1,000; 10,000 at \$9.50 per 1,000. "Hotkap" Setters, each \$2.50; "Hotkap" Carriers, each \$2.75. Postage extra.

Prices on smaller quantities—100, \$1.50, postpaid.

We pay postage on pkts., ozs., $\frac{1}{4}$ lbs. and 1 lbs.(German—Wasser Melone.
French—Melon d'eau)

WATERMELON

One ounce for thirty hills; four to five
pounds for an acre.

M. & S. Excell Watermelon.

TRY THESE IN YOUR NEXT GARDEN

NEW M. & S. GOLDEN HEART WATERMELON—A decided novelty in Watermelons. Vigorous vines producing an abundance of light green melons, which have delicious yellow meat almost to the rind. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c.

Culture—Watermelons should be planted in hills eight to ten feet apart. Otherwise for culture, see directions for cantaloupes. Do not grow them near pumpkins or gourds.

M. & S. SWEET HEART WATERMELON—The sweetest melon that grows. The best for home use and nearby markets. The dark red meat which extends almost to the rind, is of the most delicious flavor. Vines are strong and vigorous, the melons are medium to large in size. The skin is a very rich, dark green color. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

IRISH GREY—A comparatively new variety that is becoming very popular as a shipping sort. The rind is exceptionally hard and firm. The flesh is bright red, sweet, firm but free from any hard centers or stringiness. A very desirable variety for those who prefer a long, light colored shipping melon. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

M. & S. EXCEL—A new watermelon. Great improvement over Tom Watson. Long green. Excellent for market gardeners and shippers. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

TOM WATSON—Our strain of this wonderful shipping melon has been very much improved in the last few years. It commenced to show white, hard centers, but through careful selecting our strain will produce nothing but melons which are red from the rind to the center, not showing any white streaks. The rind is very tough, making it an excellent melon for shipping long distances. Its flavor and fine qualities also commend it very strongly for the private grower. It is the most popular melon on our list. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

McIver's Wonderful Sugar—Resembles Old Rattlesnake, superior in quality. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Florida Favorite—Large, long, striped, excellent for family garden. Rind thin, but firm; flesh very deep red and very sweet. Splendid shipper. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

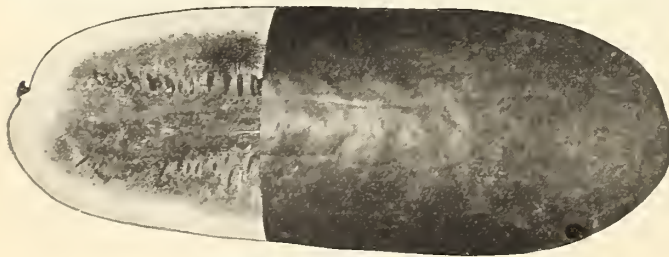

Gray Monarch, or Long White Icing—Very large, long, crimson flesh. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

Indian Chief—Excellent shipper; none better for the private garden. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.00.

Improved Georgia Rattlesnake—The old Rattlesnake has always been regarded as a fine melon. Our strain is the result of careful selection by an experienced melon grower through many years of careful and watchful work. The rind is thin and tough, the flesh deep scarlet, the flavor unsurpassed by any other sort. We strongly recommend it both for shipping and home use. Our improved stock is very much superior to the ordinary Georgia Rattlesnake. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 75c.

IMPROVED KLECKLEY SWEET—Four years ago our grower set out to perfect a new type of this favorite melon, for the reason that the original type began to show some deterioration, and the color of the seed was showing decidedly too much brown smear, melons were not all growing uniform in size, and with the feeling that it is a grower's duty to keep the type of all good melons up to standard he carefully selected and bred this type until we now have a much better melon than the old type Kleckley Sweet; this improved type grows uniformly large, retaining all of the fine qualities as a table melon, with an important added feature of having much harder rind, which assures its satisfactory carrying quality, while the old type will not stand even short distance shipping in carloads. The seed are all creamy white, with no trace of brown, somewhat larger than the old type seed, the color of the rind remain the same—dark bluish green—and grows to much larger size than the old type. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. 90c.

CITRON—Grows uniformly round and smooth, striped and marbled with light green. Flesh white and solid; seeds red. It should be borne in mind that this variety is not used for eating in the raw state, but for preserves, pickles, etc. Pkt. 10c; oz. 15c; 1 lb. 75c.

Improved Kleckley Sweet.

Tom Watson Watermelon.

M. & S. RELIABLE GRASS, FORAGE AND FARM SEEDS

If Grasses Are Wanted by Parcel Post, Allow for Postage. Prices on Grasses Subject to Market Changes.
Write for Samples and Prices in Larger Quantities.

Blue Grass, Fancy Kentucky—(Poa Pratensis)—Our stock of this is extra fine, thoroughly re-cleaned; sow 3 to 5 bushels per acre on lawn, 2½ to 3 bushels on pasture fields (bu. 14 lbs.). Per lb. 45c. Larger quantity on application.

Bermuda Grass—Adapted for seashores, very hardy. 75c lb.

Creeping Bent (Agrostis Stolonifera)—Adapted admirably for lawns, also putting greens, tennis courts, etc.; sow 4

bu. per acre (20 lbs. per bu.). Price, lb. \$1.25.
Crested Dogtail (Cynosurus Cristatus). Excellent as a pasture and lawn grass. Sow 3½ to 4 bu. per acre (21 lbs. per bu.). Price, lb. 65c.

English, or Perennial Rye Grass (Lolium Perenne). (Pacey's Fancy Short Seeded). This makes the quickest returns in growth of any grass; is deep rooted and is readily established. Sow 2½ bushels per acre (20 lbs. per bu.). 30c per lb.

Hard Fescue (Festuca Duriuscula)—A splendid grass for golf links, tennis courts, etc.; will resist droughts. Sow 3 bu. per acre (12 lbs. per bu.). Price, lb. 50c.

Herd, or Red Top Fancy Re-cleaned—(Agrostis Vulgaris). This is one of the best grasses for sowing for immediate effect. Our stock is free from chaff and is absolutely pure. Sow 40 lbs. per acre (32 lbs. per bu.). Price lb. 50c.

Meadow Fescue (Festuca Pratensis)—Sow 40 to 50 lbs. per acre (22 lbs. per bu.). Price, lb. 35c.

Italian Rye (Lolium Italicum)—Very desirable for pasture; being an annual, it comes to maturity the first season; the ideal lawn seed for Southern lawns in winter. Sow 50 lbs. per acre (18 lbs. per bu.). 25c per lb.

Orchard Grass—(Dactylis Glomerata)—For early pasturing this is very desirable; also fine for sowing in shaded places. Sow 40 lbs. per acre (14 lbs. per bu.). Price, 35c per lb.

Red, or Creeping Fescue (Festuca Rubra)—Very valuable for sowing on sandy soil and in shaded places and putting greens, tennis courts, etc. Price on application.

Sheep's Fescue (Festuca Ovina)—This makes an excellent grass for sowing on lawns, fields, or pleasure grounds. Sow 40 lbs. per acre (12 lbs. per bu.). Price on application.

Sudan Grass—A tall annual grass, growing 6 to 8 feet high when drilled, but when sown broadcast thickly does not grow quite so tall. Every farmer and stock raiser should learn about this wonderful grass, as it is eaten by all kinds of stock, and will produce more hay to the acre than any grass that has ever been introduced. Allows 3 to 4 cuttings, and produces 2 to 5 tons per acre, depending upon the soil. Can either be drilled at the rate of 2 to 3 pounds per acre in 3-foot rows or broadcast at the rate of 10 to 20 pounds per acre. Plant from March to August. 20c per lb. Larger quantities, price on application.

Tall Meadow (Avena Elatior)—A valuable lawn and pasture grass. Extremely valuable for use in the South. Sow 5 bu. per acre (10 lbs. per bu.). Price on application.

Timothy (Phleum Pratense)—Sow one-half bu. per acre alone, with clover 1 peck (45 lbs per bu.). 15c per lb. Price varies constantly; ask for quotations.

Broom Corn (Sorghum vulgare)—Succeeds in a good, deep soil, fresh but not damp, very sensitive to cold. Long-brush Evergreen, which is made into Brooms. (Bu. 50 lbs.) 20c lb.

Kafir Corn—Of great drought-resisting quality. Can be sown as late as July; 10 lbs. to the acre in drills (bu. 56 lbs.). 10c lb.

Cow Peas (Vigna Catjang)—Valuable in this latitude as a fodder plant; their chief value, however, is as a green crop to plow under. The seed should not be sown till the ground has become warm. Sow 2 bu. per acre broadcast; 1 bu. in drills. We offer Black Whipperwill, Gray, New Era, Black Eye and other leading varieties, also mixed. Price on application.

Inoculate all Clovers, Cow Peas, Vetch and Soja Beans with

Farmogerm, Humogerm or Mulford's Culture

For particulars see page 29.

erous. Sow 40 to 50 lbs. broadcast to the acre (bu. 50 lbs.). 10c per lb.

M. & S. Permanent Pasture Mixture makes a nutritious food for cattle.

M. & S. Permanent Pasture Mixture, either for Low or Up Lands. It is made up of the grasses best calculated to afford an abundant and nutritious food supply for stock. The formulas are based upon successful experience. For all ordinary permanent-pasturage, they will be found entirely satisfactory. When ordering state if for a low or up land, price of either lb. 35c; 10 lbs. or over at 30c; \$3.40 per bushel of 30 lbs.

Rhode Island Bent—For sowing at seashore resorts, on putting greens, tennis courts, etc. (14 lbs. per bu.). Price lb. \$1.25.

Japanese Buckwheat—In the locality of Baltimore this is sown anywhere from June 1st to July 15th; one bushel of 48 lbs. broadcast to the acre. 15c per qt.; pk. 75c.

Soja Bean (Glycine hispida)—Mammoth Yellow, Brown and Black, Pekin, Sable and Wilson Blacks—All thrive well in our climate. Valuable for the South. Does not make good hay, but is good for ensilage or green fodder. Sow 1½ bu. per acre alone, or ½ bu. soja beans with 1 bu. cow peas. Yields as high as 20 tons of green feed per acre. Market prices.

Clover Seeds

Write for Samples and Prices in Larger Quantities.

Prices Subject to Market Fluctuation.

Alfalfa, or Lucerne (Medicago sativa)—Requires deep, rich, well-drained soil. Roots very deeply, the tap-root descending often to a depth of 10 or 15 feet in loose soil. It is, consequently, capable of resisting great droughts. It should be sown alone (about the same time as oats are sown in this section) in thoroughly prepared, deeply plowed soil, at the rate of 20 to 25 pounds to the acre. It is also successfully sown as late as August and up to the middle of September. The crop should be cut when the plant is coming into bloom. In suitable soil it is perennial, and several crops may be cut every year. Height, one to three feet. We handle home as well as foreign grown alfalfa. 35c per lb. Large quantity price on application.

Alsike, or Hybrid Clover (Trifolium hybridum)—A perennial, one to three feet high; grows well in our locality and can withstand severe cold. A good honey plant for bees. Fifteen lbs. to the acre. Lb. 35c.

Red Clover (Trifolium pratense)—One of the most valuable farm crops for pasture, hay, or for turning under for green manure. It requires a deep, rich soil and yields two hay crops in the season. Sow at the rate of 15 pounds to the acre. Lb. 40c.

Mammoth Red, or Sapling Clover—Grows larger and lasts longer than the common red clover; valuable for plowing under. Ten pounds to the acre. Lb. 40c.

Crimson, or German Clover (Trifolium incarnatum)—Erect annual, one to two feet high, with bright-scarlet flowers. It is largely grown for improving the soil by turning under. It is a valuable crop for pasture or green manure. For hay it should be cut when in full bloom. Sow 20 pounds to the acre. Lb. 20c.

White Sweet Clover (Melilotus Alba or Bokhara)—Valuable sort for soiling and for ensilage and bees. Grows from 3 to 5 feet high; sown in rich soil; may be cut three times; lasts for years if cut before flowering. Lb. 25c.

White Clover (Trifolium repens)—It makes an excellent turf that stands constant trampling. It is of dwarf habit, spreads rapidly and is very hardy. It is valuable in lawns and permanent pastures, being sweet and nutritious. Sow in Spring. In mixtures, one or two pounds; if alone eight or ten pounds to the acre. ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c.

Soja Beans.

If field seeds are wanted by parcel post, postage must be added to the price of seed.

Cow Peas

M. & S. SELECTED FORAGE AND FARM SEEDS (Continued)

Peas (Canadian Field) — Valuable for cattle feeding, especially for milch cows. It also makes fine ensilage. It is sown broadcast in the spring and harrowed in. If sown with oats, about 1½ bushels to the acre; in drills, two bushels to the acre (bu. 60 lbs.). Market prices.

Rape — Dwarf Essex English (Brassica napus) — Is excellent for sheep and hog pasture, and chicken yards, also for soil-ing. It may be sown in May, and will be ready for pasturing in July and August. Or it may be sown in June or July, and yet furnish a large amount of pasture or fodder. In drills, sow five lbs. to the acre; sown broadcast, ten pounds to the acre. Lb. 15c.

Sorghum, or Sugar Cane

Ideal cattle food. Sow 1 or 2 bu. broadcast; 25 lbs. to the acre in drills. (Bu. 50 lbs.)

Early Amber—Grows 10 to 13 feet high. Fine for cows, either green or cured. Lb. 10c.

Early Orange—Ripens about 10 days after Early Amber, and is said to produce a larger crop. Lb. 10c.

Sunflower—Large Russian—Lb. 15c.

Vetch, Spring and Winter

Sand, Winter, or Hairy Vetch (Vicia villosa)—Thrives on poor, arid, sandy soils. It may be sown either in Fall or in Spring, mixed with rye, for a support. Grows three to four feet high and can be cut as soon as the bloom appears, and again for the seed. Perfectly hardy. Sow 50 pounds to the acre. Price variable. Lb. 25c.

Spring Vetch—Same as above, but not hardy; sow in Spring only. Lb. 15c.

Winter Barley

48 lbs. per bu. 96 to 110 lbs. per acre.

One of the most productive Fall seeded grain crops grown. Being planted more extensively each year. Provides an abundance of highly nutritious forage, hogs, sheep, cattle, etc., being especially fond of it. Grown in this section largely for grain. Yields 25 to 50 bushels per acre. Invariably brings good market price. Sow 1 to 1½ bushels per acre broadcast.

Prices on Application.

Contemplating an Early Harvest.

Quotation on all kinds of Field Seed in larger quantities furnished on request.

Mulford Culture and Farmogerm Nitrogen-Fixing Bacteria for All Kinds of Clover—Means bigger crops, healthier growth, early and more continuous crops. Special reduced prices this season. It will pay you to use this when you plant peas and beans. For particulars see page 29.

Oats

Appler, Virginia Gray and other best varieties for Fall and Spring sowing. 32 lbs. per bu. Sow 64 to 90 lbs. per acre. Prices on Application.

Seed Rye

The most popular Fall seeded forage and fertilizing crop grown. Furnishes excellent green food for poultry, hogs and live stock of all kinds. Keeps stock healthy and saves expensive commercial dry feeds. Hogs on rye pasture will make the same gains with half the amount of grain feed. Sow 1 to 1½ bu. per acre broadcast.

Rosen and other varieties. Sow 1½ bu. to the acre from July to November. 56 lbs. per bu. Sow 85 to 100 lbs. per acre. Prices on Application.

Seed Wheat

Bearded and Beardless varieties. 60 lbs. per bu. Sow 90 to 100 lbs. per acre.

Prices on Application.

Field Corn

8 quarts to the acre. Prices Subject to Change Without Notice.

Prices on Field Corn does not include postage.

Collier's Success—The ears are of immense size, 12 to 14 inches long, 8 to 10 inches in circumference, carrying 20 to 24 uniform rows of large yellow kernels, well developed over tip and butt. It is a luxuriant grower, about 12 to 15 feet high. Matures in 100 days. Makes a splendid ensilage corn, making two ears on many stalks. Qt. 25c; ¼ pk. 40c; peck \$1.00; bu. \$3.50.

Yellow Leaming—We have a very choice strain of this early, drought-resisting variety. It makes a fair-size ear, with deep, well-shaped grains, and will mature in 100 days. Qt. 25c; ¼ pk. 40c; pk. \$1.00; bu. \$3.50.

Golden Beauty—Large, broad-grained, yellow corn. Ears are well filled out. A heavy yielder. Qt. 25c; ¼ pk. 40c; pk. \$1.00; bu. \$3.50.

Maryland Yellow Dent—Large ear; moderate size stalk; withstands drought well. Qt. 25c; ¼ pk. 40c; pk. \$1.00; bu. \$3.50.

Hickory King—A very broad-grained white corn that does well on light ground. A good corn for the South. Very small cob. Generally two ears to the stalk and occasionally three. Qt. 25c; ¼ pk. 40c; peck \$1.25; bu. \$4.50.

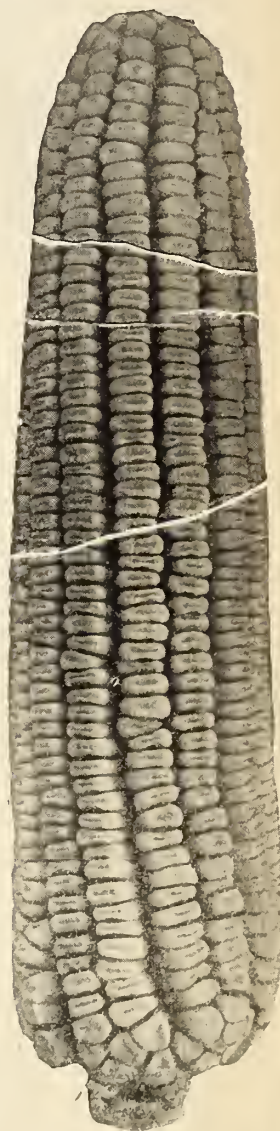

Boone County White—Recommended by the Agricultural Experimental Stations. A fine, large deep-grained variety, originated by one of the best corn breeders. Qt. 25c; ¼ pk. 40c; peck \$1.00; bu. \$3.50.

Collier's Excelsior—White corn, especially adapted for hominy corn on account of its flintiness. Great producer on poor soil. Qt. 25c; ¼ pk. 40c; peck \$1.00; bu. \$3.50.

M. & S. White Ensilage Corn—Very prolific, tall grower. Qt. 25c; ¼ pk. 40c; peck \$1.25; bu. \$4.50.

Red Cob 90-Day Corn—A valuable corn for the truck farmer, as it readily sells for sugar corn on account of its similarity, showing long blades on the ears; very delicious when young. Qt. 25c; 2 qts. 40c; pk. \$1.25; bus. \$4.25.

WHITE RICE POP CORN—The best pop corn known. Pops large, flaky and white as snow. Quart 25c.

Mulford Cultures

FOR LEGUMES

Legume crops, properly inoculated with nitrogen-fixing bacteria, add both humus and nitrogen to the soil and should be included in every crop-rotation program.

Inoculate all your legume crops with **Mulford Culture Concentrates**. Especially recommended because they contain enormous numbers of active, vigorous nitrogen-fixing bacteria, grown from pure, tested strains.

Mulford Culture Concentrates are prepared with the utmost scientific care and skill. Economical. Easy to use. The sealed bottle insures purity.

They offer you the most economical and satisfactory method of adding nitrogen to your soil.

Always specify on your Order what crop you want to inoculate.

FREE DESCRIPTIVE FOLDER SENT UPON REQUEST

Roots like this mean bigger yield, better soil.

SEED INOCULATION

THE BEST INOCULATION CULTURES FOR ACCUMULATING NITROGEN

Means Better Crops, Better Soils, Less Fertilizer Expense

Seeds of all legumes—clover, alfalfa, sweet clovers, soy beans, vetches, etc.—will yield far better returns if inoculated before planting, and in addition leave in the soil heavy deposits of valuable nitrogen which benefits all succeeding crops. It is crop insurance at very low cost, and the results will repay the small effort involved beyond your expectations..

These scientifically bred cultures are far superior to the natural germs in the soil and therefore inoculation is preferable to uncertain and laborious soil transfer.

JELLY MEDIUM

Scientifically selected bacteria on nitrogen-free jelly medium in bottles with exclusive patented ventilating stopper insuring purity.

HUMUS MEDIUM

Scientifically selected bacteria on finely pulverized, porous humus medium in ventilated cans with friction top. If planting more than bushel per acre, the one-bushel size contains sufficient inoculation for any amount of seed to be planted on one acre.

M. & S. FLOWER SEED DEPARTMENT

All Flower Seeds 10c pkt. unless otherwise noted.
August 1st we issue a Fall Catalogue on Spring Flowering Bulbs, etc. Write or send for it.

Simple Branching Aster.
All pkt. of Seed 10c unless otherwise noted.

Annuals. These grow and bloom, mature their seed, then die in the same year, such as Asters, Balsams, Poppies, Sweet Peas, Morning Glories, etc., some of which may be sown in the house from March to May, or outdoors after danger from frost is over.

Biennials. These grow from seed sown during mid-summer, flowering the second year, after which they die; many of the varieties bloom the first season if sown early. In this class we have Pansies, English Daisies, Campanula Medium, Dianthus, etc.

Perennials. Those which live from year to year, such as Aquilegia, Delphinium, Foxglove, etc. Seed may be sown outdoors from June to September and transplanted late in fall into their permanent quarters, and protected during winter with a light litter of straw or leaves. The hardy perennials not usually needing any protection after the first winter; the half-hardy perennials require protection during the winter, and the tender perennials during the winter require greenhouse protection.

1. **Anchusia** (Italica Drapmore) (p), 3 to 5 feet high. Blooms May and June, rich gentian blue.

1a. **Aconitum** (p) (Monks Hood).

1b. **Alysum Yellow** (p), Basket of Gold

1c. **Asparagus Plumosis** (a). 25 seeds 25c; 100, 75c.

2. **Ageratum** (a) (Floss Flower)—An excellent plant for edging or solid effects. A continuous bloomer. Imperial Dwarf Blue, Imperial Dwarf White or mixed. Oz. 75c.

3. **Alyssum** (a) (Carpet of Snow)—One of the most popular garden flowers; in bloom all season. Used for edging or in rockeries or vases. Oz. 75c.

4. **Amaranthus** (a)—Decorative Foliage plants. Caudatus (Love Lies Bleeding) drooping crimson racemes. Tri-color Splendens (Joseph's Coat), leaves red, yellow and green.

4a. **Arabis** (p)—Rock Cress. Early spring flowering plants especially adapted for edging and rockery, 6" high, pure white blossom, flowers in May.

Antirrhinum or Snapdragon

Alyssum

5. **Antirrhinum** (p) (Snapdragon)—A splendid plant for beds or borders and one of our choicest cut flowers. To have flowers early, sow indoors during February and March. Empress, crimson; Fawn, pink suffused yellow; Golden Queen, yellow; Purity, white; Silver Pink, pink self and all colors mixed—oz. \$1.00.

M. & S. SUPERB ASTERS

To our minds there is no other flower which combines so much beauty with grace and usefulness. In bloom from July till frost. To have early flowers sow indoors from March till May, otherwise sow outdoors. Asters require well-pulverized soil.

Our flower seeds have a reputation for their superior quality and for the excellent results obtained by sowing them. It is our constant endeavor to supply only such varieties and strains that will give the best of satisfaction.

Throughout the following pages of Flower Seeds the different varieties are designated as Annuals, Biennials, Perennials, etc., and for the benefit of those who are not familiar with these terms, we wish to make the following explanation:

Usurion Plumed Aster.

10. **Aster, Queen of the Market**—Very early: White, pink, lavender, scarlet, dark blue and choice mixed. Oz. \$1.50.

American Beauty Aster.

11. **Perennial Aster** (Michaelmas Daisy).

12. **Balloon Vine** (a) (Love in a Puff)—A rapid growing annual climber. Seed pods look like miniature balloons.

13. **Balsam** (a) (Lady's Slipper)—An old-fashioned flower. With plenty of room they will develop to immense plants with gorgeous flowers.

14. **Balsam Apple** (a) (Momordica)—Handsome climbing annual, bearing ornamental orange colored fruit.

14a. **Begonia** (a)—Invaluable for bedding and pot culture; about one foot high, beautiful foliage pink, white and crimson mixed.

14b. **Brachycome** (Swan River Daisy)—A desirable hardy annual, blooming profusely the greater part of the summer; small blue flowers resembling those of the Cineraria; 9 inches.

Gentlemen:

Permit me to express appreciation for the wonderful results obtained in the planting of asters and snapdragons from your seeds

I was very late in planting, but the wonderful shades of the snapdragons especially have brought forth unstinted praise from friends and neighbors.

Gratefully yours,
BERNARD W. CLEMENTS,
3007 Tyndale Avenue.

All Flower Seeds, 10c pkt., unless otherwise noted.

15. **Calendula** (a) (Pot Marigold)—Free flowering, in bloom from early summer till frost. They may also be successfully grown indoors. Lemon, Queen, Meteor, Orange King and mixed. **Oz. 40c.**

Halls Strain—Oz. \$1.50.
California Poppy—(See Eschscholtzia)
16. **Calloopsis** (a)—A very showy annual in bloom from early summer till frost. Lemon, yellow with dark brown centers, rich crimson and mixed. **Oz. 50c.**

17. **Campanula Media** (p) (Canterbury Bell)—These are strictly biennials and require the following cultural directions: Sow from June 1st till September 1st; when strong enough transplant to a distance of six inches apart, after frost has set in protect with leaves and straw. They flower the following June, after which they die. Their colors are so pure that gorgeous effects can be achieved with them. Single blue, pink, white or mixed. **Oz. 75c.**

18. **Canary Bird Vine** (a)—One of the most charming annual climbers, bearing hundreds of pretty, fringed bright yellow flowers, which resemble a canary bird with expanded wings. **Oz. 35c.**

18a. **Candytuft** (a)—Dwarf, profuse flowers, of easy culture; useful for bedding and borders. Pink, rose, white and choice mixed. **Oz. 40c.**

18b. **Candytuft Perennial—Iberis**. (p) White and lilac, $\frac{1}{4}$ oz. **80c.**
19. **Canna** (a)—(Indian Shot)—Although these are generally planted from roots, they may be grown from seeds. **Oz. 30c.**
Canterbury Bell—See *Campanula*.

19a. **Carnation** (a) *Marguerite*. These are the most satisfactory of the annual pinks, and will bloom in four months after sowing the seed. The flowers are large, fragrant and are produced continuously. If slightly protected the first winter they will revive the following spring and bloom during that whole season. **Oz. \$1.00.**

19b. **Cardinal Climber** (a) (*Ipomea Quamoclit Hybrida*)—One of the finest annual climbers known today. Very graceful and beautiful, growing rapidly, and in a warm, sunny location with good soil, it reaches often a height of 20 feet; it is densely clothed with palm-like, rich green leaves, bespangled with clusters of fiery scarlet, tubular spear-shaped flowers, measuring about $1\frac{1}{4}$ inches across.

20. **Centaurea** (a) (*Centaurea Cyanus*, Cornflower)—Also known as Blue Bottle, Ragged Robin, Bachelor's Button. An old favorite garden annual.

Double blue, purple, pink, white and mixed. **Oz. 40c.**

21. **Centaurea Imperialis**, or **Sweet Sultan**—Gigantic, beautiful, sweet-scented flowers, borne on long stems. Mixed. **Oz. \$1.00.**
22. **Centaurea, White Leaved** (*Dusty Miller*)—Grown for their silver foliage; fine for edging and hanging baskets. $\frac{1}{4}$ oz. **30c.**

22a. **Cerastium** (a) (*Snow in Summer*)—Dwarf, white-leaved edging plant; flowers white. **Oz. 40c.**

22b. **Chrysanthemum** (a)—Garden varieties. Double, white pearl, yellow and mixed.

23. **Cineraria**—One of the most ornamental and useful plants for conservatory and house decorations. Mixture, **80c and \$1.00.**

23a. **Clarkia** (a)—One of the prettiest and showiest hardy annuals. The plants bloom so freely and have flowers of such various bright colors that a bed of them in full bloom is a beautiful sight. They are useful, too, for hanging baskets, for vases and as edging plants. Sow outdoors in early Spring and grow in partial shade. They bloom through midsummer to late autumn. Average height, $1\frac{1}{2}$ feet.

Candytuft

Cornflower, or Bachelor's Button

Cardinal Climber

Castor Bean—See *Ricinus*.

24. **Celosia Cristata** (a) (*Creste Cockscomb*)—Very desirable annual of easy culture large comb-like heads, excellent border plants, very good for pots. Mixed **Oz. \$1.00.**

24a. **Celosia Plumosa** (a) (*Feathered Cockscomb*)—Very decorative plant for the garden. The feather plumes are excellent for cutting. Can also be cut and dried for winter use. Mixed colors. **Oz. 60c.**

25. **Cobea Scandens** (a) (*Cup and Saucer Vine*)—Well-known climber of rapid growth producing large bell-shaped blossoms; in sowing place the seeds edgewise, and merely cover with light soil.
25a. **Coreopsis** (*Lanceolata Grandiflora*)—A hardy perennial bearing a profuse and long-continued succession of large, bold, golden yellow flowers during the whole summer months. Seed sown in March will flower the same season. Height, $2\frac{1}{2}$ feet.
25b. **Coleus** (a)—**Large Leaved Hybrids**—Popular bedding plant with beautifully colored foliage; easily grown from seed if kept in warm temperature.

Convolvulus—See Japanese Morning Glory.

26. **Columbine**, or **Aquilegia** (p)—A most desirable border plant. It forms large clumps, blooms early, long and abundantly, is useful for cutting and elegant in habit. Sow seed in the open ground in Spring, preferably where the plants are to grow, and thin to about a foot apart. Sow in the Fall for flowering the following season. They thrive well under ordinary garden culture. Few hardy perennials are so easily grown from seed, and will give such unalloyed satisfaction. White, yellow, blue and violet, scarlet and yellow and mixed. **Oz. 90c.**

Columbine

Pearl of Zehlendorf—Salmon pink. **Rose of Zehlendorf**—Rose
Rose of Marienthal—Bright pink. **Glowing Red**—Finest red. **Pkt. 50c; 100 seeds \$1.50.**

28. **Cosmos** (a) (*Lady Lennox*)—Giant flowering. An autumn flowering plant. A charming profuse bloomer. Crimson, pink, white and all colors mixed. **Oz. 50c.**

28a. **Cosmos Klondyke** (a)—Same as above, but a clear orange yellow. **Pkt. 10c; oz. \$1.00.**

29. **Early Summer-flowering Cosmos** (a)—Coming into flower in July, continuing until frost. Can be grown in the North where the seasons are too short for other strains. Dwarf, compact growth; 4 feet. Flowers beautiful and large; petals broad; crimson, pink, white and all colors mixed; profuse bloomer. **Oz. 50c.**

29a. **Double-crested Cosmos** (a)—Extra early flowering. This is an entirely new class of cosmos, producing double-crested flowers of exceptional beauty. The grower does not claim that all plants have double flowers, but the fields show about 50 per cent; but the ones that do not show double are dreams of beauty. Pink, white, crimson and mixed. Seed scarce.

30. **Cypress Vine** (a) (*Ipomea Quamoclit*)—A very graceful annual climber, with feathery foliage and beautiful star-like flowers. Scarlet, white, mixed. **Oz. 50c.**

Dahlias (a) (from seed)—There is no more fascinating flower to raise from seed than the dahlia, for the result is a series of surprises. Seed should be started in the house from February till May and the young plants should not be set outdoors until danger from frost is past. Cactus single and double flowering varieties.

31. **Dahlia**—Single mixed.

32. **Dahlia**—Double mixed.

32a. **Dahlia**—Cactus mixed.

33. **Daisy** (p), **English Double** (*Bellis Perennis*)—Seed should be sown from June 1st till September, transplanted in the Fall, and they will flower the following Spring. If sown in the Spring they will flower in the Autumn; 4 inches; white, pink, crimson and mixed.

33a. **Shasta Daisy** (p)—Very large; white single flowers on long stems.

34. **Dianthus** (p), **China Pink**—One of the most popular flowers in cultivation; blooms profusely. Great variety of colors. Extra choice. Single mixed, double mixed, pure white, pink and crimson. **Oz. 60c.**

Crested Cockscomb

All Pkt. Seeds 10c
unless otherwise noted.

35. Delphinium (p) (Hardy Perennial Larkspur) — Highly prepossessing plants of stately appearance; of easiest culture, they are readily the most popular of all hardy plants. Their main season of bloom is in June, but if the flowerspike is cut back promptly it will branch and flower all through Fall. **Formosum:** Deep Blue. **Belladonna:** Light Blue. **Oz. \$3.50.** White, **oz. \$1.25.** Deep Scarlet. **Oz. \$2.00.** **M. & S. Giant:** Mixed. **\$1.00 per oz.**

36. Dimorphothea (a) (Golden Orange Daisy)—One of the showiest garden plants of recent introduction; fairly compact, bushy plants are literally covered with brilliant orange-gold, daisy-like blooms, on fairly long stems during the entire season; excellent for cutting.

Hyacinth Bean—Most Ornamental Climber.

37. Didiscus—Lace Flower—This pretty and interesting annual blooms most profusely from July till November; their exquisite pale lavender blossoms are excellent for cutting; plants grow about 18 inches high, and have as many as 50 flowers open at one time.

37a. Digitalis (p) (Foxglove)—Handsome ornamental hardy plants of stately growth, succeeding almost anywhere. Produces long spikes of beautiful, tubular-shaped flowers; 4 to 5 feet. Purple, rose, white, spotted mixed and all colors mixed. **Oz. \$1.00.**

38. Dolichos (a) (Hyacinth Bean, or Texas Climber)—Showy climber, making rapid growth. White, purple, mixed. **Oz. 25c.**

39. Eschscholtzia (a) (California Poppy)—An elegant hardy annual with fine cut foliage and large poppy-like flowers; blooms from June till frost; fine for borders or large beds. Yellow and choice mixed. **Oz. 40c.**

40. Euphorbia (a)—Plants with ornamental foliage, very showy and easily raised from seed. Known as "Snow on the Mountain." **Oz. 60c.**

40a. Echinops (p) **Globe Thistle**—Excellent background for perennial border; blue; 6 feet.

Forget-Me-Not—See *Myosotis*.

Four o'Clock—See *Marvel of Peru*.

Foxglove—See *Digitalis*.

Gaillardia

41. Gaillardia (a) (Blanket Flower)—One of the best garden flowers, excellent for cutting. The large highly-colored, daisy-like flowers appear continually during the season. **Oz. 60c.**

41a. Gaillardia (p). If sown early will bloom first season. Mixed colors. **Oz. 90c.**

42. Godetia (a) (Satin Flower)—Beautiful and easily grown, producing a profusion of flowers, satiny texture.

43 and 44. Gourds (a)—Dish-cloth or Luffa—Nest Egg, Hercules Club, Pear Shape, Mock Orange, Sugar Trough, Calabash, or Pipe Gourd, Thermos Bottle, Chinese Lantern, and a general mixture; rapid climbers. **Each, Oz. 40c.** State kind wanted.

45. Gypsophila (a) (Baby's Breath)—Pretty, free-flowering plants of easy culture; excellent for cutting to mix with other flowers. White and carmine. 2 feet. **Oz. 50c.**

45a. Gypsophila (p)—*Paniculata alba*. White. **Oz. 75c.** **Helianthus**—See *Sunflower*.

46. Heliotrope (a)—A well known and highly prized plant on account of the delightful fragrance of the flower. Excellent for pots or beds. **Pkt. 10c and 25c.**

47. Helichrysum (a) (Strawflower)—One of the best and most popular of the everlasting flowers. Valuable for cutting or decoration, either when fresh or dried. Mixed colors. **Oz. 50c.**

48. Humulus (a) (Japanese Hop)—A rapid growing annual climber with luxuriant foliage; excellent for covering trellises and verandas. **Oz. 50c.**

48a. Hibiscus (p) (Mallow) — These bear very showy flowers, are easily grown and should find a place in every garden. Mixed colors, white, pink and red; and Golden yellow. **Sunset;** height, 4 ft.

Hollyhock (p) — One of the most popular and desirable of hardy perennials. Excellent for planting among shrubbery or fringing a background for other flowers; 6 to 7 feet.

49. Chater's Improved Double Hollyhock in separate colors: Rose white, salmon, maroon, yellow, Newport pink, crimson and mixed colors. **Oz. \$1.25.**

49a. Hollyhock Single—Choice colors mixed. **Oz. \$1.25.**

49b. Helopsis (p) (Orange Sunflower) (*Pitcheriana*)—A handsome hardy perennial; producing an abundance of deep orange yellow flowers the entire Summer; excellent for cutting; 3 to 4 feet.

Helichrysum or Strawflower

49c. Hunnemannia (a) (Giant Yellow Tulip Poppy) — Sown outdoors in May it produces large quantities of giant yellow tulip-like flowers during end of August, continuing for the balance of the season; the foliage resembles *Eschscholtzia*; height, 2 feet.

Hyacinth Bean—See *Dolichos*.

Ipomoea—See *Moonflower*.

49d. Ice Plant (a)—Beautiful dwarf edging plants; flowers profusely in dry and sunny situations. Fine for pots. Covered with watery vesicles resembling pieces of ice.

50. Job's Tears (a)—Seeds are used for stringing instead of beads. **Oz. 50c.**

51. Kochia (a) (Summer Cypress, or Mexican Fire Bush)—An easily grown annual, which grows into a cypress-like hedge, with feathery green foliage; at the approach of Autumn the foliage turns to a deep red color; 2 to 3 feet. **Oz. 40c.**

Lace Flower—See *Didiscus*.

52. Kudzu Vine (p) (*Puevaria Thunbergiana*)—The Kudzu vine comes from Japan, the land so productive of curious and ornamental flowers. It is a beautiful climber, remarkable for its great vigor of growth and its handsome purple flowers. The vine is extremely rapid and dense in growth, perfectly hardy, increasing in size and beauty year after year; fine for arbors, verandas, etc.

52a. Lantana (a)—Most desirable bedding plant; seeds are best germinated in a greenhouse from January till March. Flowers resemble *Verbenas*; plants bloom all Summer. Mixed. **Oz. 50c.**

Larkspur—See page 33.

53. Lathyrus Latifolius Perennial Sweet Pea—Showy hardy climber, fine for covering walls and stumps. Free flowering. Pink, red, white pearl and mixed colors. **Oz. 60c.**

54. Lupinus (a)—Very desirable garden plants, showy, excellent for cutting. Graceful spikes 2 feet long in various shades of white, blue, pink and yellow mixed. **Oz. 60c.**

55. Lupinus (p)—Mixed colors.

Marigold (a) — These are old favorite free flowering annuals with rich showy flowers blooming all summer. The tall African varieties are best for garden and cutting, while the dwarf French varieties are best suited for edging and bedding purposes. In colors and mixed.

56. Marigold, French—Legion of Honor, single brown and yellow; Golden Ball, double golden yellow, dark and all colors mixed. **Pkt. 10c; oz. 60c.**

57. Marigold, African—Lemon Queen, Orange Prince and mixed colors. **Pkt. 10c; oz. 75c.**

Marigold

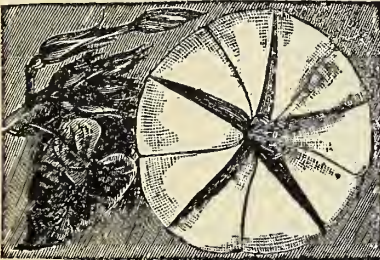

Marvel of Peru

Mignonette (a)—Valuable for cutting on account of its fragrance. Sow in succession during the whole Summer; may also be forced in greenhouses during Winter.

60. Golden Machett—Large reddish tinted, sweet scented flowers. Oz. 75c.

60b. Mimulus (a) (Tigrinus)—Showy, profuse flowering plants; fine for greenhouses or moist, shady situations; 1 ft.

Momordica—See Balsam Apple.

Moon Flower.

62. Imperial Japanese Morning Glories (a)—These are beyond question the handsomest of all Morning Glories. Of the easiest culture, can be sown in the open ground in a sunny situation when the weather has become warm and settled; they soon

58. Larkspur (annual)—Splendid annuals of easy culture. When sown early in spring will produce blooming plants in July. Graceful, fern-like foliage and slender spikes. Fine for cutting and garden decorations. White, Blue, Pink and all colors mixed. Oz. 75c.

Larkspur (perennial)—See Delphinium.

Lily of the Valley—We furnish strong clumps for 30c.

58a. Lobelia (a)—No garden is complete without an edging of blue lobelias. Very desirable for pots and hanging baskets. Crystal Palace.

59. Marvel of Peru (a) (Four o'clock)—Bushy plants of easy culture, producing hundreds of flowers during the entire Summer; very showy; 2 feet. Oz. 30c.

Mignonette

61. Moon Flower (a) (Ipomoea Noctiflora) Climber. At night and during dull days the plants are covered with an abundance of large, pure white fragrant flowers. Oz. 75c.

cover a large area, and even before flowering are decidedly interesting on account of the varied forms of the foliage and their markings. The flowers are of gigantic size and their colorings beyond description; the self or solid colors range from snow-white to black-purple, with all the possible intermediate shades; there is also an endless number having flowers spotted, marbled, striped, flaked, splashed, etc. Oz. 25c.

63. Double-Flowering Morning Glories

(a)—These beautiful climbing annuals are of very rapid and luxuriant growth; the flowers will come double, semi-double and a few, perhaps, single. The colors vary; there are various shades of blue, white spotted with red, white marbled with purple and lavender, crimson, pure white, etc. Mixed colors. Oz. \$1.00.

64. Fancy Fringed Morning Glories (a)

—The perfection of morning Glories. Immense flowers, often as big as saucers, all wavy, ruffled and fluted from throat to margin, like crumpled velvet. They are simply magnificent. Mixed colors. Oz. 50c.

Mourning Bride—See Scabiosa.

65. Myosotis (Forget-Me-Not)—Beautiful, half hardy perennials, blooming the first year.

Nasturtium—See below.

65a. Nicotiana (a)—Splendid showy flowers on long terminal tubes. It is so fragrant that a small bed will perfume the surrounding atmosphere. Mixed colors and pure white and purple.

66. Oenothera (a) (Evening Primrose)—Beautiful low-growing plant, producing large, silvery white rose and yellow flowers. They thrive best in a sunny position, but succeed in almost any situation or soil. Annual varieties, all colors; mixed.

66a. Passion Flower (p) (Southern Beauty)—Climber mixed. Called "Passion Flower" on account of a resemblance in the flower to the appearance presented at Calvary.

Use our **High-Grade Sheep and Cattle Manure** extensively in your flower garden and be repaid by best results. We can sell you a cart load in a 100 lb. bag. (See cover page for price.)

Morning Glory

Gentlemen;

We surely were pleased with the seeds last year. I had the loveliest Straw-Flowers I have ever seen; some of the "trees" the children called them, were 5 ft. high and blooms as large as a silver half dollar. My snapdragons were also very beautiful. Mrs. Irene Jessop, 315 Caton Ave.

M. & S. GIANT FLOWERING NASTURTIIUMS

Nasturtiums are among the best known and most popular of hardy annuals, and within the past few years have been greatly improved in size as well as in colors and markings. Easily grown, and producing a great profusion of brightly colored flowers from within a few weeks after they are sown until they are killed by frost; they succeed best in rather light, well-drained soil.

M. & S. Dwarf-Named Nasturtiums

67. Vesuvius (Salmon Rose)—These have a neat, compact habit and attractive foliage, are not disturbed by insects, bloom in two months from sowing, and most profusely the whole season.

68. Chameleon—Produces various colors and markings on the same plant.

69. Empress of India—Dark-leaved velvety dark scarlet flowers; select flowers.

70. Spotted King, or Ladybird—Rich yellow, scarlet-spotted flowers, dark-leaved; splendid.

71. Queen of Tom Thumbs—Variegated foliage; choicest mixture.

72. Golden Queen—Yellow-leaved, with golden yellow flowers.

Prices on all the varieties as follows: Pkt. 10c; oz. 20c; ¼ lb. 60c.

Our Nasturtiums are noted for their size, variety and brilliancy.

M. & S. Fancy Giant Flowering Mixed Dwarf—Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00.

M. & S. Tall or Climbing Nasturtiums

—For covering trellises, fences, arbors, piazzas, or trailing from vases, urns, etc. Bloom from early Summer until frost. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. \$1.00.

M. & S. Giant Flowering Dwarf Nasturtiums

M. & S. Tall or Climbing Nasturtiums

M. & S. PERFECT PANSIES

M. & S. Triumph of the Giant Pansy

lowing spring. Pansies thrive best in moist semi-shade situations.
73a. Masterpiece (Frilled Pansy)—Flowers beautifully curled brilliancy and richness of coloring, including many new and rare shades. Pkt. 25c; 5 pkts. \$1.00; oz. \$6.00.
73a. Masterpiece (Frilled Pansy)—Flowers beautifully curled or waved. Exquisite colors. Pkt. 25c; 5 pkts. \$1.00.
74. Steele's Special Greenhouse Mixture—Equally good for outdoor. Pkt. 25c; 5 pkts. \$1.00; oz. \$6.00.
74a. Tufted Pansies or Violas—While the flowers of the Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time. Seed sown in April produces flowering plants by June, and from then on until frost they are a sheet of bloom. All colors Mixed and Blue. Oz. \$2.50.

M. & S. Giant Exhibition Pansies

74b. M. & S. GIANT EXHIBITION PANSIES—A blending of our own, containing only the very choicest the specialists in Europe have to offer; it can be relied upon to produce flowers of immense size, very heavy texture and of the most brilliant colors. Per oz. \$3.00.

75 M. & S. GIANT PANSIES—In separate colors.

Mention number and variety wanted when ordering.
Lord Beaconfield—Purple, violet and white.
Snow Queen—Pure white.
Emperor William—Indigo blue black, blotched.
Canary Bird—Pure yellow.
King of the Blacks—Lustrous jet black.
Lord Baltimore—Yellow maroon blotches.
May Queen—White with violet blotches.
 All the above: \$2.50 per oz.

All Flower Seeds 10c Pkt. Unless Otherwise Noted.

Poppies

ALL FLOWER SEEDS 10 CTS. PER PKG. UNLESS OTHERWISE NOTED

A great advance has been made in recent years in the development of the Poppy which has brought it into deserved popularity, and it may be safely said that no other flower produces a more brilliant display of color during the blooming period. Annual Poppies should be sown as early in the Spring as possible where they are to remain, as they do not stand transplanting. If constant blossoms are desired, successive sowings should be made every two weeks.

76. Orientale Poppies (p)—Enormous flowers of deep, flashing scarlet, entirely hardy anywhere, and mixed; 3 feet.

76a. "Mikado" (a)—Double the Striped Japanese Poppy—This beautiful Poppy is very distinct in character and color. The flowers are brilliant scarlet and white, with elegantly curved petals, like a Japanese Chrysanthemum.

77. American Flag (a)—Beautiful variety; flowers very large and double, snow white, bordered with scarlet.

77a. Double Flowered Mixed Poppies (a)—Immense double flowers, resembling a Peony; two feet.

78. M. & S. Shirley Poppies (a)—A bed of these Poppies produces a gorgeous effect in the garden; large flowers with brilliant colors; mixed. Oz. 40c.

78a. Iceland Poppy (p)—These dwarf, bright yellow Poppies form one of the chief attractions of the garden through several months. They are most beautiful when grown in masses from seed sown every year; 1 foot.

Yellow Tulip Poppy—See Hunnemannia.

79. Portulaca Single (Mexican Rose)—Brilliant hardy annual, of easy culture; excellent for massing in beds, or rock work; thriving best in a light, sandy soil and a sunny situation; flowers of the brightest colors. Oz. 75c.

80. Portulaca Double (a)—Pkt. 10c; oz. \$2.00.

80a. Primula (P). Hardy primroses are among the most prized of our Spring blooming plants, 1 to 1½ feet high. Mixed colors.

80b. Primula Obconica—Used for greenhouse; very finest mixture. Pkt. 30c and 60c.

80c. Primula Chinensis (Chinese Primrose)—Very finest mixture. Pkt. 30c and 60c.

80d. Pyrethrum (p)—Handsome hardy perennial plants for the herbaceous border; flowers showy and excellent for cutting.

80e. Rhodanthe (a)—Very beautiful; delicate looking; everlasting. Much prized for Winter bouquets. Red and white and both colors mixed.

Orientale Poppies

Petunias

The Petunia is without a peer among annuals for effective Summer bedding or indoor culture. It is of easy culture, early to blossom and continues throughout the Summer until the first killing frost. No other flower produces greater diversity of color, retaining its freshness for so long a period.

81. M. & S. PETUNIA MAMMOTH. (a) Very fine, all colors mixed. Oz. \$1.50.

82. Snowball—Pure white; oz. \$1.75.

82a. Rosy Morn—Pink; oz. \$2.50.

83. Howard's Star Petunia—A beautiful variety; produces a profusion of crimson-maroon flowers, each having a distinctive five-pointed white star. Single. Oz. \$3.50.

Petunia

83a. M. & S. De Luxe Bedding Petunia—Embracing only large flowering, gorgeous colored varieties. Oz. \$2.50.

83B. Balcony Petunias—A splendid free flowering type for window or porch boxes, vases, etc.; also valuable for bedding, giving a display of flowers throughout the entire summer, until frost; the flowers are large, averaging 3 inches across.

Blue—Rich Indigo blue.

Crimson—Rich velvety crimson.

Rose—Brilliant rose pink.

White—Pure white.

Mixed Colors.

All of the Above—Pkt. 15c; Large pkt. 50c.

84. Phlox Drummondii (a)—Easily grown from seed; makes a brilliant display as a Summer bedding plant. White, pink, crimson-white striped, pink with white eye, purple white striped, yellow-white with pink eye, rose-white striped, or all colors mixed. When ordering, mention color wanted. Oz. \$1.50.

85. Phlox Hardy (p)—For a gorgeous show these are the most satisfactory of all perennial plants. 2 to 3 feet high in all bright colors; seed sown late in Fall will germinate in the Spring. Mixed colors only. Oz. \$3.00.

ALL FLOWER SEEDS POSTPAID

Ricinus (a) (Castor Oil Bean)

One of our best ornament-leaved annual plants, largely used for the center beds, being splendidly effective grouped with cannas, Caladiums and other tall plants.

86. **New Ricinus or Castor Oil Plant "Red Spire"**—The shapely bushy plants attain a height of about 6 feet, with pretty palmate leaves of a bronzy green with prominent red ribs and veins, and producing through the summer and autumn numerous spikes of flowers or seed pods 9 to 18 inches long, of a brilliant rosy crimson; altogether a most effective semi-tropical plant, valuable alike for its foliage and flowers, and like other Ricinus, absolutely insect-proof. As single specimens or in beds on the lawn, for filling up a corner, or making a hedge or line, this is one of the most ornamental plants ever introduced. **Per pkt. 15c; 40c. per oz.**

87. **M. & S. Ricinus Mixture**—Appreciating fully the splendid effects that a fine array of these desirable foliage plants will make in your garden, we have composed a mixture that for elegant blending is unsurpassed. **Oz. 20c.**

88. **Zanzibariensis**—Enormous leaves, varying in color from light green to purplish red. 12 feet. **Oz. 25c.**

89. **Sanguines**—Plants attain great dimensions—12 to 14 feet. Leaves a beautiful blood red. **Oz. 25c.**

89a. **Rudbeckia-Newmanii** (p)—One of the finest of autumn-flowering perennials, bearing large flowers. Bright orange-yellow petals surrounding a large black cone.

SALVIA (a) (SCARLET SAGE)

90. **Salvia Splendens**—This popular bedding plant is impossible to be replaced. There is nothing more effective in the Fall or mid-Summer than these bright scarlet flowers. Seed should be started either in the house from February till April or in hotbeds. Best bedder, beautiful scarlet flowers of immense size. **Oz. \$2.00.**

91. **Salvia Bonaire**—Compact bushy plants; two feet high, producing innumerable erect spikes of the most brilliant scarlet flowers. Height, 2½ to 3 feet. ¼ oz. 75c.

92. **Salpiglossis (a) (Painted Tongue)**—Very beautiful, hardy, annual plants, flowering freely from July to early Autumn. Rich soil should be provided, with plenty of space for plants to develop. Blue, rose, violet, red, purple, yellow, maroon and all colors mixed.

93. **Scabiosa (a) (Sweet Scabiosa, Mourning Bride, Pin-Cushion Flower, Egyptian Rose, etc.)**—Beautiful colored flowers, 2½ feet high; fine for cut flowers.

94. **Scarlet Runner (a)**—Ornamental and useful climbing beans. **Oz. 10c.**

95. **Sensitive Plant (a) (Mimosa)**—A curious and interesting half-hardy annual, with pinkish flowers; leaves close when touched; 1½ feet high.

95a. **Smilax**—A well-known greenhouse climber, with small dark-green foliage; of great value in floral work. **Oz. 60c.**

95b. **Statice (Sea Lavender) (p)**—The statices are becoming more and more popular as gardeners realize the possibilities of these, not only as beautiful garden flowers, but also the keeping qualities, which make them a joy in a winter bouquet of everlasting flowers. We offer four colors: Blue, Rose, White and yellow. Special to introduce them: 1 pkg. of each, 30c.

Snapdragon—See *Antirrhinum*.

No. 98—Sweet Sultan.

96. **Stock (a)**—Half-hardy annual; fine for cutting, bedding or edging, also pot culture; average 1 to 1½ feet. Mixed colors. White, pink, yellow, crimson, light blue, dark blue, separate colors.

96a. **Stokesia (p) (Cornflower Aster)**—Blooms all Summer. Large attractive flowers, resembling asters; fine for cut flowers; two feet high.

Strawflower—See *Helichrysum*.

97. **Sweet William (p) (Dianthus Barbatus)**—This is one of the finest of our hardy garden plants; of easy culture thriving in any good garden soil and lasting for years. The plants grow about 1½ feet high, and form fine clumps; produces fine effects in beds and shrubbery. Single crimson, single red with white eye, single velvety, maroon, single white and choicest double mixed, single mixed; all colors. **Oz. 75c.**

97a. **Sweet Sultan (a) (Centaurea Moschatus)**—Hardy annual; flowers resemble "Bachelor's Buttons," fragrant flower on long stems.

97b. **Sweet Rocket (Hesperis) (p)**—Excellent for naturalizing among shrubbery or for planting in a permanent border. Fragrant white and purple flowers; 2 to 3 feet. Mixed.

Salpiglossis

Sunflower (a)

98 THE UNIQUE RED SUNFLOWER

Unique Red Sunflower.

Of recent introduction. The plants reach a height of from 5 to 8 ft. and throw out many branches. Flowers are very numerous, of good form, usually having large long rays and small discs. Heads vary greatly in size—some are only 2 or 3 ins. across, while others are a foot or more. The color diversifies greatly, some plants produce flowers of rich chestnut red, others red flowers tipped with yellow, others washed with red. This variety in size and color makes a hedge or border interesting and attractive. Some few seeds will produce plants bearing yellow flowers; for, although the seeds came from carefully selected stock, they were grown in a region where sunflowers abound and the wild, doubtless, have crossed some with pollen from the wild flowers. The plants likely to produce yellow flowers have no purple in stem or leaf and can be destroyed when seedlings. **Oz. 50c.**

98a. **Single Sunflower (a)**—Dwarf. **Single Sunflower (See Helioopsis) (p).**

99. **Double Sunflower (a)**—Dwarf chrysanthemum-flowering; very attractive. **Oz. 40c.**

100. **Sunflower (a) (Large Russian)**—Six to eight feet high; immense flowers. **Oz. 10c.**

101. **Thunbergia (a) (Black-Eyed Susan)**—Beautiful. Very ornamental climber.

102. **Verbena (a)**—Dwarf bedding plants for a gorgeous display during the Summer months cannot be excelled, commencing to flower in July and continuing until frost. Our Mammoth Fancy Strain cannot be surpassed for profusion of bloom and beautiful colors and shades. M. & S. Fancy White, Scarlet, Dark Blue, Light Blue, Scarlet-White Eye, Pink-White Eye, Violet-White Eye and all colors mixed. When ordering state color wanted. **Oz. \$1.50.**

103. **Vinca (a) (Madagascar Periwinkle)**—Dwarf bedding plants with deep green glossy foliage and bright single blossoms of striking beauty; sow early.

103a. **Violet (p)**—Deservedly much in demand because of their profusion of bloom and delicate odor. Purple Queen and finest mixed.

103b. **Veronica-Longiflora (p)**—Blue flowers; two feet high, August to October.

104. **WALLFLOWER (p)** Favorite sweet-scented flowers of fine colors. Splendid for cutting and useful as Spring bedders.

Early Feltham—Fine brown, dwarf.

Cloth of Gold—Yellow.

Vulcan—Dark blood-red; all colors mixed. State color wanted. **Oz. 40c.**

Creamy White — Oz. 40c.

Wallflower — All colors mixed. **Oz. 40c.**

105. **Wild Flower Garden (a)**—Fine mixture of old favorites. **Oz. 15c.**

All Pkt. of Seed 10c each unless otherwise noted.

106. CHINESE WOOLFLOWER (Celosia Chldsi)

This is a unique form of the feathered Cockscomb, growing 2 to 3 feet high, by as much through each branch terminated with a large head of flowers that look as if made out of some silky wool material, and which is nicely shown in our illustration. Not only effective in beds or borders, but highly interesting and valuable for cutting, as they can be dried, and retain their bright color for weeks. We offer three colors and mixed. Dark Pink, very rich color. Canary yellow, pure white and mixed.

Chinese Woolflower

Scabiosa

M. & S. GIANT DAHLIA - FLOWERED ZINNIAS

All Flower Seed Postpaid.

This splendid new and distinct race is without a doubt the greatest improvement in Zinnias yet developed and will greatly increase the popularity of this flower. The plants are of strong, vigorous habit, from 2½ to 3 feet high, and produce mammoth flowers 4 to 6 inches across and 2½ to 3 inches deep. The broad petals are closely imbricated, sometimes seeming to be piled one upon the other, the flowers so closely resembling decorative Dahlias, that when placed by their side, it is difficult to distinguish one from the other.

The Zinnia is one of the most brilliant, showy and satisfactory of annuals, and has long been a general favorite. The seed can be sown early in the hot-bed or light window and transplanted or sown later in the open ground. They come into flower early in the summer and keep on blooming until hard frost. The varieties offered are the most important kinds.

107. **Crimson Monarch**—By far the largest and best of the red shades; plants very vigorous.

108. **Dream**—A fine, deep lavender turning to purple, a new, desirable shade in Zinnias.

109. **Exquisite**—One of the most pleasing in the collection; truly Dahlia-flowered as regards form and size; color, light rose, with deep rose centre.

110. **Golden State**—A very rich orange yellow; yellow in the bud, turning to an attractive orange when in full bloom.

110a. **Purple Prince**—A fine, deep purple, large and well formed.

111. **Oriole**—One of the most beautiful of its class; an immense orange and gold bi-color, changing slightly as it ages, but at all times worthy of the beautiful bird for which it was named.

112. **Polar Bear**—A very large pure white; the best white yet seen in Zinnias.

Price the above seven varieties 20c per pkt.; large pkt. 35c each.

Collection—One packet each of above seven separate varieties for \$1.25.

Collection—One large pkt. each of above seven separate varieties for \$2.00.

113. **Mixed Colors**—A well blended mixture, covering a wide range of colors and shades. Oz. \$2.00; pkt. 10c and 25c.

M. & S. CHOICE ZINNIAS

(YOUTH AND OLD AGE)

M. & S. SPECIAL STRAIN OF DWARF GIANT FLOWERING DOUBLE ZINNIAS—A special strain of this grand old favorite free and continuous flowering annual, which produces flowers of colossal size, specimens measuring from 5 to 6 inches across being not unusual. Plants are of extremely robust habit, attaining a height of about 3 feet and bearing on long strong stems numerous semi-globular, mostly very double flowers, all of the largest size, making them of great value in large beds, borders, etc.; grown under favorable

Giant
Dahlia-Flowered
Zinnia.

conditions they remain in bloom from early summer to late autumn.

We offer six of the most wanted colors, separately, as well as a splendid mixture of many colors, as follows:

114. **Golden Yellow**. Pkt. 10c; oz. 75c.

115. **Bright Scarlet**. Pkt. 10c; oz. 75c.

116. **White**. Pkt. 10c; oz. 75c.

117. **Salmon Rose**. Pkt. 10c; oz. 75c.

118. **Canary Yellow**. Pkt. 10c; oz. 75c.

119. **Dark Scarlet**. Pkt. 10c; oz. 75c.

Collection of a packet of the above 6 colors. 50c.

120. **Giant Flowering Dwarf**—Mixed. All colors. Pkt. 10c; oz. 50c.

121. **Giant Flowering Tall**—Mixed. All colors. Pkt. 10c; oz. 50c.

122. **M. & S. Victory Zinnia**—This is a new introduction of Zinnia, forming quille petals. Choice mixed including all beautiful and several new colors. Pkt. 10c; oz. \$1.00.

123. **Curled and Crested Zinnia**—The petals of this beautiful strain are twisted, curled and crested into the most fantastic and graceful forms. The colors comprise

all the brilliant shades characteristic of the Zinnia. Pkt. 10c; oz. 75c.

124. **M. & S. Picotee Type Zinnia**—We offer for the first time this exquisite new Zinnia. The flowers which are not quite as large as the double giants, are very effective in appearance, as the edges of the petals are all well marked with a distinct color to the body of the flower, making them very attractive as bedders and cut flowers. Pkt. 10c; oz. \$1.00.

UNSOLICITED RECOMMENDATION

October 11, 1926.

The Meyer Seed Co.
Dear Sir:

Looking over my garden notes and work for this season, I feel I ought to give a report of the result of our success with your Garden Seeds. Notwithstanding the fact that this has not been a very favorable season to fully establish the merits of all vegetable crops.

The following named varieties merit special mention as exceptionally fine, and are highly recommended:

Beans—Bountiful for early and "Full Measure" for second early and late.

Bush Lima—M. & S. "Enormous."

Beets—M. & S. Early Marvelous.

Sweet Corn—M. & S. Snow White Evergreen.

Tomatoes—M. & S. Early Wonder for early, and Kellys Red for main crop.

Peas—Prolific, Early Market and M. & S. World's Record.

Spinach—Juliana for spring sowing, and Bloomsdale for fall sowing.

It is a source of much satisfaction and pleasure to deal with The Meyer Seed Co., and we certainly appreciate the kindness and the willing spirit in the many times we have asked you to secure for us articles or items not carried in stock.

Very gratefully yours, JOHN H. GRIFFITH,

Supt. for D. K. Este Fisher, Ruxton, Maryland.

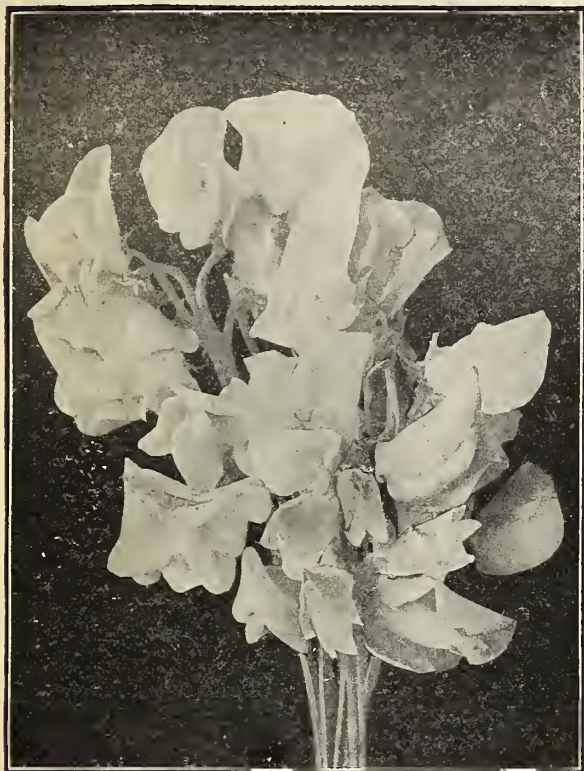

A Field of Giant Dahlia Flowered Zinnias.

Giant Picotee
Type Zinnia.

M. & S. SPENCER, or ORCHID SWEET PEAS

Spencer, or Orchid Flowering Sweet Peas.
Hardy Sweet Peas.

HARDY SWEET PEAS

Lathyrus Latifolius (Perennial Sweet Pea)—Showy hardy climber, fine for covering walls and stumps. Free flowering. Pink, red, white, pearl, and mixed colors. Pkt. 10c; oz. 60c.

All Sweet Peas Postpaid.

Inoculate Sweet Peas, to insure success. Use Mulford's Culture, Farmogerm or Humogerm. For particulars, see page 29.

Nothing within recent years can approach in importance the introduction of the "Spencer" Sweet Peas. They are distinguished from the Grandiflora sorts by the enormous flowers with crinkled and wavy petals, and also from the fact that they usually bear four blossoms on a stem. The plants are of robust growth and bear flowers on long stems.

125. Constance Hinton — Best White.

126. Blanche Ferry — Pink and White.

127. Mrs. Rontzahn—Apricot and Straw Color.

128. Wedgwood—Blue.

129. Primrose Spencer—Pink.

130. Hercules—Pure Pink.

131. King Edward—Pure Red.

132. Margaret Atlee—Rosy Buff.

133. Blue Picotee—White Blue Edge.

134. Masterpiece—Lavender.

135. Othello Spencer — Deep Maroon.

136. Florence Nightingale — Bluish-Lavender.

Price on all the above—Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. \$2.50.

M. & S. SUPERB SPENCER MIXTURE—A mixture that cannot be surpassed. Pkt. 10c; oz. 15c; ¼ lb. 50c; 1 lb. \$1.50.

137. Crimson King—Unquestionably the finest self-colored Crimson Sweet Pea ever introduced. The strong growing vines produce freely the very long stemmed sprays of four fine large blossoms. The color is a solid rich deep crimson.

138. Youth — An exceptionally large and fragrant Sweet Pea. The color is white edged in a beautiful manner with a delicate soft rose pink. The plant is robust in growth and bears four blossomed sprays in great profusion.

Prices on both varieties: Pkt. 25c; oz. 50c; ¼ lb. \$1.50.

M. & S. Gilt Edge Sweet Pea Mixture

This superb mixture is blended by us with extraordinary care from named varieties of the most improved large flowering type, including recent American and European novelties, as well as a great many new hybrids, as yet unnamed, insuring gorgeous color effect. Oz. 15c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c.

M. & S. Winter Flowering Spencer Sweet Peas

For indoor forcing. This seed has been grown from originator's stock and can be depended upon for excellent results.

139. Snow Flake—Large and of the best waved Spencer form. The pure white flowers are borne in wonderful profusion on long stems.

140. Early Harmony—Clear lavender throughout; of large size and well waved.

141. Early Red Cross—Fine scarlet.

142. Columbia—Pink standard, white wings.

143. Yarrowa—A pleasing shade of bright rose pink with lighter wings.

144. Hercules—Giant rose pink.

145. Early Meadow Lark—Large early cream.

146. Glitters—The sensational orange scarlet, very bright.

146a. Zoolancks Rose—A very large and wavy, rich rose pink.

All the above, 10c per pkt.; ½ oz. 30c; 1 oz. 60c.

Iris Germanica

For Parcel Post, add 5c per plant, 25c per dozen

Nothing in the floral kingdom can equal the variety of color found in the new Germanica Hybrid Iris. They are both hardy and permanent, increasing every year at least twofold. Plant shallow, give lime or bone but avoid fresh manure.

EXHIBITION VARIETIES

Iris Germanica

M. & S. SUPERFINE GLADIOLUS

OUR BULBS ARE
1½ INS. AND UP.

If to be sent by Parcel Post, add postage at 35c per 100. Single bulbs and dozens we deliver free in U. S.

Culture—what a wonderful stride the Gladiolus has made during recent years. Its popularity today is exceeded by few other flowers, and it has by no means reached its limit. And there are good reasons for this popularity. Failure with it has never been known. Gladiolus will grow in any open position, where there is a fair amount of sun, and bloom well. They are not only showy in the garden, but, when cut with the first flower open will last for 10 days in the house. The newer colorings defy the choicest orchids. Plant bulbs 3 to 4 inches deep, 6 inches apart and stake when 2 feet high. Flowers appear from early July until late in the fall.

Anna Eberius—A deep rich purple; very unusual and particularly attractive. 15c each; \$1.40 doz.; \$9.00 100.

Alice Tiplady—Large flower of beautiful orange saffron color. Early. 10c each; \$1.00 doz.; \$7.00 100.

America—Delicate lavender-pink; flower large size. Very popular. 5c each; 50c doz.; \$3.50 100.

Evelyn Kirtland—Beautiful shade rosy-pink, darker at the edges, with brilliant scarlet blotches on lower petals. Tall spike, extra fine form and color. 10c ea.; \$1.00 doz.; \$7.00 100.

Flora—Fine golden yellow; very large flowers. 10c each; \$1.00 doz.; \$7.00 100.

Herada—Blooms of immense size on tall straight spikes; the color is pure mauve, glistening and clear with deeper markings in throat. An unusual color and very effective as a cut flower. 12c each; doz. \$1.85; \$8.00 per 100.

Le Marechal Foch—Beautiful shade of light pink, flowers very large; one of the earliest. 7c each; 75c doz.; \$5.00 100.

Louise—Exquisite shade of clear lavender, growing brighter toward the center. 12c each; \$1.25 doz.; \$8.00 100.

L'Immaculee—Pure white, long spikes with many flowers open at one time; very early. 7c each; 75c doz.; \$5.00 100.

Mrs. Francis King—Light scarlet, lower petals splashed deeper red. Tall spikes; very popular. 6c each; 60c doz.; \$4.00 100.

Mrs. Frank Pendleton, Jr.—The color is a delicately flushed salmon pink extending to the reverse side of the petal. The blooms are wide open and are arranged individually on very wiry stems. Each flower is doubly enhanced by a rich maroon blotch on the three lower petals. 12c each; \$1.25 doz.; \$8.00 100.

Mrs. Fred C. Peters—Gorgeously light blue with deeper markings, many flowers open on long stems. 25c each; \$2.50 doz.

Mrs. Dr. Norton—Very large flowers well set on a tall and graceful spike with 4 to 8 flowers in bloom at one time. Color, white, with edges of petals suffused with soft La France pink; a very choice variety. 15c each; \$1.40 doz.; \$9.00 per 100.

Niagara—Delightful cream shade. The throat is splashed with carmine, also the lower end of petals. Large flowers on good spike. 7c each; 75c doz.; \$5.00 100.

Panama—Beautiful pink. Distinctive and popular. 8c each; 85c doz.; \$6.00 100.

Peace—Flowers are large, of good form, correctly placed on heavy straight spike. Beautiful white with lilac feathering on lower petals. 8c each; 85c doz.; \$6.00 100.

Prince of Wales—Large flowers of salmon pink, very early blooming. 10c each; \$1.00 doz.; \$7.00 100.

Rose Pearl—Large flower of very pale pink, nearly white; very early. An attractive variety. 10c each; \$1.00 doz.; \$7.00 100.

Schwaben—Delicate pale yellow, dark blotch in center. Very popular. 7c each; 75c doz.; \$6.00 100.

War—Deep blood red. Very tall and conspicuous. A fine late variety. 7c each; 75c doz.; \$5.00 100.

Wilbrink—Pale livid pink with creamy blotch on lower petal; very early and fine cutflower. 10c each; \$1.00 doz.; \$7.00 100.

M. & S. Giant Flowering Mixed Gladiolus, composed of all named varieties in gorgeous blending, 5c each; 50c doz.; \$3.50 100.

M. & S. Superfine Canna Bulbs

Postage 5c each; 25c dozen

In almost every private garden, in all public parks and in most of the large cemeteries Cannas are used with the greatest effect to adorn the surroundings. It is difficult to convey in language an idea of the beauty of the Canna plant and flower.

Culture—Canna tubers should not be put into the ground until the soil has become warm. They commence blooming in June and continue until late in September. Every shoot bears a flower and these shoots are being constantly produced throughout the blooming season.

Note—Our prices are for dormant roots in strong divisions of two and three eyes. After May 1st our stock of roots is usually sold, at which time we can fill orders with plants of some varieties.

Apricot—We consider this canna of unusual merit and especially valuable. Has healthy bright green foliage growing about four feet. Color mixture, of buff and salmon.

Eureka—The best white variety; free bloomer; green foliage. 4 feet.

Firebird—One of the best red-flowering cannas. Green foliage. 4½ feet.

Florence Vaughan—Yellow, spotted crimson; green foliage. 5 feet.

Gladioflora—Has unusual shape resembling a Gladiolus. Color crimson changing to carmine rose and edged with gold; green foliage. 3 feet.

Hungaria—Rich peach blossom pink. Free, early and continuous bloomer; green foliage. 3½ feet.

King Humbert—Truly a king among the Cannas, its majestic growth is doubly enhanced by a massive coppery scarlet flower and the broad deep bronze foliage. It grows 4 feet high and is splendid either as a center, edged with a dwarf yellow canna, or vice versa, placing it around a center of a tall yellow variety.

Mrs. A. F. Conard—Gigantic flowers which are borne in immense clusters. Salmon pink, a shade which becomes more brilliant as the flower develops. Foliage light-green. 4 feet.

Richard Wallace—Light yellow; green foliage. 4½ feet.

The President—This splendid new variety produces immense flowers of a rich, glowing scarlet; green foliage. 3½ feet.

Wyoming—Orange chrome red; bronze foliage. 6½ feet.

Yellow King Humbert—This is a sport of the well-known bronze-leaved variety, but this has green foliage. Has masses of golden yellow flowers, dotted red. 4½ feet.

All Varieties: 15c each; \$1.50 doz.

Special Offer: 1 of each 12 above, not labeled, \$1.25, postpaid.

M. & S. SUPERB SURE-BLOOMING DAHLIAS

If to be sent by parcel post, add 5c to each root or 25c per dozen. Varieties marked (o) postpaid.

Novelties and Varieties of Special Merit

Spade or plow the ground to a depth of about 10 inches. As a fertilizer, use sheep manure and quick-acting bone meal, which should be well mixed with the soil. When the soil is properly prepared, dig a hole 6 inches deep, in which to plant the Dahlias. The bulbs should be laid down flat and covered to a depth of 4 inches. Every Dahlia should have from 2½ to 3 feet space and at least 4 feet between the rows.

As soon as the plants are a foot above the ground they should be tied to a stake.

Keep the ground well cultivated and free from weeds. An application of sheep manure about every two weeks will be of great benefit.

Never leave more than one shoot to a plant. You will have better plants and larger flowers if you will allow only one main shoot to a plant.

Orders for Varieties marked (o) will be filled in rotation, and will not be ready for delivery before April 15th.

Decorative Dahlias

AMUN RA (o)—Large blossom on fine stem. A gorgeous shading of copper, orange and gold, deepening in the centre to a reddish bronze. \$1.00.

AL KORAN (o)—Yellow, suffused with golden rod and amber. Petals have the marcelle wave which make them very attractive. \$1.50.

CARMENCITA (o)—A dwarf grower but always a mass of bloom. Yellow striped red. \$1.50.

CHAMPAGNE (o)—This was one of the rare novelties of last season; size large, color fine—dull champagne, varying to chamois. Large massive stem. \$2.50.

CLARABEL—Rose purple. 25c each; \$2.50 doz.

CORA—A very pleasing shade of crimson red, highly recommended. 35c each; \$3.50 doz.

DRESSELHUY (o)—A beautiful clear pink variety that is hard to excel for color, and which you will find a very free bloomer. Fine for decorative work. \$1.00.

EMPEROR (o)—This is a rare novelty and much in demand—fine stem. Deep maroon purple—a rare color. \$2.00.

ELDORADO (o)—An immense blossom of pure gold—a color much in demand. This dahlia stands well out of the foliage on strong, erect stems. One of the best grown. \$3.50.

ELLEN KELLEY—Golden yellow. 35c each; \$3.50 doz.

F. G. SCHIEFF (o)—An exquisite blending of apricot, orange and yellow. An early and continuous bloomer, producing blooms on exceptionally large stems. \$1.00.

F. A. WALKER—Pink. 25c each; \$2.50 doz.

GRIZZLEY (o)—A dark red monster and without doubt one of the best in its class. \$1.50.

JUDGE MAREAN (o)—A gigantic flower of perfect type. Beautiful color combination—glowing salmon pink, with a touch of watermelon red, exquisitely blending to iridescent orange, yellow and pure gold. Constant bloomer. \$1.00.

JERSEY'S BEAUTY (o)—This is certainly a beauty and should be in every garden on account of its wonderful color and stem—in a class by itself—a beautiful pink. \$2.00.

JUNIOR (o)—An enormous flower of pure lavender, can easily be grown eleven inches. \$2.50.

JACK ROSE—Dark velvety crimson. 25c each; \$2.50 dozen.

LITTLE JEWEL (o)—This is one of the daintiest flowers grown and for table decoration cannot be surpassed. A most beautiful pink. This is the only decorative of this type and rarely goes over two inches. A distinct novelty. \$1.00.

MRS. CARL SALBACH (o)—A beautiful large bloom of lavender pink. One of the best—always seen on the exhibition table. Massive stem. \$1.00.

MRS. I. DE VER WARNER (o)—The queen of the garden—a most charming color of deep mauve pink. True type and very fine form on wonderful stem. This dahlia is in a class by itself. \$1.50.

MRS. JNO. T. SCHEEPERS (o)—A wonderful variety. Large flowers, on long, stout stems, clear canary yellow which gradually changes to a beautiful shade of pink suffusion. \$1.50.

MILLIONAIRE (o)—An old favorite of a beautiful shade of lavender and white. Flowers have great depth as well as size. \$1.00.

MYRA VALENTINE (o)—Golden bronze, or a distinct copper color. Very large bloom on fine long stem. \$1.50.

MR. CROWLEY (o)—The exquisite color of this dahlia is most remarkable—a glowing shade of salmon pink—base of petals yellow. Medium size flowers. \$1.00.

ORA DOW—Maroon and white. 25c each; \$2.50 doz.

PAUL MICHAEL (o)—An immense pure yellow—a sensational bloom. Good for exhibiting. \$1.50.

PRIDE OF CALIFORNIA (o)—One of the best reds—large flowers on good stems—always popular. 75c.

ROSA NELL (o)—This is worth growing in every garden. Color a clear bright-rose. The enormous blooms are always full to the centre and held erect on long stems. \$1.00.

SNOWDRIFT (o)—This giant white deserves its name. A full, deep built flower with broad, waxy petals. \$1.50.

T. A. LEONARD (o)—This is a giant with a fine centre and a peculiar petal formation, which is quite original. Color, deep cerise. \$2.00.

THE BASHFUL GIANT (o)—Unquestionably one of the largest dahlias in cultivation. Apricot with golden shadings—a worthy acquisition. \$2.00.

THE GIANTESS (o)—This is another in the large bloom class and will always be found on the exhibition table. A wonderful color of amber; fine stems. \$4.00.

WILHELM MILLER—Purple. 25c each; \$2.50 doz.

ZEUS (o)—This is indeed a wonderful novelty—it is nothing to cut 10-inch blossoms from a bush of this variety. Medium height plant, and a very free bloomer. Glowing shade of red, with each petal distinctly tipped yellow. \$5.00.

Cactus and Hybrid-Cactus Dahlias

CIGARETTE (o)—This is indeed a very fine dahlia with long massive stem. Color pomegranate red, heavily tipped white. \$1.50.

EUREKA—Purple. 25c each; \$2.50 doz.

EARL OF PEMBROKE—Plum. 25c each; \$2.50 doz.

GLADYS SHERWOOD (o)—A beautiful large white, with long petals that resemble white satiny ribbons. \$1.00.

ISLAM PATROL—Hybrid Cactus (o)—Dark velvety scarlet, tipped and flushed with gold—a gorgeous variety—always adorns the exhibition table. \$3.50.

KOH-I-NOOR—Hybrid Cactus (o)—Maroon, and at times so dark as to be almost black. Petals rolled closely and run to a point. Blooms are large and deep and have a velvety sheen that add greatly to their beauty. \$2.50.

LIBELLE—Rose purple. 25c each; \$2.50 doz.

MARIPOSA (o)—A perfectly formed Hybrid Cactus, composed of long, narrow incurved petals, which turn and twist in a charming manner; color a beautiful pink shade, produced on long, stiff stems. \$2.50.

VIOLETTA (o)—Originated by Mr. Waite. Color, petunia violet. Very large flower which is held on top of stem. A prize-winner. \$2.00.

Peony Dahlias

MRS. M. W. CROWELL—Orange yellow. 35c each; \$3.50 doz.

MRS. BOWEN TUFTS—Rose purple. 35c each; \$3.50 doz.

MRS. VAN BYSTEIN—Rosy lilac. 35c each; \$3.50 doz.

Ball or Show Dahlias

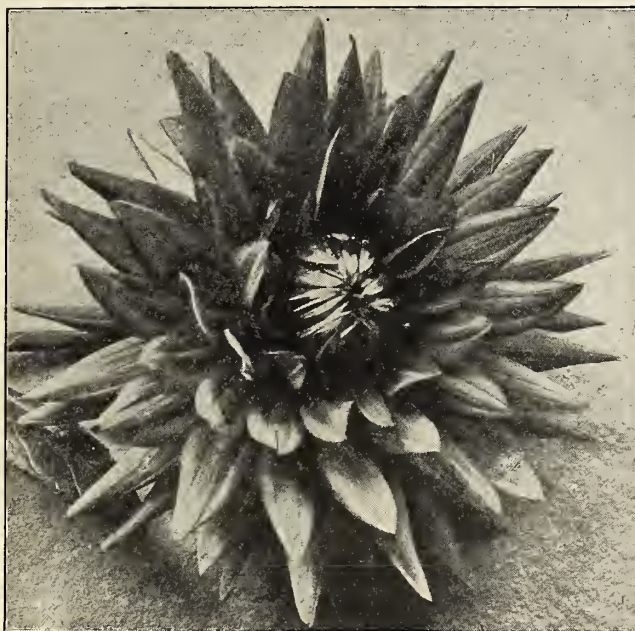

A. D. LIVONI—Pink. 25c each; 2.50 doz.

ARABELLA—Yellow and pink. 25c each; \$2.50 doz.

AMERICAN BEAUTY—Crimson. 35c each; \$3.50 doz.

DOROTHY PEACOCK—Large, perfect shaped flowers of a bright sea-shell pink. Early and continuous bloomer. 35c each; \$3.50 doz.

(Dahlias continued on next page)

Cactus Dahlia Mariposa.

Pompon Dahlias**AMBER QUEEN**—Clear amber. 25c each; \$2.50 doz.

Should you wish any of the recent prize winning varieties—we have them—and can supply them in plants. If you have any variety in mind that you would like to add to your present collection it would be advisable that you consult us before sending out of town, as we have a direct connection with one of the largest growers of exhibition stock.

Box Collection of Dahlias

Put up in sets of 8 assorted varieties, unlabeled, embracing a wide range of colors, red, white, pink, yellow, variegated, etc. This collection is sent through Parcel Post to any part of the United States for \$1.00, postpaid.

M. & S. Choice Paeonies

Double Paeonies are too well known to require description. Their present popularity is due to the great improvement in them in recent years, their easy culture, the handsome appearance of the plant, and the brilliant and striking effect of their massive, finely formed and richly colored flowers. The attention given to them, in Europe and America, has resulted in the production of many notable fine new varieties. Among hardy, herbaceous perennials, the Chinese Paeonies rank about first for lawn or flower-border, or shrubbery decoration. They are all hardy.

MONSIEUR KRELAGE—Semi-rose type; late midseason. Deep current red with amaranthine center.

GERMAINE BIGOT—Crown type, midseason. Pale lilac-rose with crimson flecks in the center. Broad petals, fairly compact medium height, strong erect stems. Free blooming.

FESTIVA MAXIMA—Rose type, early. White, very large, center petals flecked with crimson. Very tall and vigorous.

EDULIS SUPERBA—Crown type, very early. Often called the Decoration Day peony. A beautiful bright clear mauve pink with silvery reflex. June rose fragrance.

LA TENDESSE—Rose type, early. Milk white, slightly splashed and flecked with carmine. Fragrant, large clustered.

AUGUSTINE D'HOUE—Bomb type, midseason. Extremely large, showy, perfectly built bloom. Color very deep, rich, brilliant solferino red, with slight silvery reflex. Indispensable.

All the above 50c each; \$5.00 per doz.

Fancy-Leaved Caladiums

Most attractive Ornamental Foliage Plants of easy culture. Will do well out of doors in the open as well as in pots in a half-shaded exposure, with plenty moisture and rich humus containing soil. Also as house plant or for conservatories, or in window boxes between ferns or small palms they give a very beautiful effect.

The following five standard varieties will give utmost satisfaction and are selected by specialist for our particular trade.

Aglaiia—Silvery white center, blotched blood red, robust grower, very attractive.

Atrocarmineum—Deep carmine red, splendid grower, very beautiful.

Atroseum—Beautiful satin pink, best gorgeous real pink, very fine variety.

Candidum—Pure white with velvety green veins, best light shaded variety.

Mephisto—Scarlet center, carmine blotches and veins on velvety green outside border, very showy.

Price on all varieties 25c each; \$2.50 doz. postpaid.

CALADIUM (Elephant Ear)

As center pieces of specimen in flower beds Caladiums answer well. They also make an excellent edging for a hardy bed of grass, for Ricinus and other tall growing plants. When planted in a bed alone, a border of Scarlet Sage removes the one color effect and makes a beautiful contrast. Do not plant Caladiums outdoors until after May 1st, but to get them in early growth they may be started indoors.

Monster Bulbs, 20c each; \$2.00 dozen.

For postage, add 5c each or 25c dozen.

Caladium (Elephant Ear)

Begonias

(Tuberous Rooted)

Enormous wax-like flowers appear uninterruptedly from June until frost. Start indoors in March, and transfer outdoors about May 1st.

A most charming plant with beautiful foliage. We are offering single and double. Colors red, white, yellow, pink, salmon and mixed colors. Price 25c each; \$2.50 per dozen, postpaid.

Paeony Augustine D'Hour.

BALL OR SHOW DAHLIAS—Continued

GLOBE DE NANTES—Scarlet. 25c each; \$2.50 doz.

IMPERIAL—Purple maroon. 25c each; \$2.50 doz.

ROBERT BROOMFIELD—White. 25c each; \$2.50 doz.

RED HUSSAR—Red. 25c each; \$2.50 doz.

STORM KING—White. 25c each; \$2.50 doz.

VIVIAN—This is another novelty worth growing—white heavily overlaid crushed strawberry. A good bloomer. 25c each; \$2.50. doz.

Single Varieties Dahlias

AUBRIGHT BEAUTY—White. 25c each; \$2.50 doz.

ECKFORD CENTURY—White dotted purple. 25c each; \$2.50 dozen.

ROSE-PINK CENTURY—Pink. 25c each; \$2.50 doz.

For postage add 5c each or 25c dozen.

DAHLIAS Continued in next column.

Paeony La Tendresse.

Everblooming ("Monthly") Roses

Wonderful Orange Yellow Budding Rose Sunburst.

EVERBLOOMING ROSES — RED SHADES

AMERICAN BEAUTY—The most famous of American Roses. Rich color and delicious fragrance. Deep brilliant red, shading to a rich carmine-crimson. Price, 1-yr. 40c each; 2-yr. 75c.

ETOILE DE FRANCE—A brilliant shade of velvety crimson. Very striking. Flowers are extremely large on long, but stiff stems—unexcelled for cutting. Price, 1-yr. 25c each; 2-yr. 75c.

RHEA REID—"The reddest of red Roses." Extra large; wonderful foliage; strong grower. Price, 25c each; 2-yr. 75c.

RED LETTER DAY—An exceedingly beautiful Rose of infinite grace and charm. Its velvety, brilliant, glowing scarlet crimson buds and fully opened cactus-like flowers never fade. 25c each; 2-yr. 65c.

FRANCIS SCOTT KEY—Black-grained intense scarlet crimson blooms. Richly perfumed. Francis Scott Key is a Rose that should be planted in every garden. 1-year 30c; 2-year 60c.

RED RADIANCE—One of the finest of the cut-flower type. Flowers are brilliant carmine-red, a color of wonderful brightness and charm, and a color that never fades. 1-year 28c; 2-year 70c.

HOOSIER BEAUTY—Glowing velvety crimson with darker shadings, making a flower of indescribable beauty. Vigorous and sturdy in growth. 1 yr. 30c each, 3 for 85c; 2 yr. 75c each, 3 for \$2.14.

AMERICAN LEGION—"The fragrance surpasses even that of La France." Dark blood-red flowers. An American Rose for American gardens. 1-year 35c; 2-year 90c.

CRUSADER—A big strong, robust growing variety, with rich velvety maroon blossoms. Strong stems. Fine for cut-flowers. 1-year 30c; 2-year 75c.

EVERBLOOMING ROSES — WHITE SHADES

WHITE MAMAN COCHET—"The masterpiece of perfection in a Rose." Color, silvery white, with porcelain shadings. Very distinct—flowers enormous size with high pointed center—a model for exhibition purposes. Price, 1-year 25c each; 2-year 75c each.

KAISERIN AUGUSTA VICTORIA—The best white Rose in the world. It is a continuous bloomer; shows no center when fully open; color snowy-white. Price, 1-year 25c each; 2-year 75c each.

BESSIE BROWN—Blooms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. Snow white, flushed and tinged with pink. Foliage is well up to the flower. 28c each; 2-year 65c each.

WHITE OPHELIA—Large flowers of snowy white, sometimes showing a daybreak pink in center on opening. —Delightfully fragrant. 1 yr. 30c each, 3 for 85c; 2 yr. 80c each, 3 for \$2.28.

WHITE KILLARNEY—One of the most exquisite white Roses grown. Strong and upright. Deep bronzy-green foliage. 30c each; 2-year 60c each.

Every lover of roses should have a copy of "The Rose in America." Everything in detail about the American rose and from the American point of view. Price, \$3.00, postpaid.

EVERBLOOMING ROSES — PINK SHADES

KILLARNEY—Remarkable for the size of its intensely fragrant flowers. Brilliant sparkling pink. Price, 1-yr. 25c each; 2-yr. 75c.

OPHELIA—Salmon-flesh color, shaded with Rose. Large flowers, long stems, fine for cutting. Price, 1-yr. 30c each; 2-yr. 75c.

COLUMBIA—It is a big Rose, the open flower measuring six inches across. Color, true pink, deepening as it opens to a glowing pink. Price, 30c each; 2-yr. 75c.

MAIDEN BLUSH—Color, soft rose, shading to yellow. Produces immense blooms on strong stiff stems. Good grower. 25c each; 2-year 65c.

WELLESLEY—Beautiful shape of pink; vigorous grower, free flowering. Blooms produced on long stiff stems. 1 yr. 25c each, 3 for 72c; 2 yr. 65c each, 3 for \$1.85.

PILGRIM—This new and wonderful Rose is a beautiful shade of rose-pink. Long buds; opens perfectly. 1 yr. 30c each, 3 for 85c; 2 yr. 75c each, 3 for \$2.14.

PREMIER—Truly a big Rose that is ideal among the ever-blooming varieties. Large broad-petaled pink blooms. Deliciously fragrant. 1-year 25c; 2-year 65c each.

LADY ALICE STANLEY—The blooms are a beautiful shade of coral rose, the inside of the petals, shading to flesh pink, with deeper flushes. 1-year 25c; 2-year 65c.

JOHNKEHRER MOCK—The flowers are of large size and perfect form, of a deep imperial pink, the outside of the petals rose-white. Highly perfumed. 1-year 25c each; 2-year 60c each.

RADIANCE—Pink American Beauty. A lovely rose pink color, sweet scented and free flowering. 1-yr. 28c each; 2-yr. 75c.

LOS ANGELES—One of the finest Roses ever introduced. Produces flowers of luminous flame-pink. Highly recommended. 1-year 35c; 2-year 75c; 3-year \$1.50.

EVERBLOOMING ROSES — YELLOW SHADES

REV. F. PAGE ROBERTS—A sensational Rose of late introduction. Color orange-yellow, lighter at edges of the petals. 1 yr. 50c each, 3 for \$1.43; 2 yr. \$1.00 each, 3 for \$2.85.

SUNBURST—Very striking flowers of rich yellow, with orange center. Perfect both in bud and bloom. Price, 1-yr. 35c each; 2-yr. 75c.

LADY MARY WARD—Color, rich orange, shaded deeper apricot-orange with a decided metallic veining, the greatest novelty color yet seen in Roses. 28c each; 2-year 75c.

ALEXANDER HILL GRAY—"Best and largest pure yellow Tea Rose." It is wonderfully productive, every shoot being crowned with a flower bud, which develops into a beautiful straw-yellow bloom. 25c each; 2-year 65c.

MRS. AARON WARD—The blooms of this variety are of a most pleasing and attractive shade—Indian-yellow, washed with salmon-gold. "Everybody's Rose." 1-year 25c; 2-year 75c.

LADY HILLINGDON—A rich shade of yellow which does not easily fade. 1-year 25c; 2-year 65c each.

GOLDEN OPHELIA—A most pleasing tint of salmon-flesh, with golden yellow suffusion. A Rose that is admired by everyone. 1-year 28c; 2-year 75c.

SOUVENIR DE CLAUDIUS PERNET (Monthly blooming)—Large flower of a rich butter-yellow, deeper in center. A most vigorous grower. 1-year plants, \$1.00 each, 3 for \$2.85; 2-year, \$1.50 each, 3 for \$3.28.

AMELIA GUDE (Monthly blooming)—Beautiful, deep, chrome-yellow with golden orange and golden-yellow shadings. Flowers are perfect in both shape and form and very fragrant. 1-year plants 35c each, 3 for \$1.00; 2-year plants 90c each, 3 for \$2.56; 3-year size \$1.50 each.

CONSTANCE (Monthly blooming)—Orange-yellow. Buds long, stems perfect, ideal for cutting. Elegant. 1-year plants 35c each, 3 for \$1.00; 2-year plants 90c each, 3 for \$2.56; 3-year size \$1.50 each.

EVERGREEN SWEET-SCENTED HONEYSUCKLE—Purplish evergreen foliage. Flowers white changing yellow, sweetly fragrant. 25c. Extra strong, 45c; 3 for \$1.28.

HARDY SWEET PEA PINK BEAUTY—Pure pink, quite popular. 50c.

HARDY SWEET PEA CRIMSON KING—Crimson-red flowers, tall grower. 50c.

HARDY SWEET PEA WHITE PEARL—Pure white. Blooms entire summer. 50c.

SPECIAL—1 each of above varieties of Sweet Peas, \$1.25.

CLEMATIS COCCINEA—A very handsome, hardy climber, bearing highly fragrant, bell-shaped, purplish-red or scarlet flowers from June until frost. Price, strong plants, 50c each.

HARDY JAPANESE KUDZU VINE (Fueraria Thumbergiana), "Jack and the Bean Stalk" Vine—A vine that will grow anywhere in the best or poorest soil. Remarkable and rapid, often making a growth of 50 to 75 feet in one season. Fragrant purple flowers; invaluable for covering porches, etc. Strong, 1-year plants, 40c each; 3 for 85c. Large 2-year plants, 75c each; 3 for \$2.00.

MADERIA VINE—Heart shaped leaves, feathery flowers, delicious fragrance. Here is what you want if a quick growth is desired. Roots, 12c; 3 for 34c; per doz. \$1.15.

Purplish Red Clematis Coccinea.

Hardy Garden Plants PERENNIALS

Foxglove or
Digitalis.

DOUBLE HOLLYHOCKS—Hardy. Straight towering spikes, a mass of waxy flowers. Select from colors: White, maroon, pink, red and yellow. 25c each; 3 for 72c; \$2.70 per dozen.

DELPHINIUM (Gold Medal Hybrids)—Hardy. The most attractive bold and meritorious flower we have. The immense spikes of brilliant shades of blue produce the most striking effect in the flower garden. 35c each; \$3.36 per dozen.

GIANT HARDY PRIMEOSE—Immense trusses of large flowers from purest white, yellow and orange to crimson. 35c each.

SHASTA DAISY—Hardy. Pure white with gold center petals very long and center soft and velvety. 24c each.

HARDY ORIENTAL POPPY—Enormous large flaming red flowers. Striking. 40c each; 3 for \$1.00.

DOUBLE GOLDEN GLOW—Hardy. Grows 8 feet high. Exquisite double blossoms of brightest golden-yellow, as large as Cactus Dahlias. 25c each.

PYRETHRUM—Daisy-like flowers in pure white, all shades of pink and crimson red. Hardy. 30c ea., 3 for 85c.

ANEMONE PINK—Delicate pink blooms on long graceful stems. One of most beautiful hardy perennials. 50c ea., 3 for \$1.43.

LEMON LILY—Clear yellow, lily-shaped blooms. An excellent hardy perennial for beautifying home garden. 40c ea., 3 for \$1.14.

VARIEGATED DAY LILY—Broad, heavy foliage, purple flowers. Attractive in the border. 32c each.

HARDY CARNATION CRIMSON KING—Blooms all summer; never a day that you cannot cut blossoms. Color rich crimson; fragrant. 40c ea., 3 for \$1.14.

IRIS—Easiest of all plants to grow. A bed of five wonderful varieties, mixed colors, for 75c.

HARDY ORIENTAL PINK POPPY—Very large, showy flowers. Apricot pink conspicuously blotched crimson. 75c ea., 3 for \$2.14.

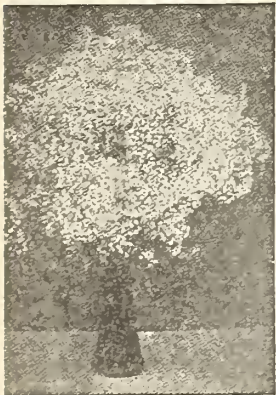

CHINESE LANTERN PLANT (Physalis Francheti)—An ornamental variety of the Winter Cherry, forming dense bushes, about 2 feet high, producing freely its bright orange scarlet lantern-like fruits; highly interesting. The most useful of all the everlasting. For Halloween, Thanksgiving and Christmas decorations. 25c ea.; \$2.50 per doz.

HARDY AGERATUM—Light blue flowers. Blooms from August to frost. 18 inches high. 24c each; 3 for 68c; \$2.10 per dozen.

GAILLARDIA (Grandiflora)—Flowers with brownish red center, orange petals. Blooms from June to November. 25c each; 3 for 70c.

FORGET-ME-NOT—Flowers a light blue. Grows well in shady, moist location. 24c each; 3 for 57c.

MOSS PINK—Moss-like evergreen foliage with bright rose-colored flowers. 28c each; 3 for 63c; 12 for \$2.10.

Gypsophilla Paniculata.

Hardy Garden Phlox

Flower heads often measure from 7 to 9 inches across, borne from early summer until frost. They grow vigorously—increasing in size from year to year, and make very attractive plantings along walks or in clusters. Price, any of following varieties, 35c each; 3 for \$1.00; \$3.60 per dozen.

BRIDESMAID—Massive white heads having a large crimson-carmine center. One of the most attractive of the varieties.

PANTHEON—A variety being medium in height. Color bright salmon-pink, with lighter shadings and dark crimson eye.

VON LASSEBURG—Purest white in cultivation. Largest of whites.

R. P. STRUTHERS—Rosy carmine with claret-red eye.

INDIAN CHIEF—Clear purple red; rich shade. Fine for rockeries.

MISS LINGARD—The favorite white flowering variety, coming into bloom early in May, flowering throughout the season.

OBERGARTNER WIT-TIG—The color of this attractive Phlox is bright magenta, with crimson-carmine eye.

ATHIS—Lively shade of deep pink, and a light halo around its aniline-red eye.

VON HOCHBERG—The best of all dark colored Phlox. Color solid rich velvety crimson.

LOTHAIR—Bright crimson.

Hardy Phlox Pantheon.

Hardy Hedges

NEW RED BARBERRY—Rich, lustrous, bronzy red foliage, changing in fall to vivid orange, scarlet and red. Similar to green leaved variety but more brilliant and effective. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. \$1.00 each; 6 for \$5.00; 12 for \$9.00.

JAPAN BARBERRY—Valuable as specimen plants or for hedges. Drooping yellow flowers followed by bright red berries. Foliage changes to fiery crimson in autumn. This variety, unlike the common Barberry does not harbor wheat rust and is entirely harmless to grain crops. 25c each; 3 for 72c; 12 for \$2.40; \$10.00 per 100. Large size, 35c each; 3 for \$1.00; \$3.50 per dozen; \$17.50 per 100.

CALIFORNIA PRIVET—Cheaper than fences, far more beautiful. The most popular ornamental hedge plant. Price, by express. 18-inch 2-year-old plants, 75c doz., \$6.00 per 100. (25 and 50 at 100 rate.) Hedge plants are set 6 inches apart, viz.: a 50-foot hedge requires 100 plants.

Hardy Forget-Me-Not.

LUPINE—Flowers deep blue on long spikes. Blooms in May and June. 30c each; 3 for 85c; \$2.88 per dozen.

RED HOT POKER (Tritoma)—Grows in sunny location. Large spikes of orange flowers. 30c each; 3 for 85c. Larger plants, 60c. Extra large plants, \$1.25.

HARDY CANDYTUFT—Evergreen foliage with pure white flowers. Eight to ten inches high. 28c each; 3 for 63c; 12 for \$2.10.

LIATRIS—Rich purple flowers on long narrow spikes. Very odd. 32c each; 3 for 90c.

MERTENSIA—Drooping clusters of light blue flowers. Blooms in early spring. 26c each; 3 for 74c; \$2.50 per dozen.

HARDY HIBISCUS—Plants four feet high, blooms six inches wide, colors white, pink and crimson. 38c each; 3 for \$1.08.

VERONICA (Speedwell)—Bright blue flowers on long spikes. Blooms entire summer and fall. 24c each; 3 for 68c; 12 for \$2.30.

Hardy Sweet William.

NURSERY DEPARTMENT

Mammoth Size Double Pearl Tuberoses

Tuberose

Culture—One of the most fragrant and popular of the summer flowering bulbs. May be started early in hotbeds or pots or planted in open ground after first of May. The bulbs we offer are not to be compared with cheap ones—ours are superb bloomers. Soaking them over night in lukewarm water promotes rapid growth. 5c each; 50c dozen; \$3.25 per 100, postpaid (for postage add 5c each or 25c dozen).

Hardy Japanese Garden Lilies

No garden should be without some of these Queens of Flowers. They are perfectly hardy and can be planted in the late fall or early spring. Very seldom they are ready for delivery before early part of December. Plant 6 to 8 inches deep, in sour soil, putting a little sand under the bulbs and dusting them with powdered sulphur and some lime, will insure success.

AURATUM (Goldbanded Lily)—Large, graceful flowers, composed of six petals of a delicate ivory-white, thickly studded with chocolate-crimson spots and striped through the center by a golden yellow band. 35c each; \$3.50 per dozen.

Japanese Lily, Auratum.

stance, with a greenish band running through the center of each petal. 40c each; \$4.50 per dozen.

SPECIOSUM RUBRUM, or **ROSEUM**—White, heavily spotted with rich, rosy-crimson spots. 40c each; \$4.50 per dozen.

TIGRINUM SPLENDENS (Improved Tiger Lily)—The grandest of the Tigers. Very large pyramids of flowers, orange red, spotted with black, 3 to 5 feet high. Blooms in August. 25c each; \$2.50 per dozen.

TIGRINUM FLORA PLENA (Double Tiger Lily)—Double bright orange-red flowers spotted with black. Blooms in August. 30c each; \$3.00 per doz.

HENRYI (The Yellow Speciosum)—A new rare and very beautiful Lily from China. It is very hardy, a strong healthy grower, and without doubt one of the best Lilies for garden culture and most effective for massing. The flower stalks, 3 to 5 feet high, carry 5 to 8 large flowers each, the color, a rich apricot-yellow, lightly spotted with brown, and the shape and size of the flowers and the habit of growth has suggested the name "Yellow Speciosum." 40c ea.; \$4.50 per doz.

SPECIOSUM ALBUM—Large white flowers of great substance.

Cinnamon Vines

Perfectly Hardy—Grow in sun or shade, wet or dry, indoors or out. No insects or blight ever troubles. No winter harms. Their abundant blossoms perfume the air for a long distance. No words can describe their delicious fragrance.

For Windows—Plant two on each side. For porches, walks, etc., plant the tubers 8 inches or a foot apart, cover 2 inches. Furnish twine support for the vines.

EXTRA LARGE—2-year old, will make enormous vines in a few weeks. 10c each; \$1.00 dozen, postpaid.

Strawberries

Extra Early Varieties—Charles I and Premier.

Second Early Varieties—Senator Dunlap and Dr. Burill.

Medium Late Varieties—Bun Special, Eaton, Gibson and Wm. Belt.

Very Late Varieties—Aroma, Brandywine and Pearl.

Price on any of the above: 50c doz; 75c for 25; \$1.25 for 50; 100, \$1.75, all postpaid. 1,000, \$10.00 at our store or express collect at customer's station.

Everbearing Varieties—Champion and Progressive. 75c doz.; \$1.00 for 25; \$1.75 for 50; \$3.00 per 100, all postpaid. 1,000, \$17.50 at our store or express collect at customer's station.

Shade and Ornamental Trees

Catalpa Bungei (Umbrella Tree)—5 to 6 ft., \$4.50.

Dog Wood (White)—5 to 6 ft., \$3.50.

Dog Wood (Red)—2 to 3 ft., \$4.00.

Elm, American—8 to 10 ft., \$2.50.

Flowering Crab Bechtels—4 to 5 ft., \$3.00.

Judas Tree—4 to 5 ft., \$2.00.

Maple, Norway—8 to 10 ft., \$4.00.

Maple, Red—8 to 10 ft., \$4.00.

Maple, Silver—8 to 10 ft., \$2.50.

Maple, Sugar—8 to 10 ft., \$3.50.

Maple, Japan Blood Leaf—12 to 18 ft., \$5.00.

Magnolia, Pink—3 ft., \$3.50.

Oak, Pin—8 to 10 ft., \$3.50.

Oriental Plane—7 to 8 ft., \$1.75.

Peach, Double Flowering—4 to 5 ft., \$2.00.

Poplar, Carolina and Lombardy—8 to 10 ft. each, \$1.50.

Poplar, Tulip—8 to 10 ft., \$3.00.

Sweet Gum—8 to 10 ft., \$3.00.

Willow, Golden and Weeping—8 to 10 ft., \$2.50.

SELECTION OF M. & S. EVERGREENS

Arborvitae American, Firs, Balsam and Nordmans. Junipers, Irish and Japanese. Pine, White, Scotch and Austrian. Retinosporas, Plumosa and Plumosa Aurea, Squarosa Veitchii, Spruce, Norway, Colorado Blue, Yew, Drupacea and Fortunis Boxwood. Small trees from \$1.50 to \$2.50. Larger trees, price as to size and variety.

Nut Trees

Almonds, Hard and Soft Shell—4 to 5 ft., \$1.50.

Walnut, American Black—8 to 10 ft., \$2.50.

Walnut, Japan—10 to 12 ft., \$3.50.

Plums

Abundance—Amber, turning to cherry color. Ripens in Aug.

Burbank—Orange-yellow, overlaid with red.

Red June (Japan)—Vermillion-red; flesh light lemon-yellow.

Sultan—Very large in size, deep purplish-crimson in color.

Wickson—Dark crimson-purple. An excellent keeper.

Wild Goose—Large, rich, crimson; productive and profitable.

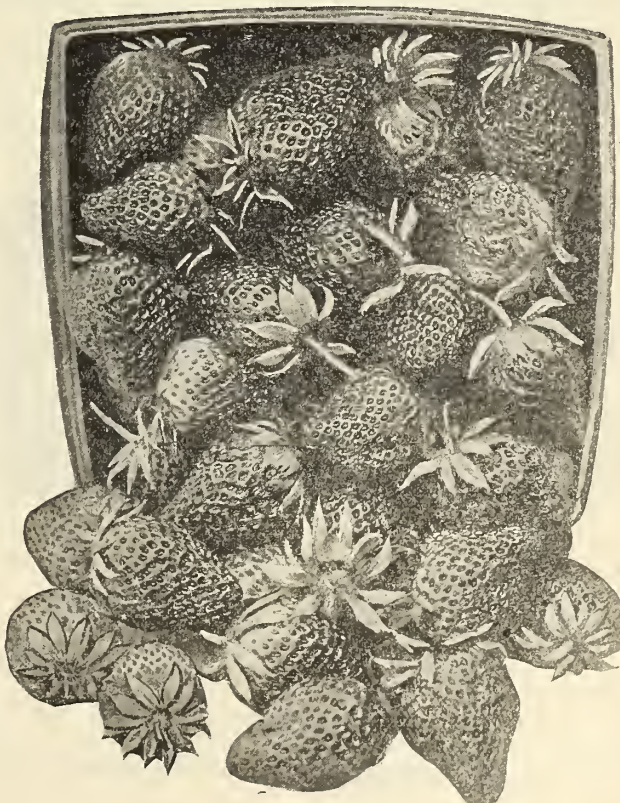

Extra Strong Trees, 5 to 6 feet high, \$1.50 each.

Gooseberries, Blackberries, and Currants

Gooseberries, Downing Green and Houghton Pale Red—50c each; \$4.50 dozen.

CULTIVATED BLACKBERRIES—Popular varieties, 25c each; \$2.00 dozen.

Currants, Black Naples, Cherry, Bright Red, Fay's Prolific, Dark Red and White Grape, 50c each; \$4.50 doz.

TREE SPRAYING, TRIMMING, ETC.

Write for Prices on Larger Quantities.

We are now in position to estimate on and execute work like ornamental tree work, tree surgery, pruning, spraying for insects and fungi diseases, cavity treatment by filling with sectional cement, the treatment of split and weak crotches and limbs by bolting and chains, and cultural treatment.

Sent via Express or Freight Only.

Grape Vines

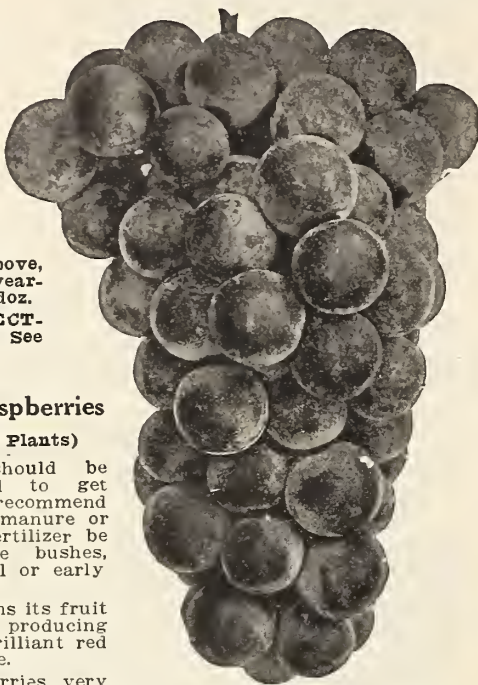

BLACK—Concord, King, Champion, Early Daisy, Wilder Worden.

WHITE—Niagara, Diamond, Triumph, Jessica, Naomi.

RED—Catawba, Caco, Jefferson, Iona.

Any of the above, 50c each. Two-year-old stock, \$5.00 doz.

GRAPE PROTECTING BAGS—See Page 61.

Caco Grape—The Best Red.

Cultivated Raspberries

(Extra Strong Plants)

Raspberries should be carefully staked to get large crops. We recommend that well-rotted manure or other suitable fertilizer be dug around the bushes, either in the Fall or early Spring.

Brilliant—Ripens its fruit early and fast producing bright, glossy, brilliant red berries, handsome.

Cuthbert—Berries very large, measuring 3 inches around; conical; rich crimson.

Columbian—Fruit very large, often an inch in diameter; color dark red, bordering on purple.

St. Regis—Everbearing Raspberries. They yield their first crop of berries in June (the regular season), and yields an equally heavy crop the latter part of August, and continues bearing right up to November.

All the above—25c each; \$2.00 dozen.

Apricots, Nectarines, Peaches, and Quince

Trees such as we furnish will often bear the year after they have been set out.

Crawford's Early—Yellow, with fine red cheek.

Crawford's Late—Greenish-yellow, with dull red cheek.

Elberta—Large, yellow, with red cheek; medium early.

Mountain Rose—White, with red cheek; early; freestone.

Oldmixon Free—White, covered with bright red.

Extra Strong Trees, 5 to 6 feet high, \$1.00 each.

Apricots—4 to 5 feet, \$1.50.

Nectarines—5 to 6 feet, \$1.25.

Quince—5 to 6 feet, \$1.50.

TO HAVE FRUIT TREES IN PERFECT CONDITION, SPRAY 3 TO 4 TIMES EACH YEAR.

Standard Pears

Bartlett—Large size, with a beautiful blush; buttery, very juicy; bears early and abundantly.

Flemish Beauty—Large, beautiful, juicy, melting; good bearer.

Howell—Large, light, waxy yellow, with a fine, red cheek; handsome, rich, aromatic flavor. An early and profuse bearer.

Keiffer—While not of the best quality, properly ripened it is the very best for canning and preserving.

Lawrence—Fruit medium, canary-yellow, sweet, good keeper.
Le Conte—Very large, greenish-yellow, handsome; juicy. Early.
Rossney—A large variety of rare merit; ripening in September.
Worden-Seckel—A seedling of the Seckel. Equal in quality to its famous parent, but larger; fruit keeps well.

Any of the above extra strong trees, 5 to 6 feet high, \$1.75 each.
Dwarf Pears—3½ to 4½ feet, \$1.50.

Apples

Baldwin—Large, roundish; deep bright red; very productive; handsome fruit.

Ben Davis—Large, handsome, striped; productive; a late keeper.

Grimes' Golden (Grimes' Golden Pippin)—Of the highest quality; deep golden yellow, aromatic, spicy and rich. Tree vigorous and productive.

Maiden's Blush—Rather large and smooth, evenly shaded red or blush on a clear, pale yellow ground; with a pleasant flavor.

Wine Sap—Medium size, dark red; of rich flavor, very productive; late.

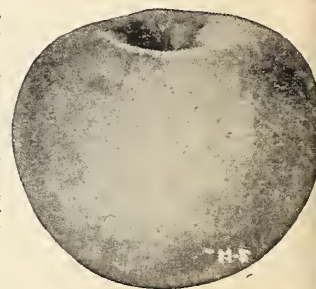

Red Astrachan—Large, roundish, deep crimson, overspread with a thick bloom; juicy, rich, acid, very productive.

Rhode Island Greening—Large, greenish-yellow; tender, juicy and rich, with rather an acid flavor; an abundant bearer.

Smokehouse—Roundish oblate; yellow, shaded and striped with bright red; flesh yellowish; very productive.

Crab Apples.

Any of the above in 5 to 6 ft. trees, \$1.25 each, \$12.00 dozen.

Cherries

Black Tartarian Cherry—Very large, purplish black; half tender; flavor mild and pleasant. Tree a remarkably vigorous, erect and beautiful grower, and an immense bearer. Ripe last of June and beginning of July.

Governor Wood—Yellow; Florence, Red; English Murillo, red tart.

5 to 6 ft. trees, \$1.75.

Garden Guide

A complete Handbook for the Amateur Gardener
Fourth Edition

384 pages and over 275 teaching illustrations with beautiful cover in four colors.

Covers every step from spading the ground to preserving the harvest.

Price, cloth bound, \$1.50; postpaid, \$1.65.

Paper bound, \$1.00; postpaid, \$1.10.

Black Tartarian Cherries

Books on Gardening, Fruit Growing, Landscaping, etc. Complete circular sent on request.

Do not neglect to feed the plants in your garden; fruit trees, berries, etc., as well. **WIZARD BRAND SHEEP MANURE** is the ideal food, and it will also add the much needed Humus to your soil.

Diseases: Many mildews, blights, fungus troubles, and to kill worms, caterpillars, beetles, chewing insects (a combination dust).	No. 4 Pomodust. 35c lb.	No. 5 D-20 Dust. 1 lb. 50c
A good dust to use to keep up general good health, prevent disease and attacks of insect Pests.	No. 6 All-in-One Dust. 60c lb.	Niagara Hand Duster, \$1.25. Parcel Post, \$1.35

ARSENATE OF LEAD (Sherwin Williams)—Direction for using in each package. 1 lb. 30c; 4 lbs. \$1.00; 100 lbs. \$20.00.

ARSENATE OF CALCIUM—1 lb. 30c; 4 lb. \$1.00; 100 lb. \$15.00.

ARSENATE OF ZINC—1 lb. 30c; 4 lbs. \$1.00; 100 lbs. \$22.00.

APHINE—For destroying aphids, green fly, thrip, red spider and other greenhouse and outdoor insects. ½ pt. 40c; pt. 65c; qt. \$1.00; gal. \$3.00.

ANT FOOD (McGregors)—An amazing discovery for killing ants, cockroaches, wood lice, snails and certain other insects. ½-lb. can 50c; 1-lb. can \$1.00; 5 lbs. \$4.75; 10 lbs. \$9.00; 25 lbs. \$21.85; 50 lbs. \$42.50; 100 lbs. \$80.00.

ANSECT (Rose Bug Destroyer)—Dilute one part in 30 parts of water. Do not spray in bright sunlight. Gal. \$6.00; ½ gal. \$3.25; qts. \$1.75; pts. \$1.00; 4 oz. 30c.

ATOMIC SULPHUR—1 lb. 30c; 5 lbs. \$1.00; 10 lbs. \$1.75; 25 lbs. \$3.25; 50 lbs. \$5.00; 100 lbs. \$9.00.

BEE BRAND INSECT POWDER—Kills all kind of bugs. Can be used in garden and house, on poultry and animal, etc. Pkg. 15c, 35c and 70c, postpaid. Duster for same, 15c.

BORDO FUNGI (Same as Bordeaux Mixture) (Sherwin Williams)—Full direction with each package. 1 lb. 35c; 4 lbs. \$1.00; 100 lbs. \$15.00.

BLACK FLAG INSECT POWDER—Best for all kind of insect pest in house and garden; three sizes. 15c, 35c, 75c, postpaid.

BLACK LEAF 40c—Per 1 oz. bottle 35c; \$1.25 per ½ lb.; 2 lbs. \$3.50; \$13.50 per 10 lbs.

BUG DEATH—Used on potatoes, cucumbers, squash and currants, powerful insecticide. Per lb. 20c; 3 lbs. 40c; 5 lbs. 60c; 12½ lbs. \$1.40; 100 lbs. \$9.00.

CARBON DISULPHIDE—For insects which attack roots of trees, grapes, etc. Also good against moles. 75c per 1-lb. bottle.

DRY LIME SULPHUR (Sherwin Williams)—Full directions with each package. 1 lb. 30c; 5 lbs. \$1.25; 10 lbs. \$2.55; 25 lbs. \$3.75; 50 lbs. \$6.50; 100 lbs. \$11.50.

DRY TOMIC—Same as Atomic Sulphur, but in powder form. 4 lbs. 60c; 8 lbs. \$1.10; 200-lb. barrel, \$26.50.

FISH OIL SOAP—30c per lb.; 5 lbs. \$1.25; 25 lbs. \$4.75; 100 lbs. \$15.00.

FORMALDEHYDE—A valuable solution for the farmer, best thing for dipping potatoes to prevent scab, invaluable for killing weevil in grain, fine as a household disinfectant (Liquid). Price, 1 lb. bottles, 65c; 5 lb. bottles, \$2.25; 9 lb. bottles, \$3.25.

GRAPE DUST—For mildew and blight. Per 5 lbs. 75c.

HELLEBORE—Per ¼ lb. 25c; 40c per ½ lb.; 1 lb. 70c; \$3.00 per 5 lbs.

KAYLOX—Is an insecticide and fungicide combined in powder form, it mixes readily with water, is very effective against all leaf eating insects.

½ Pound \$0.30 5 Pounds \$2.50
1 Pound55 10 Pounds 4.50

KAYSO—A combined casein spreader and adhesive to be added to spraying material. 2 lbs. 50c; 10 lbs. \$2.10; 50 lbs. \$9.50; 100 lbs. \$18.00.

LEMON OIL INSECTICIDE—Per ½ pt. 35c; 60c per pt.; qt. \$1.00; \$1.75 per ½ gal.; gal. \$3.00; \$12.00 per 5 gal.; 10 gal. \$22.50.

LIME SULPHUR (Liquid)—1 qt. 40c; 1 gal. \$1.00; 5 gals. \$3.00; 10 gals. \$5.00; 50 gals. \$12.00.

MELROSINE—An efficient Rose Bug remedy. A powerful and highly concentrated insecticide, used as a spray when diluted with from 20 to 25 times its bulk of water. Per 6 oz. 50c; \$1.00 per pt.; qt. \$1.75; \$3.25 per ½ gal.; per gal. \$6.00.

NICO-FUME (Liquid)—¼ lb. 75c; \$2.25 per lb.; 4 lbs. \$8.00; 8 lbs. \$15.00.

NICO-FUME TOBACCO PAPER—Per box 24 sheets, \$1.25; \$5.50 per 144 sheets; 288 sheets, \$10.00.

NICO-FUME TOBACCO POWDER—1 lb. \$1.25; 5 lbs. \$4.75; 10 lbs. \$8.50.

PARA DICHLOROBENZENE or **CRYSTAL GAS**—Controls peach borers, use in June and September, 1 oz. to each tree. 1 lb. 50c; 5 lbs. \$2.00; 10 lbs. \$3.50; 25 lbs. \$7.50; 50 lbs. \$14.00.

PARIS GREEN (Sherwin Williams)—Per ¼ lb. 15c; 4 lbs. pkg. \$1.50; 14 lbs. kits \$4.50. Price subject to change.

PESTROY (Sherwin Williams)—A combination spray for fruits and vegetables, a mixture of Arsenate of Lead and Bordeaux, very effective, full direction with each package. ½ lb. 25c; 1 lb. 40c; 4 lbs. \$1.25; 100 lbs. \$20.00.

PYROX—Kills bugs, prevents blights and rots, and improves foliage. Ideal for the home gardener and truck farmer. Use Pyrox especially for potatoes, other vegetables, small fruits and rose bushes. 1 pound makes 4 to 5 gallons of spray; 11 pounds will spray an acre of potatoes once. 1 pound jar 50c; 5 pound drum \$1.75; 10 pound drum \$3.00; 25 pound drum \$6.25; 50 pound pail \$10.75; 100 pound drum \$17.00; 300 pound barrel \$48.00.

ROACH POWDER (Germo)—Powerful and effective, eliminates roaches, waterbugs and other insect pest. ¼ lb. 25c; ½ lb. 50c; postpaid, 30c and 60c.

SCALECIDE—Used for the destruction of the San Jose Scale. Dilute at the rate of one gallon Scalecide to 15 gallons water. Scalecide does not clog nozzles, hose or pump, and is pleasant to use. Spray during the winter or early spring when the trees are dormant. Qt. 75c; gal. \$1.75; 5 gals. \$6.25; 10 gals. \$10.60; 15 gals. \$13.50; 30 gals. \$26.00; 50 gals. \$38.00.

SULFOCIDE—A better summer spray. A concentrated liquid sulfur fungicide. Controls scab, brown rot, blight, mildew and rust on vegetables and fruit. Dilute 1-200. 1 pt. 70c; 1 qt. \$1.00; 1 gal. \$2.75; 5 gals. \$8.75; 10 gals. \$15.00; 30 gals. \$39.00; 50 gals. \$60.00.

SULPHUR CANDLES—15c each; per doz. \$1.50.

SULPHUR (Flowers)—Per lb. 15c; 5 lbs. 60c; 10 lbs. \$1.00; 25 lbs. \$2.25; 100 lbs. \$6.00.

SULPHO TOBACCO SOAP—Destroys insects on plants and animals. Pkt. 15c and 25c; 1 lb. 40c, postpaid.

THANATUS—For all soft-bodied insects. ½ pt. 35c; 1 pt. 60c; qt. \$1.00; gal. \$3.50.

TOBACCO DUST (Special Dusting or Fumigating)—10c per lb.; 5 lbs. 30c; 20 lbs. \$1.00; 100 lbs. \$4.50.

TOBACCO STEMS—Per lb. 5c; 50 lbs. \$1.50; 100 lbs. \$2.50.

TREE TANGLEFOOT—Per lb. 60c; \$2.75 per 5-lb. can; 10 lbs. \$5.25; 25 lbs. \$11.00.

TREE WOUND PAINT—Qt. 85c; gal. \$2.50.

VOLCK is one of the most powerful insecticides known. Kills Aphids, Red Spider, Mealy Bug, Scale, Caterpillars and most all insects, and prevents mildew and rust. Volck does not burn; it is safe to use. Highly recommended to florists. Send for special circular. Price, ½ pt. 50c; 1 pt. 75c; 1 qt. \$1.00—all three postpaid. 1 gal. \$2.75, postpaid \$3.00.

VERMINE—For eel, cut worms and wire worms, working in the soil. It can be applied to all vegetation. ½ pt. 40c; pt. 65c; qt. \$1.00; gal. \$3.00.

WEED KILLER—SEE PAGE 54.

WILSON'S O. K. PLANT SPRAY—For 20 years the leading insecticide of America, for inside and outside spraying. For aphids, thrip, mealy bug, scale, rose bugs and many other insects. The only insecticide recommended by the officers of the Garden Club of America.

Controls "BROWN PATCH", "DAMPING-OFF" and SEED-BORNE DISEASES of

Grains, Field and Forage Crops, Vegetables,
Corn, Potatoes and Flowers

Better Flowers and Finer Vegetables Grow from Seeds Disinfected Against Diseases with Semesan

THE SEMESAN Disinfectants have revolutionized seed disease treatment and represent the most remarkable advancement of the century in scientific agriculture. Trained observers testify that they not only successfully control seed, plant and soil diseases, but also exert a stimulatory effect upon the growth of seedlings and plants with a consequent increase in yield and improvement in quality of the crops.

SEMESAN—The only chemical which can be applied in either the liquid or convenient dust forms to prevent or control effectively a most diversified variety of parasitic diseases and fungoid growths borne by seeds, bulbs and seed pieces, as well as many of those which infest the soils. Semesan is harmless to seed and plant life but thoroughly sterilizes practically all kinds of seed pieces against the disease germs or fungous spores that adhere to the seed coats or exist internally. It is easily applied, requires no laboratory equipment and is safe for the user to handle.

Semesan-Treated Cotton Seedlings Resist "Damping-Off"

Among the important diseases which Semesan prevents or controls are "Damping-Off" of seedlings or cuttings, and "Brown Patch" of grass lawns and golf greens. Semesan will also effectively disinfect against the common corn and potato diseases but for large quantities of seed corn we recommend Semesan Jr. and, for large plantings of potatoes, Semesan Bel. Semesan is just as effective for flower and nursery seeds or plants as for cleaning the disease organisms from field, forage, grain and vegetable seeds. Ask for Vegetable, Flower, Nursery, "Damping-Off," and "Brown Patch" Booklets.

DU PONT SEMESAN is endorsed by the U. S. Department of Agriculture and the Green Section of the U. S. Golf Association as the best disinfectant and fungicide for the prevention and cure of "Brown Patch."

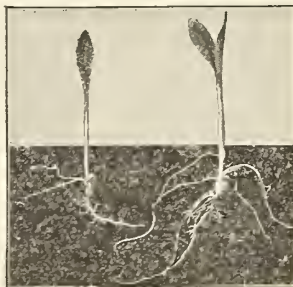

Semesan has been successfully used during the past two years for the perfect maintenance of many of America's finest golf courses and estate turfs. It is favored by prominent greenkeepers and golf course architects. We can make immediate shipments.

A booklet that completely describes the nature of "Brown Patch" and its prevention or cure will be sent on request.

SEMESAN JR.—Field and sweet corn crops throughout the United States annually suffer an average reduction of 10% because of disease attacks and in individual cases the loss reaches 50% or more. Dust treatment with Semesan Jr. is the most effective means of preventing and controlling such common corn diseases as the ear, root and stalk roots.

Semesan Jr. is easily applied to corn seed by the convenient dusting method. It increases germination; promotes both the root and foliage development of the seedlings; resists attacks of soil-borne organisms and commonly enlarges crop yields by 20% to over 40%.

The illustration shows two field corn seedlings nine days after planting in the same box. The seed of the right-hand one had been disinfected with Semesan Jr., while the other was untreated. Notice the vastly superior root system, sturdier stalk and larger leaves, resulting from the Semesan Jr. treatment, which will continue to be apparent in the harvest results. Ask for special Semesan Jr. pamphlet describing crop results and method of application.

Semesan Jr. Produces Better Corn Seedlings

SEMESAN BEL.—This is the new instantaneous dip treatment for both white and sweet potatoes that is fast replacing all formerly practised methods of disinfection. Semesan Bel is also equally useful for the disease treatment of similar roots and tubers of other vegetables and flowers. It is quickly applied as a whitewash-like dip to either whole or cut seed pieces and does not harm the seeds, but actually promotes sprouting, repels soil-borne organisms, influences earlier maturity, increases yields from 25 to over 50 bushels per acre and effectively controls the common seed-borne diseases.

Commercial results in the greatest potato growing districts of the United States, such as Maine, Idaho, Kansas, Texas, Florida and New Jersey, proves that Semesan Bel is far superior to mercuric bichloride, copper sulfate and formaldehyde in ease and simplicity of application as well as effectiveness for controlling practically all of the common potato infections. Moreover, it exerts a stimulatory effect upon the plant growth by removing the disease handicaps and repelling the attacks of soil-borne organisms so that yields are greatly increased. Ask for Semesan Bel booklet.

Harvesting Semesan Bel-Treated Potatoes in Idaho

PRICES FOR SEMESAN DISINFECTANTS

The Semesan Disinfectants are regularly packed in the following sizes:

Prices for Du Pont Semesan	
2 ozs.	\$.50

50 lbs.	72.50
100 lbs.	140.00
200 lbs.	280.00
350 lbs.	472.50

Semesan Jr. is also packed in four-ounce tins, the price of which is 60c each.

SHIPMENTS OF SEMESAN DISINFECTANTS

Under the existing Postal Regulations, the Semesan Disinfectants are classified as poisonous substances and are therefore excluded from the mails. Shipments of them can be made only by express or freight.

Colgate, Md., Dec. 24, 1926.

Gentlemen:—

The Semesan that I purchased from you in the spring gave me wonderful results. I was always troubled with maggots getting into the stalk of stringless beans and injuring my crops, but I find by treating the seed with Semesan you can not only control this pest but you will get stronger vines and more beans.

Semesan was also a help to me on onions which I planted in the fall for green onions. It stopped them from dying off, which was caused by this same maggot that attacked the beans. Would also say that it helped the germination of all my garden seeds.

Yours truly,

FRED. ENDRESS.

Baltimore, Md., Dec. 22, 1926.

The Meyer Seed Co.,

32 Light St., Baltimore, Md.

Gentlemen:—

It is with great pleasure that I inform you that all of the vegetable seeds and flower seeds which I purchased from you last year turned out wonderfully well. The results were exceptional.

Again I thank you for the valuable advice which you so freely gave.

Very truly yours,

FRED. H. JACKSON.

DU PONT SEMESAN SEED DISINFECTANTS MEET PRACTICALLY EVERY NEED. ASK FOR BOOKLETS

CYANOGENAS

REG. U.S. PAT. OFF.

FOR KILLING RODENT and INSECT PESTS

Cyanogas Calcium Cyanide is a slate-gray material that gives off hydrocyanic acid gas upon exposure to the air. This makes it extremely easy to apply. The gas is deadly to the rodent and insect pests and will kill them almost immediately. None can escape it. There is no danger to persons handling Cyanogas if reasonable care is used. Can be had in 1-lb., 5-lb. and 25-lb. tins; or in 100-lb. drums.

Cyanogas A—Dust

For RATS and MICE:

Pump dust in open rat hole with Cyanogas duster. Plug all holes from which dust is seen to emerge. Continue pumping until reasonably sure that the dust has permeated the rat warrens. Remove duster nozzle and block hole. Treat next open hole in same manner. Continue until all holes have been plugged.

For WOODCHUCKS (GROUNDHOGS):

Place heaping tablespoonful of Cyanogas A-Dust in the burrow and close carefully.

For MOLES:

Poke holes in mole runway at intervals of four or five feet with a pointed stick and pour about two teaspoonfuls of Cyanogas into the runway, closing the hole after. Cyanogas can also be pumped into the mole runway with a duster—this is the better method.

For GARDEN ANTS:

Place a pinch of Cyanogas A-Dust in the opening of the ant nest sufficient to close. A pencil or pointed stick may be used to enlarge the opening.

For FLEAS, in Yards and Open Buildings:

Stir up ground with rake. Scatter material with a sifter top can at rate of $\frac{1}{2}$ pound to 100 square feet.

For CHICKEN MITES (in Chicken Houses):

Scatter material with sifter top can in nests, where mites breed. Chickens must be kept out of house for five or six hours while fumigant is at work. House must then be thoroughly ventilated before allowing chickens back in.

For SPARROWS, STARLINGS and PIGEONS:

Dust roosting area with Cyanogas duster when birds are at roost.

For BEES WITH FOUL BROOD:

Place two teaspoonfuls in the hives.

For ORCHARD DUSTING:

For control of rosy apple aphid and apple leafhopper. Mix Cyanogas A-Dust with an equal amount of sulphur dust and dust trees on calm warm days.

ENCLOSED SPACE FUMIGATION:

For Fleas, Wax Moths, Bed Bugs, Clothes Moths and Cockroaches. Spread over floors on dry newspapers, one-eighth inch thick. Apply at rate of two pounds to each 1000 cubic feet of space. Allow fumigation to continue from 12 to 24 hours. Close house or building securely. Post warnings. Ventilate building thoroughly before entering after fumigation. Damp newspapers may be placed around the room, but not in contact with the dust to hasten liberation of the gas, if additional moisture is needed. Humans must not be permitted to enter any part of the building which is being fumigated. Cyanogas must not be used for fumigating except where the work is performed by or under the supervision of professional or licensed fumigators.

Cyanogas G—Fumigant

For GREENHOUSE FUMIGATION:

Send for special leaflet on "GREENHOUSE FUMIGATION WITH CYANOGENAS." Unusually effective. Greenhousemen using Cyanogas report saving of from 75 to 90 per cent on their fumigating costs and 100 per cent kill of aphid. A five-pound tin will fumigate 520,000 cubic feet at a cost of \$2.50 plus a slight additional charge for express shipment. Sprinkle at rate of $\frac{1}{4}$ ounce per 1000 cubic feet and close house for the night. Temperature 55 to 70 degrees F.

Cyanogas Dusters

Two general types of Cyanogas Dusters for rodent control. Special hand duster for small infestations, and Foot Pump, small, for large infestations. Used especially for rats and moles.

Prices—Special Hand Duster, \$1.40; Foot Pump, small, \$4.75. These two types of duster are shown below.

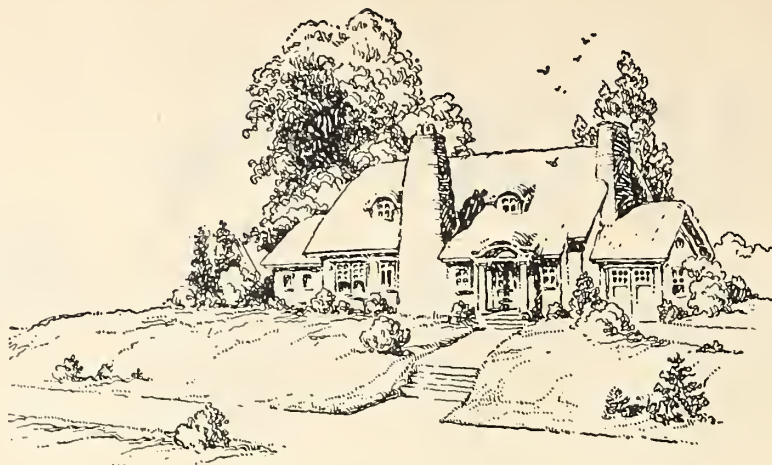

PRICES OF CYANOGENAS

"A" and "G" Dust—1 lb. 60c; 5 lbs. \$2.50; 25 lbs. \$8.50; 100 lbs. \$25.00.

FERTILIZERS AND PLANT FOODS

Agents for
OBERS FERTILIZERS

ADCO—Don't waste garden rubbish. Turn it into manure with ADCO. ADCO is a powder which, mixed with almost any non-woody vegetable waste, and kept wet, gradually converts it into manure. 50 lbs. of ADCO make a ton of manure. Price, 150 lbs. \$10.50; 25 lbs. \$2.00.

ASPARAGUS SALT—Applied in spring 600 to 800 lbs. per acre. for destroying weeds. 56 lb. \$1.25; original sack, 140 lbs. \$2.25.

ALUMINUM SULPHATE (For Rhododendrons and Azaleas). 1 lb. 15c; 2 lbs. 25c; 5 lbs. 60c; \$6.25 per 100 lbs.

BLOOD (DRIED)—For indoor and outdoor culture of flowering plants, like roses, carnations, etc., its chief element being nitrogen. Fine for ferns. 1 lb. 15c; 5 lbs. 60c; \$1.00 per 10 lbs.; 25 lbs. \$2.00; \$3.75 per 50 lbs.; 100 lbs. \$7.00; \$12.00 per 200 lbs.

BON-ARBOR, the Ideal Food and Tonic for Household Plants and Home Flower and Vegetable Gardens—Clean, Safe, Odorless, Effective. It is immediately soluble in cold water, therefore all the properties are available to plant life from the moment of application.

1/4-lb. pkg., making 15 gals., postpaid, 35c
1-lb. pkg., making 30 gals., postpaid, 60c
5-lb. pkg., making 150 gals., postpaid, \$2.50

PURE BONE MEAL (3-50)—Splendid article for building up worn-out soil, lawns, etc. 1 lb. 6c; 10 lbs. 50c; 25 lbs. \$1.25; 100 lbs. \$3.25; 167-lb. bag \$4.75; ton \$46.00. Quick acting.

RAW BONE MEAL (4 1/2-48)—Free from acid. Unusually rich in nitrogen and phosphoric acid, the two principal plant foods. We recommend this especially for greenhouses or any purpose where a high-class slow acting fertilizer counts. 1 lb. 6c; 10 lbs. 50c; 25 lbs. \$1.25; 100 lbs. \$3.50; 167 lbs. \$5.00; ton, \$50.00. Slow acting.

BONE FLOUR—Finely pulverized and bolted. Effective immediately. For rose growing this cannot be excelled. Rich in phosphoric acid and ammonia. Apply 600 lbs. per acre. 5 lbs. 50c; 10 lbs. 85c; 25 lbs. \$1.50; 50 lbs. \$2.75; 100 lbs. \$5.00; 200 lbs. \$8.50.

CALCIUM NITRATE—A new product which has as much nitrogen to the 100 lb. as Nitrate of Soda, and in addition has 25 per cent of lime. (Special circular and price in quantities on request.) 1 lb. 15c; 5 lbs. 50c.

"F. & I." is a remarkable plant food with combined fertilizing and insecticidal properties. Its beneficial effect on growing plants is simply astonishing. Prices: 2000 lbs. \$40.00; 500 lbs. \$11.00; 100 lbs. \$2.50; 50 lbs. \$1.50; 25 lbs. \$1.00; 10 lbs. 45c; 5 lbs. 25c.

INSECTICIZER—A quick action fertilizer and insecticide. Healthier plants result from its use. 5 lbs. 30c; 25 lbs. \$1.25; 100 lbs. \$3.00; ton \$55.00.

FLEURETTE—A Liquid Plant Food. Makes strong and rapid growth. To be diluted with water as per directions. 1/2 pt. 30c; 1 pt. 50c; 1 qt. 90c; gal. \$3.00. Not mailable.

LAND PLASTER—Intensifies the color of roses, other flowers as well. Used for top dressing newly plowed land prior to harrowing; also for sweetening the soil on lawns and fields. Apply 1,000 to 1,500 lbs. per acre. 40c for 10 lbs.; 25 lbs. 60c; \$1.00 for 50 lbs.; 100 lbs. \$1.75; \$2.50 for 200 lbs.

LIME (Hydrated or Powdered)—Promotes growth and gives the grass a rich color. Apply one ton per acre on fields, or 1/2 ton on lawns. 5 lbs. 20c; 10 lbs. 30c; 50 lbs. \$1.00; 100 lbs. \$1.75; 500 lbs. \$6.25; 1,000 lbs. \$11.50. Ton prices on application.

MURIATE OF POTASH—Apply 100 to 150 lbs. per acre, usually with other fertilizers. Excellent for potatoes, corn, grains, etc. Analysis, equal to 50 per cent actual potash. 15c per lb.; 2 lbs. 25c; 5 lbs. 50c.

NITRATE OF SODA—Apply 100 to 150 lbs. per acre, mixing with land plaster or other fertilizers to render application more easy. Use only after plants are above ground. If used in liquid form dilute 2 ozs. to 1 gal. of water and do not apply oftener than twice a week. 1 lb. 15c; 50c per 5 lbs.. Price on larger quantities on application.

OBERS'S SOL. AMM. SUPER PHOS. OF LIME 2-8-2—For potatoes and general crop. Ton, \$31.00; bag, \$3.75.

OBERS'S SPECIAL COMPOUND FOR TOBACCO 3-8-3—Ton, \$35.00; 167-lb. bag, \$4.75.

OBERS'S FARMERS' MIXTURE FERTILIZER 1-9-2—To be highly recommended for potatoes and vegetables. 167-lb. bag \$3.50; ton \$27.50.

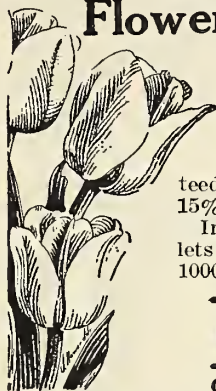

OBERS'S STARKEY TRUCK COMPOUND 4-8-5—The highest grade we have to offer. \$40.75 per ton; 167-lb. bag, \$4.50.

OBERS'S SPECIAL PLANT FOOD 2-9-5—The best fertilizer for general truck farming, such as cabbage, lettuce, spinach, etc. 1 lb. 6c; 25 lb. \$1.25; 50 lbs. \$2.00; 100 lbs. \$3.25; 167-lb. bag, \$4.50; ton, \$34.00.

SULPHATE OF AMMONIA—2-lb. pkgs. 35c; 5 lbs. 75c; 10 lbs. \$1.25; 25 lbs. \$2.00; 50 lbs. \$3.00; 100 lbs. \$5.00; 200 lbs. \$9.50; 1,000 lbs. \$46.50; 2,000 lbs. \$90.00.

SULPHATE OF POTASH—Fine for roses. 15c per lb.; 2 lbs. 25c; 5 lbs. 50c.

New Way to Grow Vegetables, Flowers and Potted Plants!

If you feed your potted plants, flowers and vegetables on Plantabbs each week or ten days they'll grow lots better than any fertilizer will make them grow. Plantabbs are a complete food in odorless tablet form—guaranteed to contain 11% nitrogen (ammonia), 15% phosphoric acid and 20% potash.

Include in your next order. Price: 30 tablets 25c; 65 tablets 50c; 150 tablets \$1.00; 1000 tablets \$3.50.

FULTON'S Plantabbs ODORLESS PLANT FOOD TABLETS

PEAT MOSS GRANULATED—Ideal for mulching azaleas and rhododendrons. 1 pk. 35c; 1/2 bu. 60c; 1 bu. \$1.00. Weight about 14 lbs. per bu. Large bales containing about 5 or 6 bushels, \$4.50. Same article in lump form, which requires more labor to spread, \$3.50 per bale.

SPRINGFIELD ROSE FOOD—An organic fertilizer, containing the vital elements of plant life in scientifically correct proportions to make it an ideal food for roses. Will keep your bushes in splendid condition and produce an abundant crop of perfect blooms. Prices: 10 lbs. \$1.00; 25 lbs. \$2.00; 100 lbs. \$5.00.

STIM-U-PLANT

An All-the-Year Fertilizer for Garden and House Plants. Prices: Trial size, 15c; small size, 25c; 100 tablets, 75c; 1,000, \$3.50. Postpaid.

PHOSPHATE, HIGH-GRADE ACID TENNESSEE OR SOUTH CAROLINA ROCK—16 per cent. Apply 1,000 lbs. per acre. Used for mixing with other fertilizers to increase the phosphoric acid analysis. Price, \$17.50 per ton; 167-lb. bag, \$2.50.

PREPARED FIBRE—Grow your House Bulbs without soil, drainage or saucers. Highly recommended. 1 qt. 10c; 4 qts. 25c; pk. 40c; bu. \$1.15. Parcel post weight, 14 lbs. per bushel.

STERILIZED HUMUS (Leaf Mold)—Fine for lawns, replanting and repotting. 4c lb.; 10 lb. 35c; 50 lb. \$1.50; 100 lb. \$2.50; 500 lb. \$10.00; 1,000 lb. \$18.50, last four sizes delivered. Ton and car load prices on application.

SUMMERS SPECIALLY PREPARED FERTILIZER for lawns, flowers, roses, shrubbery, trees, etc. Used and recommended by both State and Government—A pure organic mixture, and distributed all over the eastern portion of the U. S. A. Prices, 25 lbs. \$2.25; 50 lbs. \$3.50; 100 lbs. \$5.50; 200 lbs. \$10.00.

TOBACCO STEMS—For fumigating, mulching and fertilizing: an excellent top dressing for lawns in winter. 1 lb. 5c; 50 lbs. \$1.50; 100 lbs. \$2.50.

WHITE ROSE PLANT FOOD is scientifically prepared by experts after exhaustive study and experiment. The ingredients are of such a nature that the plant is supplied with food during all stages of its growth. Packed in the following sizes: 1-lb. pkg. 25c; 5-lb. pkg. 75c; 10-lb. pkg. \$1.25; 25-lb. bag \$2.50; 50-lb. bag \$4.00; 100-lb. bag \$6.50. If wanted by parcel post, include postage.

WOOD ASHES (Canadian Unleached Hardwood Ashes)—High in potash. Excellent for roses, grass, etc. Apply in early spring or late fall. 1,000 lbs. to acre. 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.00; 100 lbs. \$2.50.

Lincoln Wren House

This attractive Log Cabin is made of wood tinted a soft brown color that attracts the wrens. It is equal in appearance and service of houses selling from \$2.50 to \$7.00. And yet because we ship it to you knocked down—in a form that any child can easily put together we are able to offer it at the attractive price quoted below. The demand for an attractive house is ever present, and the Wren is the popular bird around the grounds as its song is melodious and flute-like and their ways are very amusing. They destroy large numbers of obnoxious insects. Price, \$1.00, postpaid.

BLUEBIRD, MARTEN or WOOD PECKER HOUSE—\$1.50, postpaid.

CLAY WREN HOUSES—15c. If to go by parcel post, add 10c.

10 quart	4.45
12 quart	4.90
16 quart	5.40

No. 17 Dry Powder Duster

Used extensively for dusting Paris Green, Arsenate of Lead, Arsenate of Calcium, Pomo Dust, all in one, etc. Made of heavy tin, nicely painted. Reservoir holds over one quart of

powder, or four pounds of Paris Green. The spray is blown out by a fan, operated with gear wheels, which are machine cut and therefore run smooth and easy. An agitator provides a constant flow of powder, with a gauge for regulating the amount of powder to be used. Will cover two rows at will of operator. Can also be used for tree spraying by connecting tubes. Full instructions accompany each duster. Weight, empty, 5 lbs. Shipping weight 10 lbs. Price, \$11.00.

Savage Dry Powder Duster

Similar to above, but has several improvements. Feed lever can be adjusted from 1 to 20 pounds per acre, which is a wonderful improvement over any duster made. Weight—Empty, 9½ lbs. Shipping weight, 14 lbs. Hopper—Capacity, 7 to 10 lbs. of poison, depending on density.

Full directions for operating with each Duster. Price, \$20.00. Send for special descriptive circular.

ATLAS NON-POISONOUS WEED KILLER

PATENTED

1 qt. 75c; 2 qts. \$1.25; 1 gal. \$2.00; 5 gals. \$8.00; 30-gal. drum \$37.50; 50-gal. \$55.00.

M. & S. SPRAYING APPARATUS—Continued

RUBBER PLANT SPRINKLERS—They can be used for sprinkling plants, cut flowers, etc., also for dampening clothes, and for disinfecting purposes.

No. 28a—8 oz. angle neck. See Fig. 3. \$1.00. Parcel Post weight, 1 lb.

Fountain Sprinkler

Made of Heavy Brass.

Easily moved over the lawn without turning off the water. The mist-like spray is a veritable "thing of beauty." Price, \$1.00, postpaid.

Half-Circle Sprinkler, 85c, postpaid.

Adjustable Rain-Drop Lawn Sprinkler

FOR UNIVERSAL USE

For watering along the walk or property line it is adjusted as shown in this illustration. It will throw the water away from the walk and keep it dry while wetting the curb or lawn.

Where it is desired to throw water to a distant point, the rose top can be removed and hose nozzle put in its place and adjusted to throw the water where you want it.

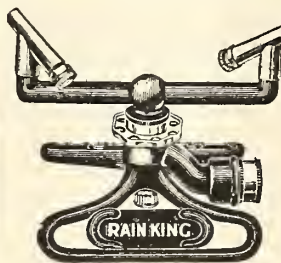

Used as a Fountain Spray it will give a spread of twenty to thirty feet, according to the water pressure. The illustration above show the Rain-Drop as adjusted to this use. The construction of the rose spray is such as to break up each stream into fine molecules and produce a fine rain drop effect that gives the spray its name.

No Puddles—No Dry Spots, but an even gentle rain drop that soaks into the ground and keeps the lawn evergreen.

The Rose Spray—The rose top can be removed and attached to hose for spraying flowers, shrubs, etc., or for washing the car.

Durability—The rose top is made of heavy sheet brass and will not split and the base is made of pressed steel and will not break.

Price complete, \$1.75, postpaid.

Standard Rain King Sprinkler

Price, \$3.00, postpaid.

GIANT RAIN KING—Like Standard, but is four feet high and has four nozzles. \$12.50; postpaid, \$12.75.

Dayton Sprinkler

This Sprinkler is adjustable at will from bell-shaped spray or full stream, half or full circle, 15 to 80 feet in diameter. It covers four times the area of any sprinkler its size. Instead of spraying in a continuous circle, it sends the water in one direction and slowly rotates, thus covering every inch of ground evenly. Price, \$8.00, postpaid.

Rubber Hose, Reels, Menders, Etc.

M. & S. SPRAYER NOZZLE—Sprinkles like a watering can, or straight stream. Has automatic shut-off. Price, \$1.50.

HOSE NOZZLES—Combined solid stream and spray. 85c each. (Boston Gem.)

RAIN KING NOZZLE—The best yet, \$1.50.

HOSE MENDERS (Sure Shot)—15c each; \$1.75 per dozen.

HOSE COUPLINGS—Brass, regular size, 25c per pair.

HOSE WASHERS—Rubber, regular size. 10c per dozen.

HOSE BANDS—For ¾, ½ and ¼-inch hose. 5c each; 500 per dozen.

HOSE REELS—Victor all steel cap; 75 ft. Price, \$2.50. (Figure 1.)

No. 10 TUBULAR HOSE REEL—Cap. 100 feet. Price, \$4.00.

No. 20 TUBULAR HOSE REEL—Cap. 150 feet. Price, \$5.00.

Whipcord Molded Braided Garden Hose

The hose we offer is the best. It is guaranteed not to break. **WHIPCORD**—Continuous length braided ¾ in. hose. We can furnish any lengths. We can highly recommend this hose. 17c per foot any length without couplings. Furnished also in ½ inch, 1c per foot less, and ¾ inch, 1c per foot more. 25 feet coupled, \$4.25; 50 ft. \$8.00.

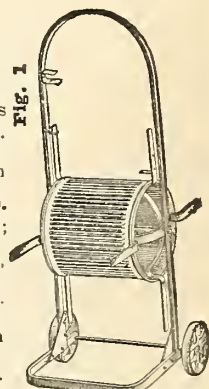

Fig. 1

SKINNER SYSTEM SPRINKLERS

COMPLETE CATALOG ON REQUEST

THE TU-WAY SPRINKLER

Here is a sprinkler that combines two sprinklers in one—exactly the sprinkler that is needed for the small lawn or for odd shaped spaces. Use it as a circular sprinkler and you can cover a circle 30 feet in diameter. And every portion of this circle will be watered uniformly.

Then, by giving the nozzle a half turn, you have a sprinkler that waters only half a circle—

just what you have always wanted for watering the space between the sidewalk and the house, or any other narrow strip of lawn or border. If you have a small lot—say 50 x 100 feet, or less—the Tu-Way Sprinkler will give you astonishing results. Price, \$1.00; postpaid, \$1.10.

THE MOR-RAIN SPRINKLER

As a general, all-round sprinkler, a sprinkler that comes nearer to meeting all requirements for the average size lawn than any other sprinkler made, the Mor-Rain is without question the ideal.

It waters both full and half circles. To change from a complete circle to a half circle, just give the nozzle head a half-turn, and the job is done. No tools of any kind are needed. So simple a child can do it.

It will throw fine drops of water uniformly over a 50-foot circle. But you can regulate the area by opening or closing your faucet. The half-circle head delivers a mist that falls so gently that the lightest soil is not washed away, nor does it injure the tenderest plant. This mist is thrown 18 to 20 feet from the sprinkler, but can be throttled down to only a few feet.

If you have open spaces in your lawn from 50 to 100 feet in diameter, you will do well to choose Mor-Rain to do your watering. Mor-Rain is built to give years of service. The head and arms are made of brass. The base is of iron and weighs 3 lbs., so that it cannot easily be upset. Attractively painted.

Price, \$3.00; postpaid, \$3.15.

THE ROTO-RAIN SPRINKLER

This is without doubt one of the most wonderful rotating, large area sprinklers that has ever been made. It will throw a fine spray covering as little as a 10 ft. circle, or a full flow that will cover an 80 ft. circle. These changes are instantly made by adjusting the large nozzles.

The large nozzles revolve very slowly, 70 seconds being required to complete the circuit. This insures perfect water-

ing, and promotes a healthy, deep-rooted growth of turf, shrubbery, and flowers.

In addition to the large nozzles, the inner part of the circle is taken care of by smaller nozzles on the "flyer" arms. These "flyer" arms revolve more rapidly than the large nozzles, the speed being regulated to give the most complete and uniform water distribution.

The rugged constructions of Roto-Rain is apparent at first glance. The hose coupling is brass swivel and so located that it is a simple matter to attach the hose. The large nozzles are made of extra heavy brass. Only the most expert mechanics are capable of making these nozzles in accordance with our specifications.

Roto-Rain is 10 inches high and weighs 12 pounds. Recommended water pressure, 35 to 50 pounds. Price, \$15.00, postpaid.

THE LAWN-MIST SPRINKLER

This sprinkler is especially adapted for newly seeded lawns or the most delicate plants. The nozzles break up the water into a cloud of fine mist just as soon as it leaves the pipe. It is the finest spray that can be successfully used outdoors.

The Lawn Mist is ideal for narrow rectangles, small formal gardens, etc. For grass-growing, there is nothing to equal it.

It is 15 feet long, with five clusters of three nozzles each. It covers a strip of ground 16 feet x 20 feet. Not less than 20 pounds pressure is recommended. Mounted on wheel truck. Weighs 30 lbs. Price, \$12.50. Cannot be mailed.

LAWN MIST, JR.—Is 9½ feet long. Four spray clusters of three nozzles each. It is mounted on skids and is easily pulled or carried about. It weighs only 13 pounds. Price, \$8.00. Not mailable.

THE PEACOCK SPRINKLER

A wonderful sprinkler, very beautiful in action, especially in full sunlight. The sprays are thrown out fanwise like a peacock's tail—hence the name. The streams are shot high into the air, and before falling break into countless tiny drops.

Rough usage won't harm the Peacock. Nothing to get out of order. It is made to use singly or several sections together.

Each section has a wheel truck at one end and can be easily pushed to any location. The Standard Peacock is 12½ feet long and will water a strip of ground 15 ft by 50 ft. at 40 lbs. pressure. Weight is 25 lbs. Price, \$15.00. Not mailable.

PEACOCK JUNIOR is 7 ft. long and will cover a strip 10 ft. by 50 ft. at 40 lbs. pressure. It is mounted on skids, and weighs 12 lbs. Price, \$8.50. Not mailable.

THE BORDER-MIST SPRINKLER

The Border-Mist is the ideal one-way sprinkler—a sprinkler that throws water only on one side at a time. Its light spray waters any width from 30 inches to 16 feet.

Placed on the walk, it will water the grass or flowers without wetting the walk, or will water deep into the shrubbery.

There is a handle on the sprinkler so that without turning off the water, the spray can be changed to any angle or the direction of the water completely reversed. Its length is 15 feet. Mounted on wheel truck. Minimum pressure recommended, 15 lbs. Water 16 ft. x 36 ft. at one setting. Price, \$12.50. Not mailable.

THE BORDER-MIST JUNIOR is exactly like the Standard, except that it is 9 ft. long instead of 15 ft. Weighs 16 lbs. It is mounted on skids. Superb sprinkler for the ordinary 50 ft. lot. Price, \$8.00. Not mailable.

TYPE B OSCILLATING SPRINKLER AND STAND, \$35.00. Plus 50c per foot for Sprinkling Line, including stands, f. o. b. factory.

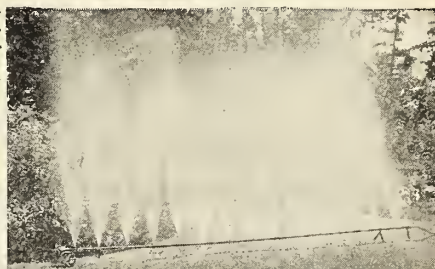

OVERHEAD IRRIGATION

For vegetable and flower gardens, we strongly recommend our Overhead Irrigation System. Without doubt, it is the nearest approach to a gentle shower that it is possible for man to produce.

It is always in place, always ready for use. Simply turn the valve and fine sprays are shot high into the air, break up into countless tiny drops, and fall gently onto the ground. Thus large areas are irrigated uniformly and thoroughly, and with a minimum of time, effort, and water.

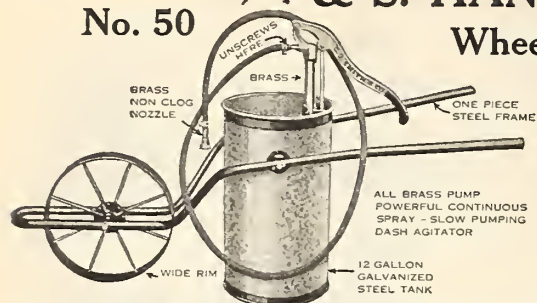

You'll have flowers and vegetables that grow faster, mature earlier, rate higher in quality, and produce more abundantly. And, in addition, you can plant late crops that will be as fresh and tender in the fall as other crops are in the earlier months.

Ask for Catalogue No. 313, which gives you all the facts. See how economical it is, how easily it may be installed, how it is used in gardens of all sizes and shapes.

N. Y. Style Cedar Tubs

The New York style tree tubs are made of seasoned selected Virginia white cedar, and are trimmed with specially designed metal feet, extra heavy flat steel hoops and liberal-size metal handles. These tubs are painted with the best oil paints—a handsome green on the outside and dark gray inside. Hoops, handles and feet trimmed in jet black.

New York Style.

No. 5	22 7/16	20 1/2	18 1/2	7.00	26

The Richmond Style tree tubs are made of seasoned selected Virginia white cedar, are bound with electric-welded wire hoops, galvanized, three hoops to each. The Richmond Style fills a long-felt want for a cheap type of plant tub and is being used by many large florists in the place of earth pots. These plant tubs are nicely painted with the best oil paints—a handsome green color inside and out. The tops of the staves are slightly beveled, which gives them a neat, trim finish. Has no feet or handles.

The Improved Jacobsen Heavy Duty Power Lawn Mower

Today, wherever there is extensive grass cutting to be done on home lawn, industrial or school lawns, in park, cemetery or on golf courses, the hum of the power lawn mower is heard. Jacobsen Power Mowers have many years successful performance to their credit. They are built by power specialists in a factory exclusively devoted to the building of power lawn mowers.

The Improved Jacobsen 4-Acre is a heavy duty mower that represents the highest type of walking power mower. For years it has been an outstanding success, and the Improved model of today, with increased motor power and various mechanical refinements will meet the most exacting standards of strenuous, every-day work for many years, and quickly pay for itself in time and labor saved.

Better Lawns at Lower Cost

The Improved Jacobsen 4-Acre Heavy Duty Power Lawn Mower travels on its own power and cuts a 24-inch swath at the rate of 4 or 5 acres a day on a gallon of gas. Work formerly requiring 4 or 5 men with hand mowers becomes a one-man job with the 4-Acre, and where one man takes care of the lawn work with a hand mower, the time he can save with a 4-Acre can be profitably spent in otherwise beautifying the grounds. The frequent, even, clean cutting possible with a 4-Acre Mower results in a better kept lawn and a firmer, more luxuriant sod. Hundreds of these mowers have seen years of successful use in the hands of men inexperienced in mechanics. They are very simple and easy to operate.

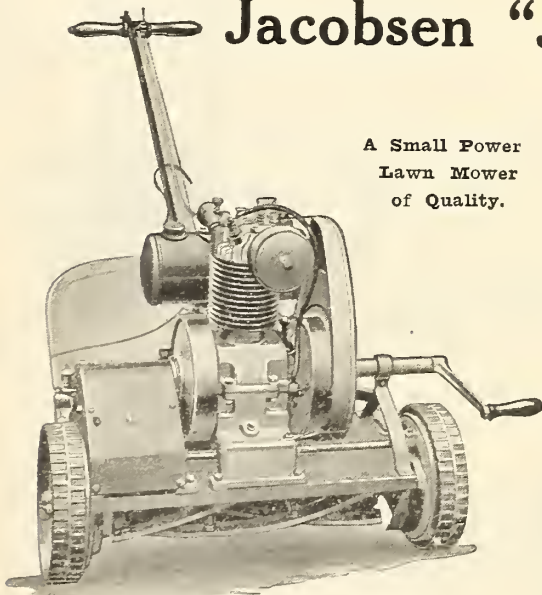

Finely Engineered

The Motor is specially designed for power lawn mower work. It is not a "makeshift" like so many small motors, but is a high-grade completely equipped motor. It has high-tension magneto, float type carburetor and is air cooled. The 4-Acre has an automobile type differential, and separate clutch control for traction unit and cutting reel, hence steering, turning and close-up cutting is as easy as with a hand mower. The steel cut gears run in oil and are encased in dust-proof housings, insuring long life and trouble-free service.

The knives of the 4-Acre are sharpened by the mowers own power through special reverse gears. The friction clutch prevents damage when sticks or stones catch in the knives.

It is sold under a rigid guarantee. Prices will be quoted on request.

Jacobsen "Junior" Power Lawn Mower

A Small Power
Lawn Mower
of Quality.

For the home, school or industrial lawn of moderate size, or for lawns with numerous obstructions and terraces, this mower has proven very popular. It is a worthy member of the Jacobsen family, faultlessly engineered and designed for sturdy, simple dependability. The five-blade reel cuts a 19-inch swath at the rate of two acres a day on a gallon of gas. Travels on its own power and the cutting reel is power driven with control at the handle—no pushing or pulling necessary. The "Junior" actually handles easier than a hand mower. The self-sharpening device is a distinct feature.

A Well Balanced Motor

The motor of the "Junior" Mower is a 4 cycle, 1 horsepower, slow-speed motor with a $2\frac{1}{2} \times 2\frac{1}{2}$ cylinder, overhead valves, crankcase and oil pump lubrication, and is equipped with a dependable magneto—eliminating troublesome coils and batteries. It starts with a crank—not a rope pull. The transmission and clutches are entirely enclosed in dust-proof housings—no exposed chains or gears. It is indeed a quality small power lawn mower.

The Jacobsen "Junior" Power Lawn Mower is remarkable in its performance, attractive in price and fully guaranteed.

Also Putting-Green and Estate Roller Mowers

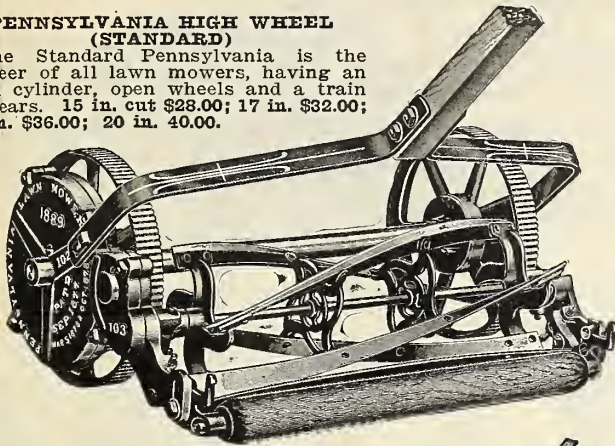

The Jacobsen Putting-Green Mower has for four years performed successfully on many of the finest greens in the country. The traction being obtained by rollers instead of wheels prevents the mower from dropping into pockets. It will not mar or scuff the turf and does the work of two or three men with hand mowers. The Estate Mower is also a roller mower suitable for the fine lawns of private estates. Prices and complete description on request.

M. & S. RELIABLE LAWN MOWERS, ETC.

PENNSYLVANIA HIGH WHEEL (STANDARD)

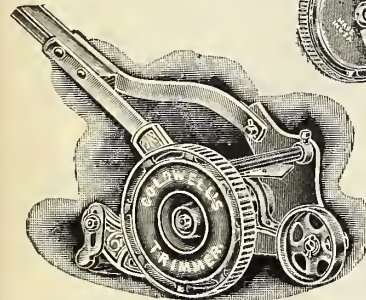

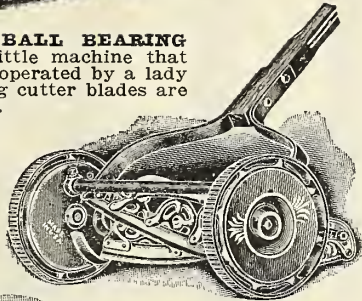

The Standard Pennsylvania is the pioneer of all lawn mowers, having an open cylinder, open wheels and a train of gears. 15 in. cut \$28.00; 17 in. \$32.00; 19 in. \$36.00; 20 in. 40.00.

M. & S. "COLONIAL" BALL BEARING LAWNMOWER—A grand little machine that runs so easy that it can be operated by a lady or child. The four revolving cutter blades are made of the finest material.

PRICES:

12 in. \$9.50; 14 in. 10.50;
16 in. \$11.50.

COLDWELL'S BALL BEARING TRIMMER is a very high class tool for finishing along walks, walls or flower beds, where the regular lawn mower cannot be used successfully. It accomplishes this task quickly and neatly and with very little effort. Does

away with the back-breaking job of trimming with shears. Especially desirable for cemetery trimming.

Specifications

Blades—Four crucible steel.
Gears—Fine cut gears in drive wheels. Pinion and pawl drive. Accurate and noiseless.
Bearings—Balls, finest drop-forged steel, case hardened. Cones made from steel shafting, turned and ground for true finish.
Wheels—8 inch solid wheel on right side only. Small caster wheel in front on left side.
Parts—Malleable and cast. Best grade. Carefully machined and assembled.
Bottom Knife—Finest tool steel knife, self-sharpening.
Bottom Knife Bar—Heavy ribbed. Simple adjustment.
Handle—Hardwood, adjustable steel braces.
Finish—Golden Bronze, Maroon striping.
Width of Cut—8 inches only. Price, \$11.25.

COLDWELL'S IMPROVED HORSE LAWN MOWER—This well known standard mower has side draft attachment that enables the horse to walk on the cut grass only, and caster rollers which will not mark the lawn. Complete with seat and shaft.

Price: 30 in. \$125.00;
35 in. \$135.00; 40 in. \$152.50.

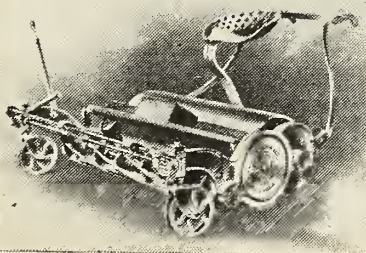

PONY MOWER, 25-inch cut, equipped with single tree only. Price, \$80.00.

OIL CANS—Filled with oil, 15c and 25c.

We Repair
and
Sharpen
Lawn Mowers

HORSE BOOTS, Set of four, \$15.00.

Coldwell's "Improved" Horse Lawn Mower

M. & S. "INTERSTATE"—Is a high grade, high wheel, ball bearing mower at a moderate price. Light and easy to handle. Has large revolving cutter, high frequency and will do a fine job of cutting with little effort.

Specifications

Blades—Four crucible steel.

Gears—Pinion and flat sliding pawl type. Direct drive both sides. Protected from dirt and flying grass.

Bearings—Balls, finest drop-forged steel, case hardened. Cones made from steel shafting, turned and ground for true finish.

Frame—Open type, light in weight but strong and durable.

Wheels—10 inches, six spokes, open style.

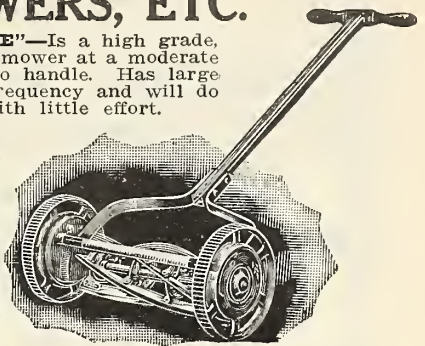

Parts—Same high grade material and accurate workmanship as used in higher priced machines.

Bottom Knife—Flat crucible steel, self-sharpening.

Height of Cut— $\frac{1}{2}$ to $1\frac{1}{2}$ inches.

Handle—Hardwood, varnished. Adjustable braces.

Finish—Blue and gold. Prices: 14 in. cut \$12.50; 16 in. \$13.50; 18 in. \$14.50.

M. & S. Interstate

COLDWELL'S IM- PERIAL ROLLER BEARING

—Designed to meet the demands of park and cemetery superintendents. Durable, light running, easy to push and requiring minimum of attention to adjustments. Roller bearings enclosed in dust-proof housings. When packed with light grease will need no further oiling for the season. Best lawn mower on the market for hard service in parks, cemeteries and private grounds.

Lightest Running—Strongest Built.

Wheels— $10\frac{1}{4}$ inch.

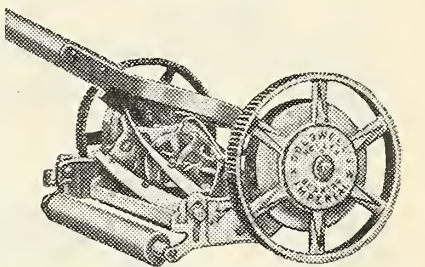

Blades—Five.

Bearings—Standard Hyatt Roller.

Gears—Triple-pawl ratchet.

Material and Finish—Highest class.

FRONT FLANGE ON
STEEL BOTTOM

M. & S. EASY EMPTY- ING CANVAS GRASS CATCHER

Designed to fit any size or style of mower and can be attached or detached in a moment. Made of strong canvas and galvanized iron bottom. To fit any mower, 12 to 18 inch, \$1.50. Parcel post weight 5 lb.

M. & S. Easy Grass Catcher.

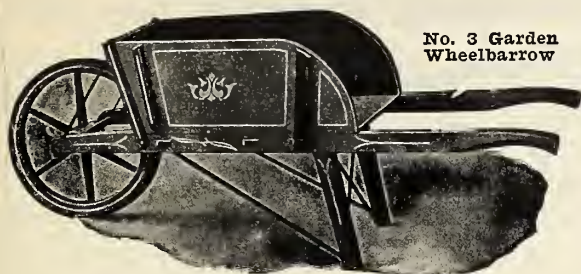

ECONOMY GRASS CATCHER—A good make, but lighter than the Easy. Construction similar, fits any mower from 12 to 17 inches. Price, \$1.00. Parcel post weight, 5 lbs.

OVERHAULING AND SHARPENING OF LAWN MOWERS—The best time for this is, before the actual time of lawn mowing has come. Let us do this for you. We call for and deliver the work.

M. & S. LAWN MOWER SHARPENER—Can be adjusted for any thickness of blade and when properly set will give a uniform bevel, the sharpener following the twist of the knife. It will also sharpen the under blade or dead knife. Price, 75c each, postpaid.

M. & S. LAWN AND GARDEN ACCESSORIES

No. 3 Garden
Wheelbarrow

No. 3 Wheelbarrow, for Garden and Farm Use—A durable, neat garden barrow. Size of body, 26 in. long, 19 in. wide in front, 22 in. wide at back. Sideboards, 27 in. long, 12 in. high; handles, 4 feet 9 inches long; 2x1½ in. wheel; 20 in. diameter; 6 spokes. Price, \$7.50; set up, \$8.00.

THE "OUT-U-KUM" WEED PULLER

An Entirely New Principle

A slight Push and Pull thoroughly loosens the surrounding soil and removes not only the weed, but the entire root.

When pushed into the ground, the two points guide the BRIDGE down alongside the weed, loosening the soil from that side. It then crosses under the root disengaging the latter. As the tool is withdrawn the BRIDGE slips up the opposite side of the weed, loosening the ground from that side and engages the head of the weed above the ground. The now thoroughly loosened weed is readily withdrawn in its entirety with little or no clinging soil.

Price, 75c. Parcel post weight, 2 lbs.

Thistle and Dock Cutter—Fig. 18. Price, \$1.50.

Fig. 17

"Dandelion" Spuds—A practical weeder; long handle. Price, 25c.

Eureka Garden Weeder—Fig. 11. 50c. Parcel Post weight, 1 lb. Same with 2 ft. handle, 60c. Parcel Post weight, 2 lbs.

Garden Fork or Weeder—Fig. 24. 50c. Weight, 1 lb.

Dibbles, or Planting Pegs—Bent wood handle. 65c. Weight, 1 lb. Fig. 20. D. Handle. 75c.

Steel Trowel D. S. T.—Fig. 21. Drop Shank, best made. \$1.00, 2 lbs.

Steel Trowel S. S. T.—Straight Shank, best made, \$1.00, 2 lbs. No. 212 One-Piece Trowels—50c. Fig. 22. P. P. weight, 2 lbs.

No. 215 Good, Strong 7-Inch Trowel—Fig. 23. Price, 25c. Parcel Post weight, 1 lb.

Lawn Clipper Attachment for Hedge Trimmers		18.00
30 in. size Lawn Weed Clipper, complete		35.00
40 in. size Lawn Weed Clipper, complete		40.00

With these tools you can actually do as much work in one hour as you formerly did in four hours with the old style pruner or lopping shears.

Simplicity cuts both opening and closing. Think of it! What a time and energy saver this is, with each complete movement of your hands you save 20 jolting, blistering and tiresome wacks the old pruner or lopping shear way.

The Simplicity Pruner and Trimmer can also be used for trimming with excellent results. Many home users have chosen it to do all their trimmings.

Pruner and Trimmer, \$6.00, postpaid; Trimmer, \$4.00, postpaid.

M. & S. Water Ballast Lawn and Tennis Court Rollers

The proper roller for most any occasion; fill it with water or sand, which will weight it any number of pounds desired. Handle always in position ready for use; roller axle bearings. You can make it as heavy or as light as you wish. The drum can be filled with an ordinary garden hose, when through for the season pour the water out and the roller is easy to put away.

Price, \$1.50. Parcel Post weight, 2 lbs.

No. 50

No. 50, 9 inch—A good pruner; weight, 1 lb. 90c.

No. 14, 6 inch—Ladies' pruner, full polished, \$1.25. Parcel post weight, 1 lb.

Flower Scissors No. 575—Nickle plated. \$1.50.

Flower Scissors, No. 576.

No. 576—Imported, best finished, sure to hold flower after being cut. \$2.00, both postpaid. As illustrated.

Solid Steel Hedge Shears—12 in. All equipped with notch; the notch is very useful in heavy trimming or lopping. Handles bolted on, cannot come apart. Parcel post weight on all hedge shears, 3 lbs.

8-inch	\$2.25
9-inch	2.50
10-inch	2.75
12-inch	3.50

Hedge Shears.

Ladies' Hedge Shears—5½ inch cut. Price, \$1.50. Parcel post weight, 2 lbs.

Lawn Shears, Imported—Two wheels, 9-inch blade, long handle for cutting on narrow borders, under fences and shrubs. Price, \$4.50. Parcel post weight, 5 pounds.

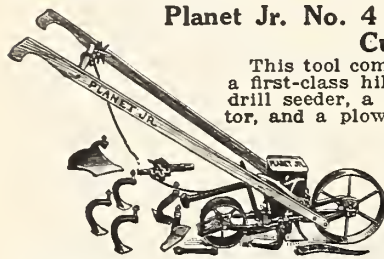

Border Shears—Same as above, but the blades are shaped vertical for trimming borders. Price, \$4.25. Parcel Post weight, 5 pounds.

Godwin's Grass Shears—Fig. 18. They allow the operator to hold them in any easy natural position (as shown in engraving), thereby relieving strain which accompanies the use of the old model shears. Price, \$2.00. Parcel post weight, 2 lbs.

PLANET JR. FARM AND GARDEN TOOLS

Are the greatest savers of time, labor, and money ever invented for the farm and garden. They pay for themselves in a single season in bigger and better crops, and last a lifetime. Fully guaranteed.

Planet Jr. No. 4 Combined Seeder and Cultivator

This tool combines in a single implement, a first-class hill-dropping seeder, a perfect drill seeder, a single wheel hoe, a cultivator, and a plow. It holds two quarts and sows in continuous rows, or drops in hills 4, 6, 8, 12 or 24 inches apart. The index is accurate, simple and easily set. The drill is detached and the tool frame substituted by removing but one bolt. It

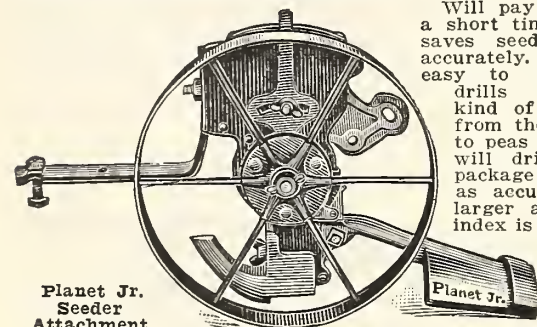

then becomes a single wheel hoe. Price, \$18.00, 50 lb.
No. 4-D (As a Seeder only), \$14.25, 40 lb.

No. 25 Combined Seeder, Double and Single Wheel Hoe

As a seeder this tool is the same as No. 4 described above but when used as a cultivator it can be set up either as a double or single wheel hoe. Has steel frames and straddles crops until 20 inches high. Two acres a day can easily be worked, and when it is done, it will be a better job than several men could have done in the same time with hand hoes. The most complete of the interchangeable tools. Price, \$21.50, 61 lb.

The Planet Seeder Attachment No. 35

Will pay for itself in a short time because it saves seed by sowing accurately. It is very easy to operate and drills almost any kind of garden seed from the smallest up to peas and beans. It will drill a 10-cent package of seed just as accurately as a larger amount. The index is in plain view

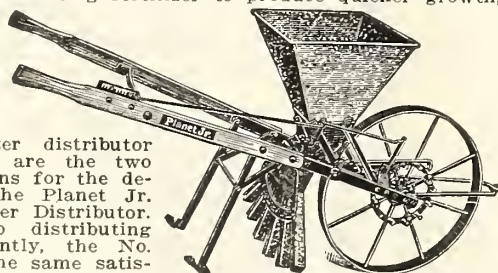

Planet Jr.
Seeder
Attachment
No. 35

Planet Jr.

and easily adjusted. The shoe is adjustable for any depth desired and the cover swings free. Attaches to any Planet Jr. Hand Cultivator. Sent postpaid. Price, \$6.50.

No. 220 Planet Jr. Fertilizer Distributor

Saves fertilizer, time and labor and produce bigger, earlier crops. The vital importance of side-dressing vegetable crops with a good quick-acting fertilizer to produce quicker growth, more tender vegetables, and get those vegetables on the market earlier when prices are better; and the need of an efficient fertilizer distributor for this work, are the two important reasons for the development of the Planet Jr. No. 220 Fertilizer Distributor. In addition to distributing fertilizer efficiently, the No. 220 will give the same satisfactory service for many years. It is built to last. Price, \$27.00. Send for special circular.

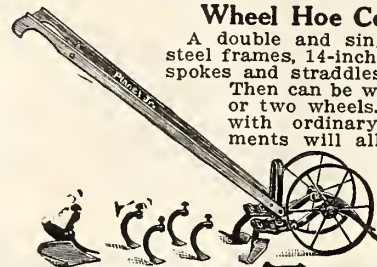

Star Pulverizer, Weeder and Cultivator

An improvement over the old style pulverizer. 50% lighter and very easy to handle. The star discs break up the soil and the oscillating blade—which works forward and backward—pulverizes and levels the soil, and at the same time cuts off the weeds directly beneath the surface. Can be used right after a rain to cultivate and will not leave the ground in a lumpy condition. 6 lbs.

Price, \$3.25

Planet Jr. No. 12 Double and Single Wheel Hoe Combined

A double and single wheel hoe in one. Has steel frames, 14-inch steel wheel with heavy steel spokes and straddles crops until 20 inches high. Then can be worked between rows with one or two wheels. Does the work of six men with ordinary hand hoes. The attachments will all be found useful from the beginning to the end of the season. Price, \$10.75, 33 lbs.

No. 11 PLANET JR.—Like the above, but in addition has one pair 4 1/2 inch hoes, two 3-tooth rakes and two 5-tooth rakes. Price, \$13.75, 39 lbs.

No. 13 PLANET JR.—Only equipped with one pair of 6-inch hoes. Price, \$8.00. The No. 12 is the most popular tool. 28 lbs.

Planet Jr. No. 16 Single Wheel Hoe

These single wheel hoes are the highest type of their class. They have a great variety of attachments which adapt them to a large variety of work, and there is scarcely any garden cultivation they will not do. Nos. 16 and 17 have the same steel wheels, frames and handles, but the attachments sold with each vary. The handles are adjustable in height. The frame is steel, convenient and

strong with a simple device by which to exchange the tools without removing the nuts. All attachments are of a special pattern, carefully tested by practical men; no others ever offered compare with them. All the steel parts are high carbon steel, oil tempered and specially hardened, finely formed, finished and polished and work to a charm. Price, \$9.00, 24 lbs.

No. 17 Single
Wheel Hoe.

Planet Jr. No. 17 Single Wheel Hoe—Same as No. 16, but has no rakes or leaf lifter. Price, \$7.75. Weight 24 lbs.

No. 17 1/2 PLANET JR. Equipped with hoes and

leaf lifter. Price, 6.75. Weight 21 lbs.

No. 18 PLANET JR.—Only equipped with one pair 6-in. hoes. Price, \$5.75. Weight 19 lbs.

No. 19 PLANET JR.—Similar to above, but has higher wheel (15 inch), equipped with cultivator tooth, sweep, plow and 5 prgd. cultivating attachment. Price, \$6.00. Weight 21 lbs.

No. 119 Planet Jr. Garden Plow and Cultivator

This new member of the "Planet Jr." family is equipped so completely that it will meet all the needs of the ordinary garden. It has a 24-inch wheel 1 1/2 inch wide. The plow is very strong, the cultivator tooth is good and wide, the 3-pronged Cultivator is excellent for breaking of the soil, the center tooth of same is removable, the scuffle hoe fine for weed cutting and the handles very strong and adjustable to suit adult or child.

Price, complete,
\$4.75

Weight 17 lbs.

"Firefly" Garden Plow

Very useful for small gardens. Will throw a furrow 4 to 6 inches wide and 1 to 3 inches deep, and deeper by going twice. Furrows for manure or seed can be opened and covered. Chicken raisers find it of great advantage in plowing up the scratching yards.

Weight, 14 lbs.
Price, \$4.25.

PLANET JR. FARM AND GARDEN TOOLS

Planet Jr. One Horse Cultivators and Harrows

No. 100-D Planet Jr. Plain Cultivator

We offer this cultivator with the object of filling a definite need where lands are light or where farming is done on a modest scale. It weighs but 42 pounds. It will stand hard usage and do excellent work. A steady running tool and easy to handle and adjust. Weight, 42 lbs. Price, \$8.25; with wheel, \$10.00.

No. 107D—Similar to the No. 100D but has seven teeth and lever expander. Price, \$11.75; with wheel, \$13.50.

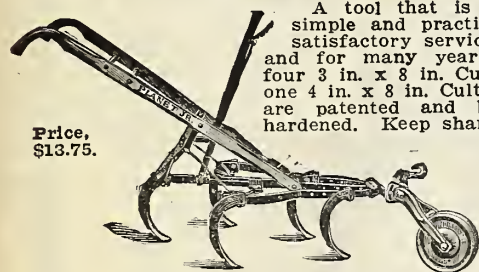

No. 100
Cultivator
with Cast
Wheel,
\$10.00.

No. 4 PLANET JR. PLAIN FIVE-TOOTH CULTIVATOR—This popular tool has been much stiffened and improved by new patent braces and expanders. Price, with steel wheel, \$11.25, without wheel, \$9.25.

No. 9 Planet Jr. Plain Cultivator

A tool that is light and strong, simple and practical, and will give satisfactory service year after year, and for many years. Equipped with four 3 in. x 8 in. Cultivator Steels and one 4 in. x 8 in. Cultivator Steel, which are patented and beveled; especially hardened. Keep sharp and add 50% to the wear. Tool is adjustable to any useful width by use of the lever expander, and every part is perfected to make the tool acceptable to the farmer who does not want to have to buy a cultivator every few years.

Price,
\$13.75.

No. 9-D Plain Cultivator

Same as the No. 9, except that it does not include the wheel, but has all the other equipment, including the lever expander. Price, \$11.75.

No. 4 Planet Jr. Horse Hoe and Cultivator

This tool is low in price, strong and simple. It is the modern cultivator for either garden or field use, for furrowing, covering and cultivating. Price, with steel wheel, \$13.50; without wheel, \$11.50.

No. 4 Horse Hoe

No. 9 PLANET JR. HORSE HOE AND CULTIVATOR—Identical with the above, but has lever expander. Price, with steel wheel, \$15.50; without wheel, \$13.50.

No. 7 PLANET JR. HORSE HOE AND CULTIVATOR—Same tool as No. 4 and No. 9, but is also equipped with depth regulating level wheel. Price, \$17.00.

Planet Jr. Twelve-Tooth Harrow Cultivator and Pulverizer

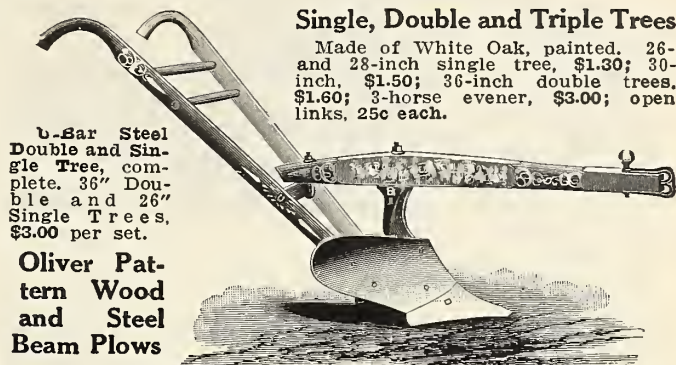

No. 90, complete, \$18.00; No. 90-B, without pulverizer, \$14.75; No. 90-D, without pulverizer or wheel, \$11.75.

The chisel-shaped teeth on this tool go as deep or shallow as you like, close to row, without injuring plants, cut out all weeds, stir the soil and mellow and fine it as with a garden rake. Any width from 12 to 32 inch. The wheel won't clog; the pulverizer leaving the ground in perfect condition for seeding or plant setting.

Pop Corn

There is hardly a home in the country during winter where popping of corn is not a pastime. Not all Pop Corn is the right kind for popping. What we offer can be relied upon for planting or popping. White Rice—Lb. 15c. Special price in quantity.

Sheet-Iron Corn Popper

Parcel Post weight, 2 pounds. Price 50c.

M. & S. All Wire Corn Popper—25c. Parcel post weight, 1 lb.

Rat and Mouse Traps

Victor Rat Traps—10c, postage 5c.

Victor Mice Traps—3, 10c, postage 5c.

Wire Cage Rat Traps—The kind that catches them alive. \$1.00 each, postpaid.

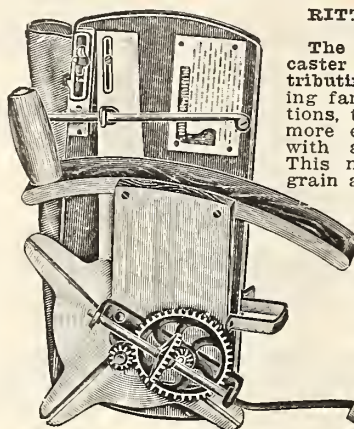

The Faultless Rat Trap—This trap will catch and kill them every time. 50c each. Parcel post weight, 1 lb.

Peerless Rat and Mouse Trap—Self-setting. Will catch many in one night. \$3.50 and \$3.00, respectively, postpaid.

Grass and Clover Seed Sowers

RITTENHOUSE DOUBLE FAN SEEDER No. 3.

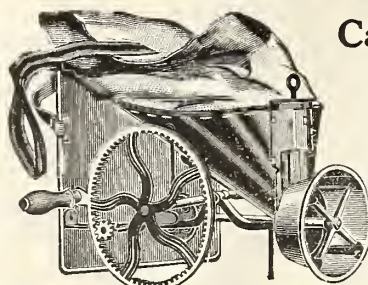

The most efficient hand broadcaster ever invented, double distributing wheel—The two distributing fans revolve in opposite directions, throwing the grain further and more evenly than from any seeder with a single distributing wheel. This means a more even stand of grain and a larger yield, that in one season pays the cost of the Rittenhouse Seeder many times over. The material used in making this seeder is of the very best—the seeder is well painted—runs very lightly—and lasts a lifetime. The Rittenhouse Seeder is suspended from the shoulder at the side, and is far more convenient to handle than seeders which must be hung around the neck. Price, \$1.75, postpaid.

Cahoon Seed Sower

For sowing Grasses, Clover, Timothy, Millet, Oats, Wheat, Barley, Eye, Buckwheat, etc. Standard Seeder of the World—A Model for Accuracy and Durability—Malleable Iron Frame—Steel Hopper and Gate Brass Discharger.

Price, \$5.00, postpaid.

SEGMENT CORN PLANTER—Sliding Feed. Price \$2.50. Parcel Post weight, 6 lbs.

M. & S. POULTRY SUPPLY DEPARTMENT

We carry everything in the line of Poultry Accessories and we cheerfully give free advice how to raise Poultry profitably. M. & S. Wonder Bred Chicks during February, March, April, May, and June (see page 78).

Lectro-hatch

ELECTRIC INCUBATORS

Lectro-Hatch Price List
65-egg capacity, \$23.50;
150-egg, \$38.00; 300-egg, \$67.00; 600-egg, \$118.00. When ordering, state voltage.

Use a Lectro-Hatch Electric Incubator and say good-bye to work and worry in hatching. Chicks are as strong and sturdy on the first day as ordinary chicks from four days to a week old. You attach the incubator cord to an electric light socket. Then you adjust the machine to hold hatching temperature by giving one or two turns to a small thumb nut. After that the Regulator, which is an exclusive feature watches the temperature for you.

Lectro-Hatch Electric Incubator Elements
Lectro-Hatch Elements are specially made by electrical experts to exactly fit your

Incubator according to specification. When ordering give us the following information: Make of Incubator, Egg Capacity, Shape of Incubator (Round, Square or Oblong), Length of Top Wall or Lid (Inside), Width of Top Wall or Lid (Inside), Thickness of the Top Wall or Lid, Depth of Egg Chamber (Distance inside from Lid to Egg-Tray), Voltage Electric Power to be used. **Prices: Any size Incubator up to 150-egg Capacity, \$12.50; Over 150 and less than 400-egg Capacity, \$15.00, postpaid.**

Lectro-hatch Electric Brooder

Just turn an electric socket button and the Lectro-Hatch Brooder begins to warm up. Same device to maintain constant, even heat as in Lectro-Hatch Electric Incubators. No danger of overheating or fire. No lamps to fill, no stoves to tend, no ashes to carry out. No muss or dirt. Lectro-Hatch Brooders really cost less to operate than other style brooders.

Price: 28 inch diameter, 150 chick capacity, \$18.00; 40 inch diameter, 500-chick, \$23.50. When ordering, state voltage.

Cyphers Center Lamp Portable Hover

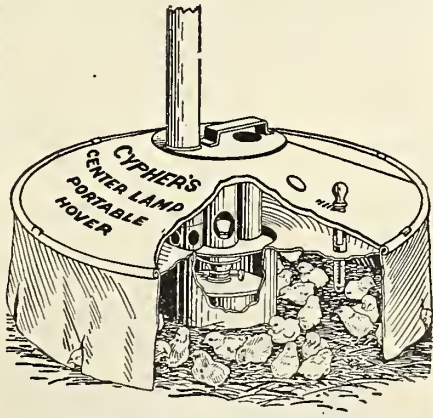

The experience of thousands goes to prove that the Cyphers Center Lamp Hover will bring to vigorous maturity practically every healthy chick committed to its care.

Specifications

Capacity...100 chicks
Weight, net...24 lbs.
Weight, in carton...30 lbs.
Diameter of Hover...28 in.
Hovering space...540 sq. in.
Height, without stack...14 in.
Height, floor to top of stack...36 in.

Equipment

Hover, Curtain, Lamp, Lamp Bracket, Thermometer, Stack—all complete to operate except the oil. **Price, \$15.00.**

Standard Cyphers Incubators

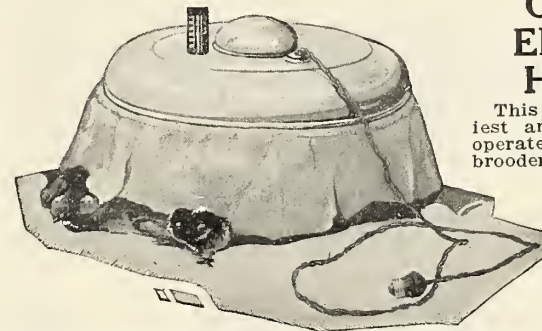

CYPHERS INCUBATORS are built to hatch and to last. With proper care—the same care you would give a valuable piece of household furniture—a **Standard Cyphers** will last an ordinary lifetime. They are guaranteed by us to last **ten years** without repairs. We make this guarantee because they **have lasted much longer than this**—and are still doing first-class work.

Prices:
No. 1—144 Eggs, 42.00
No. 2—244 Eggs, 56.00
No. 3—390 Eggs, 69.00

Oakes Electric Hover

This is the handiest and easiest to operate of any brooder you ever saw. Its operation is as near automatic in every way as possible. No lamp to bother with, no fumes or smoke to

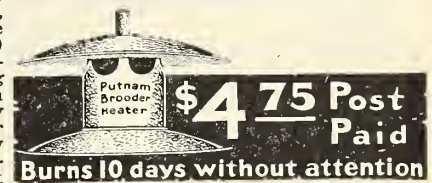

stunt the chicks, no extreme fluctuations in temperature. Furnished complete with automatic regulating attachments, brooder thermometer and curtain.

Capacity, 50-75 chicks. Price, each, \$13.50. Shipping wt. 13 lbs.

The Putnam Brooder

This is used to heat a home-made brooder, which will take the best of care of from 30 to 60 chicks. Instructions for making brooder packed with every heater. A boy can make the brooder in an hour with saw and hammer. The materials need not cost over 25c.

The Putnam Brooder Heater is made of brass and galvanized iron. It is practically indestructible. Price of Putnam Brooder Heater Galvanized, \$4.75 postpaid. Aluminum \$6.25 postpaid. Illustrated circular on request.

\$4.75 Post Paid

Burns 10 days without attention

NEWTOWN Colony Brooders

will Increase Your Poultry Profits

Coal-Burning Brooders Give Wonderful Results

The Newtown Coal-Burning Brooder is a sensation. It has given poultry-raisers a new idea of chick-raising efficiency. It has produced results that are almost unbelievable. This is because of Newtown's advanced design. It is the result of 25 years of brooder building. In all parts of the country it is producing phenomenal results.

BIG EXCLUSIVE FEATURES

Newtown is noted for its wonderful exclusive features. It has an extra big, self-feeding coal magazine, an extra big fire bowl, a large combustion chamber and Double Check Draft—thermostatically controlled.

When you think of these features you can see how Newtown is built to brood chicks under every emergency. It gives a marvelous amount of heat. It cares for all your chicks regardless of weather conditions. It burns soft coal satisfactorily, as well as hard coal. And Newtown holds the fire. It doesn't require constant attention. You don't have to get up at night to see if your chicks have enough heat. They're always safe and warm with Newtown.

LESS WORK AND ATTENTION

Newtown is economically to operate. It saves time and work. It's easy to coal. The heat regulator is self-regulating. The Deflector is conveniently hinged to permit easy access to the stove.

Three Sizes

Model.	Chick Capacity.	Diameter of Hoyer.	Price.
No. 7	Up to 300	48 inches	\$25.00
No. 11	Up to 500	50 inches	32.50
No. 12	Up to 1,000	56 inches	40.00

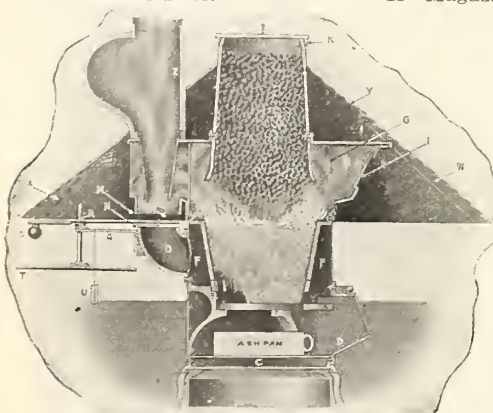

The No. 7 was designed especially for single room brooder houses approximately 6x8 to 10x12; the No. 11 for approximately 240 square feet and the No. 12 for approximately 400 square feet of space. The No. 11 is considered the ideal size.

Ask for Descriptive Bulletin.

- A—Grate (Ring Grate and Slide Center).

Cross Section View of No. 12.

*NOTE—The No. 7 Smoke Box Ell is slightly different than on the Nos. 11 and 12. Instead of having a clean-out, the soot, etc., is turned into the fire.

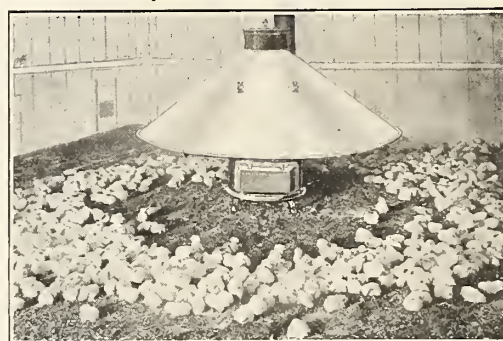

In ordering Repair Parts always give Number of Brooder Stove and Name of Part Wanted.

Newtown Coal Burning Colony Brooders

The Newtown Coal Burning Colony Brooder needs no introduction to poultrymen. It was the first coal burning, self feeding, self regulating colony brooder put on the market, having been longer in use than any other of its type. It is giving efficient service in every State in the Union and eleven foreign countries, and represents the modern up-to-date brooder in the highest form of development. It is durable, easy to operate, safe, economical and labor saving.

CONSTRUCTION—Made of best grade heavy heat retaining castings.

EASY TO OPERATE—Nothing complicated—full instructions furnished with each brooder. Automatic Regulator controls the drafts and no change in weather is too sudden for its adjustment.

Happy and Contented Under a Newtown Mother.

SAFE—Hot coals cannot roll out of the ash pit door into litter. Has a double bottom, with dead air space, and a heavy metal casing which prevents chicks from scratching litter against the hot firebowl.

ECONOMICAL—Built to last a lifetime. Firepot and combustion chamber designed to burn all gases, greatly reducing fuel cost.

LABOR SAVING—Requires little attention. Magazine holds sufficient fuel to last 24 to 6 hours. Turning one small adjusting nut enables one to secure any desired temperature. Deflector is not disturbed in coaling. Hinged deflector lid gives easy access to ash pit door. Smoke box ell prevents soot or other foreign matter falling down smoke pipe and interfering with draft regulation.

Vineland, N. J., Oct. 11, 1926.

Newtown Incubator Company,
Harrisonburg, Va.

Gentlemen:

It didn't take a long trial to prove that the Newtown was almost human in the way it looked after itself. Through the carelessness of my men at different times, the door at the bottom has been left open—at other times the griddle at the top has been left off, but under all conditions the fire has remained in good shape and the regulator certainly does regulate. I now use nothing but Newtown No. 11 Brooder Stoves and feel sure every night, whether cold, warm or windy, that my stock are comfortable.

Yours very truly,

A. G. WHETSEL,
The Pinehurst Fruit & Poultry Farm,
Vineland, N. J.

Fremont, N. H., Oct. 5, 1926.

Newtown Giant Incubator Company,
Springfield, O.

Gentlemen:

I hatch all my baby chicks in Newtown Giant Incubators and raise them under No. 12 Newtown Brooders. I have several kinds but much prefer the Newtown, especially for cold weather as the fire keeps well and with less labor and fuel. I always advise my customers to buy the Newtown Brooders.

JAMES TOWLE, Prop.,
R. I. Red Poultry Farm,
Fremont, N. H.

GUARANTEE

Newtown Brooders are guaranteed to give satisfaction. Try any size for 30 days. If you are not satisfied, your money will be refunded.

BUCKEYE Incubators-- HATCH MORE CHICKS

Buckeye Incubators give results that cannot be secured with any other incubator. They hatch more chicks. They hatch bigger, stronger, better chicks.

The Buckeye Hot Water Heating System is the system that insures absolutely correct temperature being maintained every minute of the incubation period. It insures the heat being uniform over the entire egg tray. There are no underheated eggs—no overheated eggs. The air in the Buckeye egg chamber is always fresh and pure. It is always moist. It isn't dried out. The Buckeye system retains all the natural moisture in the air.

Patented All-Metal Thermostat

The greatest contribution to artificial incubation is the patented Buckeye All-Metal Thermostat. It prevents that harmful fluctuation in temperature that kills the chicks in the shell. It gives absolute control of the temperature in the egg chamber regardless of changes in outside temperature. It insures the maintaining of the necessary temperature in the egg chamber at all times. This wonderful Thermostat is all-metal. It doesn't go wrong; it doesn't wear out; it is always sure and reliable.

Guaranteed

Buckeye Incubators are guaranteed. Any incubator or part thereof that does not fulfill our guarantee will be replaced any time within forty days.

MORE THAN 700,000 SATISFIED USERS PROVE BUCKEYE'S HATCHING ABILITY

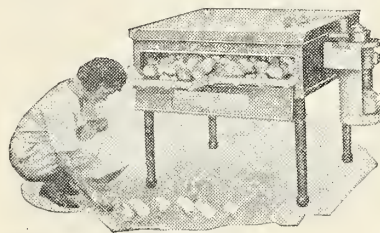

Neighbors Are Amazed

I have run one of your No. 1 Standard machines this year, and find it to be by far one of the very best on the market. I operated this machine and at the same time taught school during the month of March, so you see it was very easy. My hatches with this machine averaged around 90 per cent of the fertile eggs. I have made sales of two of your machines to my nearby neighbors. They have been amazed at the wonderful results I have had with my Buckeye.

SAM GAMBILL,
Lansing, N. C.

USED BY AGRICULTURAL COLLEGES AND GOVERNMENT EXPERIMENTAL STATIONS

Six "Standard" Models

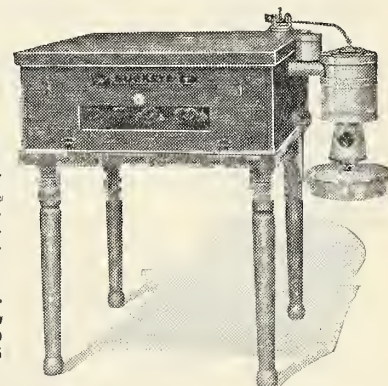

California Redwood is used exclusively in the outside walls. The top and sides are two pieces of seasoned lumber with corrugated insulation between. The patented lamp and lamp support meet the requirements of the Insurance Underwriters' Laboratories. This insures an incubator that is absolutely fireproof.

Model.	Capacity.	Price.
No. 1	110 egg	\$37.50
No. 2	175 egg	44.50
No. 3	250 egg	57.75

No. 14	65 egg	\$16.50
No. 16	110 egg	27.50
No. 17	210 egg	36.75

Buckeye Brooders Raise More Chicks

Improved Coal-Burning Brooder

The Improved Coal-Burning Brooders give the greatest values ever offered. The prices are drastically reduced. The brooders are improved. The stoves are larger. They hold more coal. They give more heat. They burn soft coal or hard coal longer with one fueling. The Double Check Draft—thermostatically controlled—insures the holding of a continuous fire. The Revolving Hover saves time and work. Every attention can be given the brooder without raising the hover or disturbing the chicks.

Three Models

Model.	Actual Chick Capacity.	Diameter of Hover.	Price.
No. 117	Up to 350	42 inches	\$16.50
No. 118	Up to 500	52 inches	21.50
No. 119	Up to 1,000	56 inches	26.50

(Prices slightly higher in Western Canada)

Most Efficient Oil-Burning Brooder

Buckeye is the most efficient Oil-Burning Brooder ever devised. It has a wick burner. There is no "oil-leveling" mechanism to go wrong. There are no valves or levers to fuss with and adjust. There's no priming necessary. It is as safe, reliable and simple to operate as a high grade kitchen oil stove. Simply light the burner and the job is done. It stays lighted. It stays regulated.

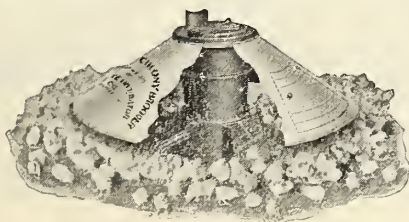

Buckeye has the patented "Diafram" Heat Conveyor—a device attached to the hover that insures radiation of the heat to all the chicks. It means all the heat is used and all the chicks are cared for better.

Three Models

Model.	Actual Chick Capacity.	Diameter of Hover.	Price.
No. 27A	Up to 200	34 inches	\$17.50
No. 80	Up to 350	42 inches	19.00

Guarantee

Buckeye Brooders are guaranteed to do all we claim. Try any size for 30 days and if not satisfactory your money will be refunded.

Everlastic Rubber Roofing

Look at the label before you buy! If the label reads "Barrett Everlastic Roofing" you are perfectly safe. You are sure of a moderate-priced roof that will give many years of satisfactory service.

Medium—108 sq. ft., width 3 ft., guar. 10 yr. \$2.50
Heavy—108 sq. ft., width 3 ft., guar. 15 yr. 3.00

Mineral Surfaced Roll Roofing

Everlastic—Red, Green or Blueblack. Weight 90 lbs. \$2.50.

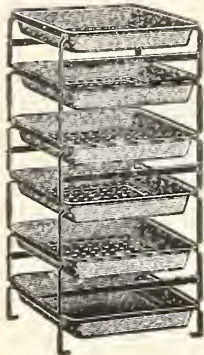

Vitex—Red or Green. Weight 75 lbs. \$2.25.
Both 108 sq. ft. 3 ft. wide.

Prices on Roofing Subject to Change Without Notice.

Barrett Liquid Elastigum

Barrett Liquid Elastigum is a cement in liquid form that gives new life to old roofs. It forms a tough, impervious coating over the entire roof, closing cracks and small holes that would otherwise admit moisture, thus making the roof practically one solid piece and, as far as utility goes, almost as good as new. It spreads readily and any one can apply it. Price, \$1.25 per gal.; 5 gal. \$4.00.

National Oat Sprouter

Steel frame, well braced and painted. With six heavy galvanized iron pans which are interchangeable. Provides the very necessary green feed at all seasons. Total height, 3 ft. Size of pans, 16x18 inches.

No. 01—Oat Sprouter. Each.....\$6.50

The Little Egg-Getter Oat Sprouter

The Little Egg-Getter Is the Biggest Little Proposition Ever Made in a Vapor-Bath Grain Sprouter.

Made of galvanized sheet steel, supported by a cypress frame—the wood that never rots. Constructed as genuinely as any other vapor bath sprouter, with vapor pan, glass front doors, ventilation, one-piece all-metal aerated trays, etc. Has 4 compartments as needed. Fitted complete

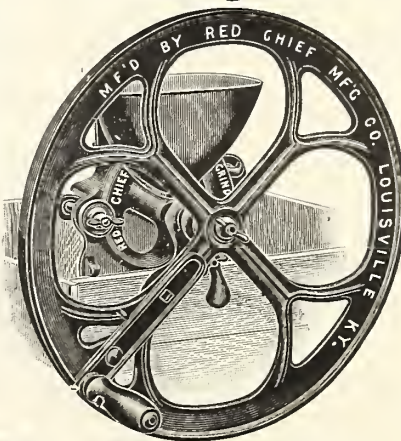

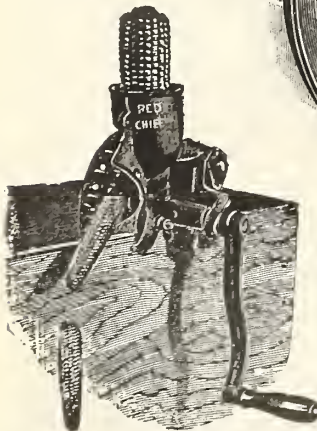

with lamp, thermometer, partitions and directions. For 40 hens or less. Delivered prepaid by parcel post for only \$7.95. Special circular on request. Constructed like the close to nature.

"Red Chief" Grinding Mills

No. 1—For Small Poultry Raisers. Price, \$4.00.

No. 5—With large capacity, feed gauge and fly wheel. Clamps to box. Price, \$7.75.

No. 10—With feed gauge, fly wheel and handsome stand to screw on table. Price, \$9.50.

"Red Chief" Corn Sheller

This sheller is guaranteed to do good work. It is heavy in construction, with patent oval-shaped teeth which are so arranged to shell more rapidly and avoid injuring the grain, thus making it safe for shelling seed corn. Adjusts itself to any size ear. Price, each \$2.75; weight, 12 pounds.

Oakes Electric Fountain Heater

Keeps drinking water from freezing even in zero weather. Safe and easy to use. No danger of fire or explosion. Cost averages about a cent a day. Used with any type fountain, pan, crock or bucket. Set water vessel on heater and turn on current. That's all there is to it! No adjusting! No regulating! No watching! Pays for itself in winter eggs. Heater is 8 inches in diameter, 1½ inches high and made of heavy galvanized metal. Built for service. Money promptly refunded if unsatisfactory after ten days' trial. Price, \$1.75; postpaid, \$1.85.

Collins' Oat Sprouters

FRESH GREEN FOOD KEEPS THE CHICKENS LAYING

IT TELESCOPES!

PROTECTS THE CHICKS FROM HAWKS, RATS, WEASELS, VERMIN, COLD, STORM, ETC.
SAVES TIME, WORK AND WORRY.

The "Lawn Park" Brood Coop. Pat. May 13, 1919.

The "Lawn Park" is large and roomy, being 18 inches wide, 19½ inches high, and 48 inches long, with park extended. The coop and the park are of equal length. The park permits the chicks to have plenty of sunshine and fresh air, and also allows them to range on grass. Can be moved from place to place easily, thus giving them a fresh supply daily. Coop has removable bottom for quick and easy cleaning. Made of metal; will last years. \$4.00 each. Cannot be sent by parcel post.

"PROTECTO" BROOD COOP

This coop can be turned to fresh ground with no trouble, without interfering with hen and chicks. It is built of the best quality lumber tongue and grooved which makes it draft-proof and rain-proof. It sets off the ground and is painted with the best of paint. The patent turning device is simple, will last a lifetime and can easily be operated by a child. Give your baby chicks a chance. Shipped knocked down and can easily be set up by anyone in a few minutes. Price, with 4 ft. yard, \$8.50. Express or freight only.

Little Putnam Stove for Poultry Fountains and Oat Sprouters

This little device will keep water from freezing in zero weather. It holds 6c worth of oil and burns a month without filling or trimming. Pool proof and fire safe. Used under any can, crock or fountain.

Over 80% of an egg is water. To get lots of eggs in winter, you should keep unfrozen water constantly before fowls. One cold day with water frozen, may stop egg production for a month.

A Little Putnam Stove is also used to heat a home-made oat sprouter. Plans for making sprouter packed with every stove. A 14-year-old boy can build the sprouter in two or three hours with no tools but saw and hammer. The materials required need not cost more than 50c. Price of Little Putnam Stove, Galvanized, \$1.95; Aluminum, \$2.95, postpaid. Illustrated circular on request.

"Cymaco" Dry Mash Feeders

Solve the Feeding Problem

The feeder that has won the highest favor among thousands of poultry man and farmers throughout the country. The CYMACO feeder is made of the best galvanized steel with enameled steel legs to hold the feeder off the ground. The flow of the feed may be regulated by means of two thumb screws at either end of the feeder. Agitators are worked automatically by the fowls while feeding. The CYMACO accommodates twice as many hens as the ordinary hopper feeder. CYMACO is provided with a catch tray which prevents waste of feed and provides a means to close at night.

Price: 8-qt. size (Parcel Post weight, 8 lbs.), each, \$1.65; 5-gallon size (Parcel Post weight, 4 lbs.), each \$3.00. See Twin Duplex on next page.

Two-Pen Duplex

Wall Fountain

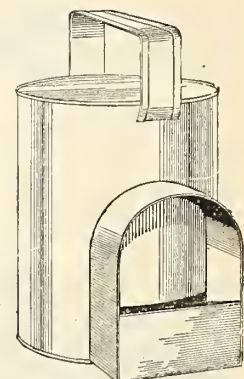

This has been very popular for years. Is a strong well made fountain and durable.

Price: 4-qt. size (Parcel Post weight, 2 lbs.), each, 90c; 8-qt. size (Parcel post weight, 3 lbs.), each, \$1.25.

Royal Jar Fountains

This Fountain will fit any Mason Jar, and is intended for feed and water. 15c each; 2 for 25c; \$1.25 doz., postpaid.

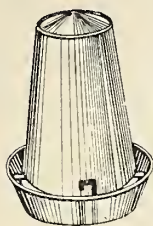

Wall Fountain

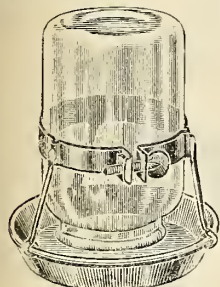

CHICK FEEDERS, POULTRY & PIGEON FOUNTAINS

Felker's Cone Fountain

For chickens and pigeons. A new and practical drinking fountain. A two-part attachable fountain. Chickens or Pigeons can drink all around it, but can not get into it or foul it. It being attachable makes it easy to move from place to place and it is not easy to tip over. Made in two sizes—one quart and two quart. 30c and 40c. Weight, 1 lb. each, both sizes.

Something New for the Chickens

Pat. Applied For

Felker's Handy Attachment

To Be Used With Any Make of Fruit Jar.

A perfect Feeder for sour milk, water, hard grain or grit. The container is made of aluminum, the only metal in which sour milk can be fed with safety. It is rust-proof and non-corroding. The Handy is adjustable, simple to operate and durable. Every one has some kind of a quart fruit jar—the Handy fits them all. 25c each, for postage add 5c.

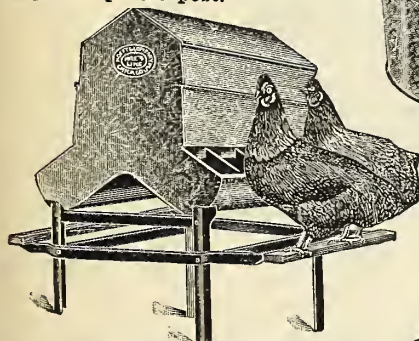

Moes Round Baby Chick Feeder

This is the most popular style of Baby Chick Feeders, being round more chicks may be served, being covered prevents contamination and wasting. Cannot be upset. No. 11, 6 inches in diameter, 8 feeding holes, each 15c; No. 12, 8 1/4 inches in diameter, 12 feeding holes, each 25c.

Moes Mammoth Dry Mash Hopper

Has many excellent features; for instance it will accommodate a full 100-lb. bag of mash, doing away with the annoyance and waste of having a partly empty bag of mash on the premises. The feed is within easy reach of the chickens, and is protected from the weather and from the ravages of rats and mice. Price, \$12.00—too large for parcel post.

Overall Mash Hopper

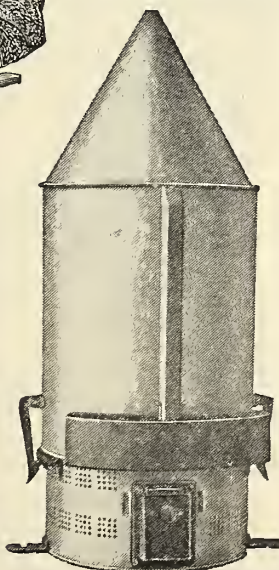

Overall Mash Hopper

All steel, galvanized. Cap. 6 qts. Price, 75c, postpaid 85c.

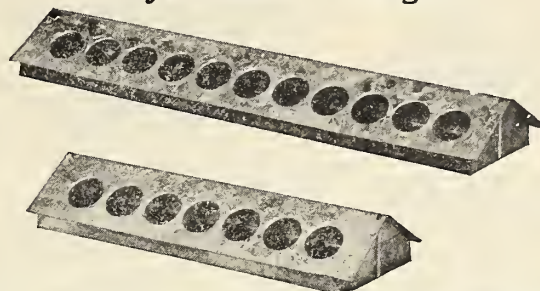

The Norwich Automatic Airlock Fountain

Guaranteed frost-proof to 10 degrees below zero. Fitted with detachable cup, removable oil chamber, heat generator, etc. Passed by Fire Underwriters.

Made in one size only, 5 gallons capacity. Parcel Post weight, 17 lbs.; less burner base, 10 lbs.; base only, 10 lbs.

Conkey's

THE ORIGINAL BUTTERMILK FEED
Prices Subject to Change.

For Baby Chicks

Conkey's Buttermilk Starting Feed was the first commercial feed containing buttermilk—that is why we call it the only ORIGINAL buttermilk starting feed.

Conkey's did not "just happen"—it is a scientifically-balanced feed as clean and wholesome and as conscientiously prepared as "infant food." Selected, plump grains, ground to proper fineness, are combined with other ingredients so as to make the feed readily digestible, palatable and nutritious. TASTE it, SMELL it, that's the way to judge a chick feed.

Guaranteed Analysis—Crude Protein, 14%; Crude Fibre, 4%; Crude Fat, 3%; Nitrogen Free Extract, 56%; Carbohydrates, 60%.

Ingredients—Semi-Solid Buttermilk, pinhead oatmeal, a special wheat middlings, whole corn meal, corn feed meal, granulated bone and blood flour.

Packed in convenient sizes from 2½ lbs. up. Buy 1½ lbs. for every chick.

Price—2½ lbs. 20c; 5 lbs. 40c; 10 lbs. 65c; 25 lbs. \$1.50; 100 lbs. \$5.00. Not postpaid.

Pratt's Egg Preserver

Put your eggs down in the spring and summer when they are cheap and keep them fresh for ten months. One gallon makes sufficient solution for 50 dozen. Do not trust eggs to water glass of inferior strength. Buy PRATTS EGG PRESERVER, the pure, strong kind. It will stand the maximum amount of dilution with water. Price, 1 quart, 35c; 1 gallon, \$1.00.

EGG-O-LATUM is a white cerate or ointment. Rubbed over the shell of the egg it seals every pore so that nothing can get in or out. The egg does not dry out. No air, moisture, odors, or germs can get in. The egg is preserved in all its original freshness. The application of Egg-O-Latum is easily and quickly done. A dozen per minute. Fresh eggs must be used, perfectly unfertile. Per jar, 50c; 55c postpaid. Enough for 50 dozen eggs.

EGG-O-HATCH

Egg-O-Hatch is a dry powder. It is mixed with water and the resulting liquid is applied to eggs two or three times during the 21 days of incubation. It is a liquid that does three things—supplies oxygen for the growing chick; absorbs carbon dioxide given off, makes more brittle and porous the shell of the egg. 50c per pkg.; 55c postpaid.

Pratts

"QUALITY" POULTRY FEEDS

Backed by over 50 years' experience with poultry, with every ingredient carefully selected and processed, PRATTS FEEDS are scientifically and practically correct. There is a Pratt Feed for every poultry need and every age of fowl. Use "Pratts" from the first feed and follow the Pratt system if you want real success and profit.

Start your chicks on

Pratts Buttermilk Baby Chick Food

the original "baby food for baby chicks." It has taken all the guess, worry and loss out of raising baby chicks. Use it the first month to six weeks and watch results. Chicks grow strong,

uniform, vigorous and sturdy and are free from leg weakness, "pasting up" and digestive troubles.

Equally good for young turkeys, guineas, ducks, pheasants and game birds. A perfect "baby food" for young fowls.

In packages and 5, 10, 14, 25, 50 and 100-lb. bags.

After the little fellows are about a month old switch them to

Pratts Buttermilk Growing Mash

This splendid mash for the growing youngsters supplies an abundance of every element needed for making bone, muscle, feathers and health. Insures vigor and quick, uniform growth. When they are matured give them

CARBOLA—The Disinfectant That Paints—Use it instead of Whitewash. Put on with a brush or sprayer—A snow-white cold water paint that will not blister, flake or peel off.

combined with a germicide twenty times stronger than carbolic acid, but neither caustic nor poisonous.

Particularly good for use in stables, cow barns, chicken coops, dairies, hog pens, creameries, cellars, factories, outbuildings. Prices: 5 lbs. makes 5 gals. 75c; 10 lbs. \$1.25; 50 lbs. \$5.00.

Yellow—For killing rats, mice and other rodents. 2 oz. 50c; 8 oz. \$1.50.

BARIUM CARBONATE—A tasteless and odorless mineral recommended by the U. S. Government for exterminating rats and mice. It was used for cleaning Baltimore of this pest. 25c pkt. \$2.50 per doz.

Common Sense Exterminator

KILLS RATS

Why feed rats when a 25c can of "Common Sense" will clean them out?

"Common Sense" has been on the market for over a quarter century. It does the work or we would not handle it.

Get a can NOW and if you do not find it entirely satisfactory, we will refund your money.

RAX IS NOT A POISON

Harmless to human beings, animal pets, poultry and birds, but a virus deadly to rats and mice. May be used anywhere with absolute safety.

It gets them all and is therefore the cheapest rat exterminator on the market at any price.

How to Use Rax

Simply add water to the bottle and shake well. Moisten (don't soak) bait stale bread, crackers, cheese—with the mixture and place easily available to holes and runways where rats and mice will readily eat it.

Directions are furnished with each package. One bottle is enough for an ordinary house; allow one bottle to each 500 feet of floor space in barns, warehouses, etc.

Price: 75c per bottle, postpaid.

CARBOLINEUM—Will keep your Poultry House clean and free from Mites, Lice and Ticks. It is valuable for the fruit grower as a bark treatment. The best wood preserver known and of great benefit for the farmer, for dipping seed corn, to keep the crows from eating it. Gallon \$1.50. Cannot be sent parcel post.

"Zenoleum" Disinfectant, Lice Killer and Animal Dip—We have been selling this article for years, and find it most

satisfactory. One gallon makes 100 gallons of fluid. 8 oz. 35c; 1 pt. 50c; 1 qt. 75c; 2 qt. \$1.25; 1 gal. \$2.00. Liquid.

GERMO CREOSOTE DISINFECTANT AND DIP—1 qt. 50c; 2 qts. 90c; 1 gal. \$1.50.

April 12, 1926.

Gentlemen:—

The 600 chicks which I received from you are doing nicely; only one is dead. They were a very nice lot of chicks and I am very well pleased with them.

Yours truly,

GEORGE H. LONG,
Arnold, Md.

M. & S. WONDER BRED CHICKS

Are hatched to live and mature to big fine healthy specimens. We are this season hatching thousands weekly, and are better prepared than ever to fill wants of patrons.

We advise placing orders ahead of time, as the demand for our **M. & S. WONDER BRED CHICKS** is always great. We will start deliveries the last week in February and continue until the first of June on all popular breeds.

DON SUNG

Chinese for Egg-Laying
Makes Hens Lay in Any
Weather

COSTS NOTHING TO TRY

Every poultry raiser is invited to try Don Sung—at our risk. Separate 15 hens and give them Don Sung for one month. Then watch results. If Don Sung pays you, keep on with it. If you don't think it has paid you, tell us and back comes your money. No argument to it. Don Sung is guaranteed—try it, at our risk. Prices of Don Sung Tablets: Small size, 50c; large size (3 times the 50c size), \$1.00; Special Size (6 times the \$1.00 size), \$5.00. We can also supply **POWDERED Don Sung** (for large flocks) at these prices: 3 lbs. (same quantity as \$5.00 package of tablets), \$5.00; 10 lbs. \$10.00; 25 lbs. \$20.00; 50 lbs. \$35.00; 100 lbs. \$65.00. All postpaid.

AVICOL

For White Diarrhea
in Chicks and Black-
Head in Turkeys

USE AVICOL FOR PREVENTION AND TREATMENT

Don't sit back and say your loss of baby chicks can't be stopped. It CAN BE STOPPED—easily, quickly, and at almost no expense. All you need do is drop an Avicol tablet in the water occasionally. Avicol is a special bowel antiseptic. It stops disease and prevents its spread by destroying germ life and helping the chick withstand infection. Price, 50c; Special Large Size (almost 3 times 50c size), \$1.00. Postpaid.

Talcimized Sodium Fluoride Kills Chicken Lice

Talcimized Sodium Fluoride (called "T. S. F.") is made especially for poultry use. It is less irritating than straight Sodium Fluoride, penetrates the plumage more thoroughly, and comes packed in a moisture-proof, shaker-top package bearing the U. S. Government's directions for using. It is convenient—never cakes or loses strength—and always does the work. Full directions are on every can of T. S. F. for use in three ways, either by dip, dusting or pinch methods. Prices—Small Size (for 50 chickens), 35c, postpaid 40c; Large Size (twice the 35c size), 60c, postpaid 70c; Special Size (5 times 60c size), \$2.50, postpaid \$2.65.

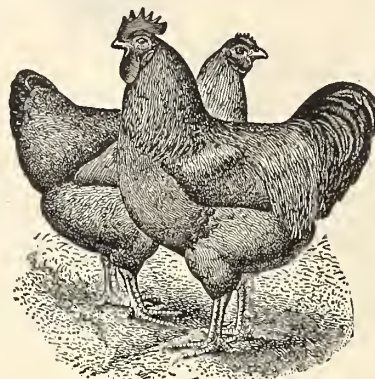

Roup-Over

"The Over-Night Roup Remedy" For Roup, Canker and Colds. Use Roup-Over at the very beginning of colds in your flock. It clears the air passages and brings relief with magic quickness. Easily used, both for individual treatment and in the drinking water for flock prevention. Leading poultry raisers everywhere now use Roup-Over, the over-night roup remedy. It's so easy! So sure! There's no other remedy like it—nothing "just as good." Have a bottle ready to use when you need it. Price, 50c; Large Size (3 times 50c size), \$1.00.

NOTICE!

Due to the close margin on which baby chicks, eggs and all live stock is sold we are obliged to sell this commodity for spot cash only. All orders should be accompanied by cash. One-fourth (25 per cent) of the amount of the order should accompany all orders for baby chicks for future delivery.

We exercise the greatest of care to send out vigorous and healthy chicks, but due to the many causes which hinder the growth and health of chicks, it is impossible for us to guarantee their development.

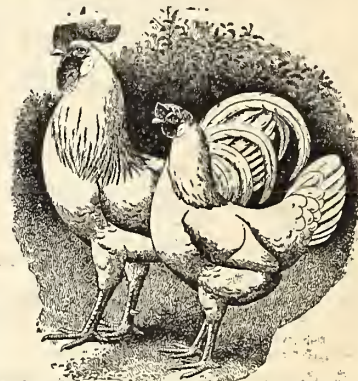

Single Comb Rhode Island Reds

Single Comb Leghorns

The most popular fowl of the day. They grow very fast, often laying when only four or five months old; non-setters. Three varieties—White, Brown, and Buff Leghorns.

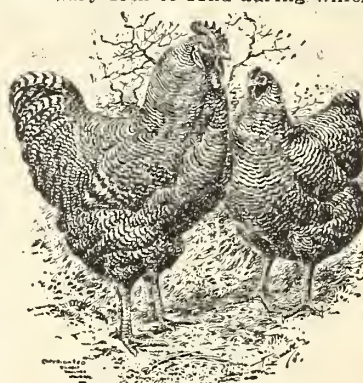

Garrison, Md., May 1, 1925.
Gentlemen—Out of the 200 chicks purchased from you last year I raised 130 out of which I culled 52 pullets. These turned out to be wonderful layers. They started to lay November and kept right through the winter. Their highest laying period was week of February 15th to 22nd during

Single Comb White Leghorns

which time they layed 16 1/3 dozen. All through the season they never layed less than 20 eggs a day.

J. B. CAHN.

Barred Plymouth Rocks

Plymouth Rocks

The best general purpose fowl; good layers, splendid breeders, are hardy and vigorous. Three varieties: Barred, White, and Buff Rocks.

Poultry and Eggs

We can furnish most all popular breeds. Let us know your wants.

July 15, 1926.

Gentlemen—

The Barred Rock chicks which you recently sent me were received in excellent condition and I must say they are a fine lot. So far only one has died.

Yours very truly,

MRS. H. STUMP, Belair, Md.

May 1, 1926.

Gentlemen—

The R. I. Red chicks which you sent me were certainly a nice lot and I was very well pleased with them. Out of the 100 I raised 95, which I consider a very high percentage.

Yours truly,

C. M. BENNETT, Timonium, Md.

Both ready in May and sent postpaid.
Order now, before supply is exhausted.

Wizard

TRADE BRAND MARK

Sheep Manure

Makes all Plants Grow!

YOU can't expect a beautiful lawn and garden or crisp, luscious vegetables unless you have a rich, fertile soil. It is a waste of time and money to plant in hard, worn-out soils that bake hard as a brick in the summer sun. WIZARD is a concentrated natural fertilizer that supplies the humus and plant food so necessary to make plants grow. It puts new life into worn-out soils. WIZARD is weedless and economical—ONE BAG EQUALS A WHOLE WAGON LOAD OF STABLE MANURE. It is not a chemical stimulant, but is a real soil builder of lasting benefit.

LAWNS—Wizard Sheep Manure produces a thick, velvety, green turf of lasting beauty. Make an application early in Spring and you will be surprised at the new beauty it will develop. On new lawns broadcast 10 pounds to every 100 square feet and rake into the surface soil. To renew old lawns, rake well and broadcast 6 to 10 pounds per 100 square feet. Avoid weeds by using WIZARD.

FLOWER GARDENS—Luxuriant green foliage and a wealth of vivid colored flowers are the result of feeding your plants with WIZARD. In making new planting be sure the soil under the roots is made rich and fertile. Light applications during the growing season will put new life into your plants and prolong the blooming period. A handful mixed well with the soil under each plant will insure strong, rugged growth. Broadcast 10 pounds per 100 square feet of garden soil.

VEGETABLES AND FRUIT—If you want a big crop of crisp, tender vegetables, be sure to use WIZARD. Every practical gardener knows that there is nothing better than manure to grow big crops of vegetables. Fruit crops respond quickly to this natural plant food. It improves the yield, color and flavor.

FLORISTS—Wizard Sheep and Cow Manures have been the standard of quality for twenty years. For feeding and liquid manuring WIZARD is unexcelled. Cow Manure is preferred for use on Roses, Lilies, etc., and for mixing with bench and potting soil. You need manure to grow plants at a profit, and it pays to insist on WIZARD Brand.

PRICES
